A Message from the Director, U.S. Census Bureau...

The U.S. Census Bureau is currently conducting its 2013 Annual Survey of School System Finances. We conduct this survey in order to make available up-to-date school district finance data essential to the work of the U.S. Congress, state legislators, government finance officers, education research organizations, and many others.

State education agencies report most of the school district finance data requested for this survey. State financial reports, however, often do not contain details regarding school district assets held in various nonretirement funds, such as general, debt service, and bond funds.

The reverse side of this letter lists the detailed information about the school district assets that we are requesting. There is a web application (<https://respond.census.gov/f33>) available for submitting this data. You can find your school district's username and password for the web application on the reverse side. Among the benefits of the web application is the ability to view the prior year data your school district submitted. If you prefer, you can still return this letter in the enclosed addressed envelope. Please complete this survey within two weeks.

If you need assistance with your responses, please contact us by e-mail at govs.elsec@census.gov or by phone at 1-800-622-6193, weekdays between 8 AM and 6 PM EST.

We conduct this voluntary survey as authorized by Title 13, United States Code, Section 182. Public records retained from this collection do not require confidentiality. The Census Bureau appreciates your participation.

Sincerely,

John H. Thompson
Director
