Geographic area names are followed by either their FIPS or census code.

1 MCD boundaries are shown in the following states in which some or all MCDs function as general-purpose governmental units: Connecticut, Illinois, Indiana, Kansas, Maine, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, South Dakota, Vermont, and Wisconsin. (Note: Some counties in Illinois and Nebraska are covered by nongovernmental precincts and most counties in Missouri are covered by nongovernmental townships.)

2 A " " following an MCD name denotes a false MCD. A " " following a place name indicates that a false MCD exists that is coextensive with the place and has the same name and FIPS code as the place; the false MCD label is not shown.

3 Place label color corresponds to the place fill color.

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.
