[1] Includes United States notes less amount in reserve fund. For purposes of uniformity this has been considered as $150,000,000 prior to 1900 and a like amount deducted from cash in the Treasury, although the act authorizing a separate fund was not passed until 1900.

[2] Does not include gold and silver certificates or Federal Reserve gold fund for payment of which an equal amount of money is held in trust and not included as cash in Treasury.

[3] Estimated amounts. Includes matured interest obligations, discount accrued on War Savings Securities, Treasury warrants and disbursing officers' checks outstanding. No estimate of matured coupons was made prior to 1916. Includes only Treasury warrants outstanding for years prior to 1914.

[4] Consists of balance in the general fund before deducting disbursing officers' credits which are merely book credits or authorizations to draw on the Treasurer.

[5] Cash in Treasury deducted from amounts shown under gross debt plus matured interest obligations, etc.

[6] Estimates of the Government Actuary.

[1] The large increase in field-service figures for 1913 is due to the inclusion of navy-yard artisans' positions to the number of about 16,000 in the competitive classified service.

[2] 11,635 fourth-class postmasters, appointed in 1914 and 18,238 in 1915, under the Executive order of May 7, 1913, requiring examinations at offices whose incumbents had not been appointed under the regulations are not included in this table.
