By 1990, the crews−of−vessels population of ships at sea was allocated to the boundary symbol for only the highest−ranking of these boundaries. The boundaries shown on this map are for a census tract with a '.99' suffix. An anchor symbol appeared on the 1990 United States census maps for Alaska Native village statistical areas (ANVSA), Alaska Native statistical areas (ANRC), tribal designations, and land that is off−reservation trust land (TJSA). These areas are not comparable to those shown for counties in this map.
