

Attachment 1, Census Address Summit Agenda
 Thursday, September 8th, 10:30am Address List Building
 Small Group Break Out Session Worksheet

Group #: 1	Group Members: Bill Johnson, John Wilson, Joe Sewash, Shawn Holyoak, David Jackson, Deirdre Dalpiaz Bishop, Rachel Bello, Carol Rogers, Hilary Perkins
Development of an Address List	
1. What are the critical considerations when beginning development of an address list: <ul style="list-style-type: none"> • Guide standards, define use cases, MAF is possible with good metadata • Technology and financial • Broader is better. Account for data churn. Quality varies • Remember privacy concerns. Also perception of privacy – re: property records. Privacy expectations 	
2. What are some of the <i>greatest challenges</i> with developing an address list from scratch: <ul style="list-style-type: none"> • Privacy concerns. Also perception of privacy – re: property records. Privacy expectations 	
3. What are some of the <i>best practices</i> for developing an address list from scratch: <ul style="list-style-type: none"> • Web services that control feeds and access • Develop a template that all can use • Census can develop prototypes regions can test • Neither top down nor bottom up works – collaboration/partnership is critical • Good guidance structure, especially maintenance • Transparency and business case • Documentation • Platform neutrality/interoperability 	
4. How are the following utilized when developing an address list from scratch: <ol style="list-style-type: none"> a. Standards: <ul style="list-style-type: none"> • Everyone should use FGDC address data standard b. Standardization : <ul style="list-style-type: none"> • Resources hog to build common definitions. Enhances useability but may reduce interoperability – brings back to value of using the standard 	

c. Partnership:

- **May be the toughest. Formalize informal relationship**
