

Where international, state, county, and/or MCD boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

Geographic area names are followed by either their FIPS or census code.

MCD boundaries are shown in the following states in which some or all MCDs function as general purpose governmental units: Connecticut, Illinois, Indiana, Kansas, Maine, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, South Dakota, Vermont, and Wisconsin. (Note that Illinois and Nebraska have some counties covered by nongeneral purpose precincts and Missouri has most counties covered by nongeneral governmental townships.)

2 A " " following an MCD name denotes a false MCD. A " " following a place name indicates that a false MCD exists that is coterminous with the place and has the same name and FIPS code as the place (the false MCD label is not shown).

3 Place label color corresponds to the place fill color.

4 2026 State Legislative Districts.

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.
