HISTORY

The United States acquired the area of Hawaii through annexation of the Republic of Hawaii on July 7, 1898. Hawaii was officially organized as a territory of the United States on June 14, 1900, with generally the same boundary as the present state. Hawaii was admitted to the Union on August 21, 1959, as the 50th state.

Census data for Hawaii are available beginning with the 1900 census. The 1910 through 1930 populations do not include Midway Islands, and the 1940 population does not include Baker Island, Canton Island, Enderbury Island, Howland Island, Jarvis Island, Johnston Atoll, and Midway Islands which were enumerated as part of Hawaii Territory even though not legally part of the territory. The 1940 population does include Palmyra Atoll (administratively named Palmyra Island), which was legally part of Hawaii Territory since its organization, but separated from Hawaii upon statehood. For the 1930, 1940, 1950, and 1970 censuses, the population and housing unit data for Kalawao County were included in Maui County. The validity of the urban population reported in Hawaii for 1900, 1910, and 1920 is limited because a place population of 2,500 was required to classify territory as urban, and the Census Bureau did not consistently identify places in Hawaii before 1930.

Data for the legally established state of Hawaii are available beginning with the 1960 census.

NATIVE HAWAIIAN AREAS

There are 75 Hawaiian home lands in the state of Hawaii. Hawaiian home lands are unique to Hawaii and are lands held in trust for Native Hawaiians by the state, pursuant to the Hawaiian Homes Commission Act of 1920, as amended.

METROPOLITAN AND MICROPOLITAN STATISTICAL AREAS AND RELATED STATISTICAL AREAS

Hawaii has one metropolitan statistical area and three micropolitan statistical areas.

COUNTIES

Hawaii has five counties.

COUNTY SUBDIVISIONS

There are 44 county subdivisions in Hawaii. They are all census county divisions (CCDs), which are delineated for statistical purposes, have no legal function, and are not governmental units.

PLACES

Hawaii has 151 places; all are census designated places (CDPs). Hawaii is the only state that has no incorporated places recognized by the Census Bureau. In agreement with the state, the legal consolidation of Honolulu County and city is not recognized for census purposes except for the Census of Governments.
