Figure 1: Examples of map symbols and their corresponding labels. The figure shows a grid of symbols and labels. The first column contains symbols for Highway (solid line), Secondary Road (dashed line), Jeep Trail/Walkway/Ferry (dashed line with cross-ticks), Railroad (line with cross-ticks), Military (blue dotted area), and Inset (grey rectangle). The second column contains labels for Pipe/Power Line (line with cross-ticks), Ridge/Physical Feature (line with cross-ticks), Property/Fence Line (line with cross-ticks), Nonvisible Boundary (dotted line), and Out Area (grey rectangle). The third column contains labels for Stream/Shoreline (blue wavy line), Intermittent Stream (blue dashed line), River (blue wavy line), and Glacier (blue wavy line).

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- ¹ A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- ² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a ".99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- ³ A "*" following a block number indicates that the block number is repeated elsewhere in the block.
