LETTER OF TRANSMITTAL

DEPARTMENT OF COMMERCE,
BUREAU OF THE CENSUS,

SIR: I have the honor to submit herewith for publication the sixty-third issue of the Statistical Abstract of the United States. This annual volume is a compilation of authoritative statistics relating to the social and economic condition of the population and to the industrial, commercial, and governmental activities of the Nation. It is designed to serve as a convenient reference work for businessmen, economists, statisticians, students, and others who may have need of a statistical compendium covering a wide range of subjects.

The present volume was prepared in the Division of Statistical Research of this Bureau, under the supervision of Kathleen H. Dugan, editor, and under the administrative direction of Calvert L. Dederick, Chief Statistician for the Division.

The first 34 issues of the Abstract were prepared and published by the Bureau of Statistics, originally a bureau of the Treasury Department and later of the Department of Commerce and Labor; the next 25 by the Bureau of Foreign and Domestic Commerce, Department of Commerce; and subsequent issues by the Bureau of the Census.

The statistical tables contained in the Abstract are compilations of data collected by the various statistical agencies of the Federal Government, by several State agencies, and by a considerable number of nongovernmental organizations. Many of these agencies have rendered valuable assistance not only in supplying advance data but also in the actual preparation of tables for inclusion in the Abstract. Special mention on this account is due the following-named agencies of the Federal Government: The Bureau of Foreign and Domestic Commerce, the Bureau of Marine Inspection and Navigation, and the Weather Bureau, of the Department of Commerce; the Bureau of Agricultural Economics, the Agricultural Marketing Service, the Office of Foreign Agricultural Relations, the Farm Credit Administration, and the Forest Service, of the Department of Agriculture; the Office of Education and the Social Security Board, of the Federal Security Agency; the Bureau of Fisheries, the General Land Office, the Bureau of Mines, and the National Park Service, of the Department of the Interior; the Immigration and Naturalization Service, of the Department of Justice; the Bureau of Labor Statistics, of the Department of Labor; the Bureau of Customs and the Bureau of Internal Revenue, of the Treasury Department; the Federal Communications Commission; the Board of Governors of the Federal Reserve System; the Interstate Commerce Commission; the Railroad Retirement Board; the United States Maritime Commission; and the Veterans' Administration.

Respectfully,

J. C. CAPT,
Director of the Census.

TO HON. JESSE H. JONES,
Secretary of Commerce.
Table Page
35. Population 21 years of age and over, by race, nativity, parentage, and sex, and males 18 to 44 years of age, by States: 1890. ................................................. 40
36. Population, by age groups, by States: 1920 and 1940. ................................................. 42
40. Population, by age groups, 1910 to 1940, and by race and sex, by age groups, 1940, for continental United States. ................................................. 44
41. Marital status, by sex, race, nativity, and parentage, continental United States: 1920 and 1930. ................................................. 46
42. Marital status, by sex, by States: 1930. ................................................. 46
43. Marital status, by sex, race, nativity, and parentage, for urban and rural population, continental United States: 1930. ................................................. 48
44. Dwellings, by sex, and families, by home tenure, for urban and rural areas, continental United States: 1920 and 1930. ................................................. 48
45. Families, by home tenure, 1920, and by size of family, 1920 and 1930, by States. ................................................. 49
46. Families, by race and nativity of head, and dwellings, by class, by States: 1920. ................................................. 50
47. Families, by sex, by number of children under 18 years of age, and by number of gainful workers (including those temporarily unemployed): 1920. ................................................. 51
48. Families, nonfarm, by value or monthly rental, by race and nativity of head of family, for the United States: 1920. ................................................. 51
49. Families, nonfarm, owned, by value groups, by States: 1920. ................................................. 52
50. Families, farm, owned, by value groups, by States: 1920. ................................................. 52
51. Families, nonfarm, rented, by monthly-rental groups, by States: 1920. ................................................. 53
52. Families, farm, rented, by value groups, by States: 1920. ................................................. 54
53. Illiteracy of persons 10 years of age and over, by race, nativity, and sex, by geographic divisions: 1920. ................................................. 54
54. Illiteracy of persons 10 years of age and over and 21 years of age and over, by race, nativity, and sex, by States: 1920. ................................................. 55
55. Illiteracy—Percent distribution for table 54. ................................................. 55
56. Employment status of the population 14 years old and over, by sex and age, for urban and rural: Mar. 24-30, 1940. ................................................. 58
57. Employment status of the population 14 years old and over, in cities of 100,000 inhabitants or more: Mar. 24-30, 1940. ................................................. 59
58. Employment status of the population 14 years old and over, by States: Mar. 24-30, 1940. ................................................. 59
59. Population 10 years of age and over—Total and number gainfully occupied, by sex and age continental United States: 1920 and 1930. ................................................. 60
60. Gainful workers 10 years of age and over, by sex and age groups, by race and nativity, and by occupation groups, continental United States: 1920. ................................................. 60
61. Gainful workers 10 years of age and over, by sex, by occupation groups, by States: 1930. ................................................. 60
62. Gainful workers 10 years of age and over, by sex, by States: 1920 and 1930. ................................................. 61
63. Gainful workers 10 years of age and over, by sex, occupied workers by sex, continental United States: 1920 and 1930. ................................................. 61
64. Gainful workers 10 years of age and over, by occupation, by sex, continental United States: 1920 and 1930. ................................................. 61
65. Religious bodies—Denominations, by number of churches and by membership: 1935 and 1938. ................................................. 76
66. Religious bodies—Values of church edifices, expenditures, and number and membership of Sunday schools: 1935. ................................................. 80

2. DEFFECTIVES AND DELINQUENTS
67. Mental patients, mental defectives, and epileptics in State institutions, and prisoners in State and Federal prisons and reformatories: 1910 to 1940. ................................................. 81
68. Movement of patient population in hospitals for mental disease and in institutions for mental defectives and epileptics: 1927, 1935, and 1939. ................................................. 81
69. Patients in hospitals for mental disease and in institutions for mental defectives and epileptics, by States: 1939. ................................................. 82
70. First admissions to hospitals for mental disease, by psychosis, by sex: 1938 and 1939. ................................................. 83
71. Patients with psychoses in State hospitals for mental disease—Discharges and deaths, by psychosis: 1938 and 1939. ................................................. 83
72. First admissions to State hospitals for mental disease, patients with psychoses only—By sex and age groups: 1938 and 1939. ................................................. 84
73. First admissions to institutions for mental defectives and epileptics—By sex, mental status, and type of epilepsy: 1938 and 1939. ................................................. 84
74. Prisoners in State and Federal prisons and reformatories—Received from courts, by color, nativity, age groups, and sex: 1937, 1938, and 1939. ................................................. 84

CONTENTS

Table of Contents

78. Prisoners discharged from State and Federal prisons and reformatories—By timeserved, offense, and method of discharge: 1939
79. Juvenile delinquents in State institutions—Total present January 1 and number of males and females received from courts during year, by States: 1939
80. Juvenile delinquents received from courts, by offense, by sex and age: 1939
81. Children under institutional care, by type of care, by States: Dec. 31, 1938
82. Children under institutional care, by type of care, race, and time under care, by sex, by age and sex: Dec. 31, 1938
83. Children under institutional care, by sex, by status of parents as living or dead: Dec. 31, 1938
84. Blind and deaf-mutes, by sex: 1939 to 1950
85. Blind and deaf-mutes, by States: 1939

3. VITAL STATISTICS

86. Deaths and death rates, for death-registration area: 1930 to 1940
87. Death rates per 1,000 population, by sex and by age groups, for death-registration States: 1930 to 1939
88. Deaths by States: 1939 and 1940
89. Death rates per 1,000 population, by States: 1930 to 1940
90. Death rates per 1,000 population, by sex: 1930 to 1940
91. Births, deaths, and deaths under 1 year of age, by sex, for death-registration area: 1910 to 1940
92. Births and deaths, by place of occurrence and place of residence, for selected cities: 1938
93. Births and deaths, by legitimacy, by States: 1939
94. Births and deaths, for selected classes of death, for death-registration area: 1939
95. Births and deaths, for selected causes of death, by States: 1939
96. Birth rates and death rates per 1,000 population, by birth-registration area: 1930 to 1940
97. Births and deaths, by sex, for death-registration area: 1930 to 1940
98. Births and deaths, by legitimacy, by States: 1939
99. Deaths of infants under 1 year of age, 1938 to 1940, and death rates per 1,000 births, 1930 to 1940, by States
100. Death rates per 1,000 births, for infants under 1 year of age, for death-registration area, by principal causes of death: 1930 to 1939
101. Death rates per 1,000 births, for infants under 1 year of age, by age groups, for birth-registration area: 1930 to 1939
102. Births and deaths in Hawaii, Puerto Rico, and Virgin Islands
103. Homosexuals and suicides, for cities having 100,000 population or more: 1939: 1930 to 1939
104. Births and death-registration areas—States included and year when admitted: 1880 to 1938
105. Marriages, divorces, and annulments, continental United States: 1887 to 1937
106. Marriages, divorces, and annulments, by States: 1931 and 1932

4. IMMIGRATION, EMISSION, AND NATURALIZATION

107. Immigration: 1821 to 1940
108. Aliens admitted and deported: 1910 to 1940
109. Aliens debarred and deported: 1910 to 1940
110. Immigration, by sex, age, occupation, literacy, and amount of money brought: 1882 to 1940
111. Immigration, by country of origin, by decade: 1882 to 1940
112. Naturalization certificates issued, by States and existing Territories and possessions, by sex: Years ended June 30, 1937 to 1940
113. Naturalization certificates issued, by country of former allegiance: Years ended June 30, 1937 to 1940
114. Naturalization certificates issued, by sex: Years ended June 30, 1937 to 1940
V. EDUCATION

Table of contents

121. Schools, public elementary and secondary—Summary for continental United States: 1870 to 1938.-----------------Page 116
122. Schools, elementary and secondary, public and private—Enrollment and attendance, by States and by States and outlying areas: 1920 to 1938.------------------117
123. Teachers in public elementary and secondary schools—Numbers and salaries, by States and outlying areas: 1920 to 1938.---------------------------118
124. Schools, public elementary and secondary—Expenditures, by States and outlying areas: 1920, 1930, and 1938.---------------------------119
125. Schools, public elementary and secondary—Enrollment, white and Negro, for 18 States: 1920, 1930, and 1938.------------------120
126. Schools, public elementary and secondary—Enrollment, by States and outlying areas.------------------------120
127. High schools and academies—Teachers, pupils, and graduates, by sex, for continental United States: 1870 to 1938.------------------121
128. School and college enrollments and expenditures, for continental United States: 1900 to 1938.------------------122
129. Institutions of higher education—Faculty, students, and recipients of degrees, by sex, for continental United States: 1902 to 1938.------------------122
130. Junior college—Number and enrollment, for continental United States: 1929-1938.------------------123
131. Institutions of higher education—Income and expenditures, for continental United States: 1932 to 1938.------------------123
132. Institutions of higher education—Faculty, enrollment, and recipients of degrees, by States, Territories, and outlying possessions: 1938.------------------124
133. Professional schools—Enrollment by principal courses, by States, Territories, and outlying possessions: 1938.------------------126
134. Institutions of higher education—Students enrolled in and graduating from teacher-training courses, by States and outlying areas: 1924, 1930, and 1938.------------------127
136. Summer sessions and correspondence, nurse training, and commercial schools—Number of students, by States and for Hawaii, Philippines, and Puerto Rico.------------------129
137. Residential schools for the blind, the deaf, the mentally deficient, and the delinquent—Number of schools and of pupils, by States: 1936.------------------130
138. Special schools and classes for exceptional children—Enrollment for city school systems, by States: 1938.------------------151
139. Vocational schools and vocational teacher-training courses, Federally aided—Number of teachers and students, by class of school or course and by sex: Years ended June 30, 1930 to 1940.------------------152
140. Vocational schools and vocational teacher-training institutions—Expenditures under vocational education acts: Years ended June 30, 1930 to 1940.------------------153
141. Vocational schools and vocational teacher-training institutions—Total expenditures from Federal money, by States and Territories and for Puerto Rico: Years ended June 30, 1930 to 1940.------------------154
142. Vocational courses, Federally aided—Students enrolled, by class, by States and Territories and for Puerto Rico: Year ended June 30, 1940.------------------155
143. Vocational rehabilitation of disabled persons, by number and by cases on roll, by States and for Hawaii and Puerto Rico: 1909 to 1940.------------------156

VI. PUBLIC LANDS

144. Public and Indian land, entries and patents—Acresage: Years ended June 30, 1900 and 1940.------------------137
145. Public and Indian land, entries under all acts—Acresage, by States: Years ended June 30, 1938 to 1940.------------------137
146. Public land, homestead entries—Acresage for United States, 1898 to 1920, and by States, 1921 to 1940, for years ended June 30.------------------138
147. Public and Indian land, stock-raising homesteads—Number of original entries and acresage, by States, from issuance of act of Dec. 26, 1916, to June 30, 1940.------------------138

467. Telegraph systems—Wire mileage in all systems, and number of telephones in the Bell System: 1926 to 1940. .......................................................... 430
468. American Telephone & Telegraph Co. and principal telephone subsidiaries (Bell Telephone System)—Summary: 1929 to 1940. ........................................... 430
469. Telephone systems—Summary, class A carriers: 1926 to 1940. ................................ 431
470. Radiotelephone—Summary: 1927. ............................................................................. 431
471. Wire-telephone carriers (land line and ocean cable)—Summary: 1926 to 1940. ........ 432
472. Radiotelegraph carriers—Summary: 1921 to 1940. .................................................. 432
473. Western Union Telegraph Co.—Line and wire mileage, offices, and finances: 1927 to 1940. .......................................................... 433
474. Radio broadcasting industry: 1929. ........................................................................... 433
475. Telegraph systems, land and ocean-cable—Summary: 1912 to 1937. ........................ 434

18. POWER

476. Energy from mineral fuels and water power—Annual supply, by source: 1871 to 1940. 435
477. Generating plants—Installed capacity, by type of prime mover: 1920 to 1940. ............ 435
478. Electric energy—Production, by type of prime mover: 1920 to 1940. ......................... 436
479. Generating plants—Installed capacity, by class of ownership: 1920 to 1940. .......... 436
480. Electric energy—Production, by class of ownership: 1929 to 1940. ......................... 437
481. Consumption of fuel for production of electric energy: 1920 to 1940. ....................... 437
482. Generating plants—Installed capacity, by type of prime mover and by class of ownership, by States: 1940. .......................................................... 438
483. Electric energy—Production by type of prime mover and by class of ownership, by States: 1940. .......................................................... 439
484. Electric light and power industry—Summary: 1923 to 1937. ..................................... 440
485. Electric light and power industry—Generating facilities, electric generated, and fuel consumed, by reporting streets: 1937. ........................................... 441
486. Sales of electric energy—Number of customers, energy sold, and revenue from electric service: 1927. .......................................................... 441
487. Sales to ultimate consumers—Number of customers, energy sold, and revenue from electric service, by class of service, privately owned and municipally owned electric utilities: 1937. ........................................... 442
488. Generator capacity and energy generated, all plants, and energy generated, privately owned and municipally owned electric utilities, by States: 1927. ........................................... 443
489. Electric light and power industry—Energy generated, sales, revenue, and customers: 1929 to 1940. .......................................................... 444
490. Average typical bills for specified quantities of electric energy in cities of 5,000 population or more: 1924 to 1941. .......................................................... 444
491. Net monthly bill for specified quantities of electric energy, based on rates as of Dec. 15, 1929 and 1940, by cities. ........................................... 445
492. Water power resources and potential: 1921 to 1941. ........................................... 446

19. PUBLIC ROADS AND MOTOR VEHICLES

493. Rural roads—Mileage, funds available, and disbursements, 1921 to 1940, and construction under Federal aid: 1930 to 1940. ........................................... 447
494. State-highway systems—Mileage of rural roads and of urban extensions as of Dec. 31, 1930, and rural mileage surfaced, 1926 and 1930. ............ 448
495. Disbursements of State-highway funds, by State: 1921 to 1941. ............................ 449
496. State-highway funds available, by source, and disbursements, by purpose, by States: 1940. .......................................................... 450
497. Road construction and grade-crossing projects, Federal aid and emergency: Status as of Dec. 31, 1940. .......................................................... 451

CONTENTS

21. WATERWAYS, WATER TRAFFIC, AND SHIPPING

21.8. United States Merchant Marine—Summary: 1789 to 1940.

21.9. United States Merchant Marine—Number and gross tonnage of vessels on January 1, 1941, by years of age.

21.10. United States Merchant Marine—Number and gross tonnage of vessels on January 1, 1941, by ownership groupings.

21.13. Commercial traffic through the Panama Canal, total, 1914 to 1940, and by nationality of vessel, 1940.

21.15. Panama Canal—Revenues, expenses, and computed surplus: 1914 to 1940.

21.16. Marine wrecks and casualties occurring to vessels of the United States, 1921 to 1940, and by regions, 1927 to 1940.

21.19. Water-borne imports and exports—Cargo tonnage, by flag of carrier vessel, 1921 to 1940, and by coastal districts, 1930 to 1940.

21.23. Vessels entered and cleared in foreign trade—Net tonnage, by regions and by customs districts: 1897 to 1940.

21.27. Vessels entered and cleared at seaports in foreign trade—Net tonnage, by nationality of vessel: 1921 to 1940.

21.28. Exports (including reexports) and imports of merchandise: Value, by method of carriage: 1833 to 1933.

21.29. Exports (including reexports) and imports of merchandise: 1833 to 1933.

22. FOREIGN COMMERCE OF THE UNITED STATES

22.1. Foreign trade of the United States—Summary: 1870 to 1940.

22.2. Merchandise trade of continental United States with foreign countries and outlying Territories and possessions: 1860 to 1940.

22.3. Gold under earmark for foreign account in the United States: 1877 to 1940.

22.4. Balance of international payments to the United States: 1899 and 1940.

22.5. Exports and imports of gold, by months: 1865 to 1940.

22.6. Exports and imports of silver, by months: 1868 to 1940.

22.7. Exports (including reexports) and general imports of merchandise, by months: 1866 to 1941.

22.8. Exportable goods, production and proportion exported: 1860 to 1890.

22.9. In-transit and transshipment trade of the United States: 1888 to 1940.

22.10. Exports and imports of merchandise: 1791 to 1940.

22.11. Exports and imports of gold, silver, and of merchandise, gold, and silver combined: 1821 to 1940.

22.12. Supplement to tables 279 and 280: Calendar years 1860 to 1913, and fiscal years ended June 30, 1923 to 1933.

235. Exports and imports of merchandise, with trade balances: 1790 to 1865. .......................... 528

236. Exports and imports of merchandise, per capita: 1790 to 1940. .......................... 529

237. Imports entered for consumption and duties thereon: 1821 to 1940. .......................... 527

238. Exports of United States merchandise—Value of selected articles: 1821 to 1940. .......................... 538

239. Imports—Value of selected commodities: 1821 to 1940. .......................... 530

240. Exports of United States merchandise and imports—Indexes of quantity, unit value (petra), and total value: 1918 to 1940. .......................... 532

241. Exports and imports of merchandise, by economic classes—Percent distribution: 1821 to 1940. .......................... 533

242. Exports of United States merchandise and imports, by economic classes: 1821 to 1940. .......................... 534

243. Imports of merchandise, fees and duties, and percent fees, by economic classes: 1821 to 1940. .......................... 535

244. Foreign trade with each continent, by economic classes: 1929 to 1940. .......................... 538

245. Foreign trade—Percent of each continent families or takes of total in each economic class: 1929 to 1940. .......................... 539

246. Foreign trade—Percent of each economic class of total for each continent: 1929 to 1940. .......................... 540

247. Exports (including reexports) and general imports of merchandise, by continents: 1821 to 1940. .......................... 540

248. Exports and general imports, by continents—Percent distribution: 1821 to 1940. .......................... 541

249. Imports for consumption, fees and duties, by principal countries: 1918, 1930, and 1940. .......................... 543

250. Exports (including reexports) and general imports of merchandise by continents, commercial regions, and countries: 1921 to 1940. .......................... 544

251. Exports (including reexports) and imports of merchandise, 1899, 1909, and 1919, and duties collected, by custom districts. .......................... 549

252. Exports (including reexports) and imports of merchandise, by groups of custom districts: 1899 to 1940. .......................... 551

253. Exports (including reexports) and imports of merchandise, by principal customs districts: 1899 to 1940. .......................... 552

254. Imported durable merchandise entered for consumption—Values, calculated duties, and average rate of duty, by tariff schedules: 1915 to 1940. .......................... 554

255. Exports of United States merchandise, by commodity groups and articles: 1921 to 1940. .......................... 553

256. Imports of merchandise, by commodity groups and articles: 1921 to 1940. .......................... 556

257. COMMERCE OF NONCONTIGUOUS TERRITORIES

264. Imports and exports of Alaska: 1882 to 1940. .......................... 652

265. Imports and exports of Puerto Rico: 1855 to 1940. .......................... 655

266. Imports and exports of Hawaii: 1893 to 1940. .......................... 656

267. Imports and exports of the Philippine Islands: 1901 to 1940. .......................... 657

268. Imports and exports of American Samoa: 1916 to 1940. .......................... 657

269. Imports and exports of the Virgin Islands: 1911 to 1940. .......................... 657

270. Imports and exports of Guam: 1915 to 1940. .......................... 657

272. Shipments of merchandise from the United States to Alaska, Hawaii, Puerto Rico, and the Philippine Islands: 1937 and 1940. .......................... 657

24. IRRIGATION AND DRAINAGE

613. Irrigation projects, federal—Consolidated financial statement, as of June 30, 1940. .......................... 659

614. Irrigation projects, federal—Costs and amounts to be repaid by water users, by projects, to June 30, 1940. .......................... 660

615. Irrigation projects, federal—Charges and rental, by projects, to June 30, 1940. .......................... 661

616. Irrigation projects, federal—Acreage irrigated and cropped, and value of crops, by projects: 1943. .......................... 662

617. Boulder Canyon project—Financial statement as of June 30, 1940. .......................... 662

618. Irrigation projects, federal—Acreage irrigated, irrigated, and not area in cultivation, and value of crops, 1925 to 1940; net area, production and value of crops, 1939 and 1940. .......................... 663

620. Irrigation enterprises, by character, by acreage and investment: 1920 and 1930. .......................... 664

622. Irrigation enterprises, by acreage and investment, by draining basins: 1920 and 1930. .......................... 665

623. All crops and irrigated crops in irrigation States, by acreage and value: 1939. .......................... 666

624. Irrigated farms reporting and acreage of irrigated land from which crops were harvested, by States: 1929 and 1934. .......................... 667

625. Irrigated farms harvested, by state, crop, and value: 1929. .......................... 668

626. Drainage on farms and drainage enterprises—Summary: 1920 and 1930. .......................... 669

627. Drainage enterprises—Area and investment, by year of organization and by character: 1920. .......................... 669

628. Drainage enterprises—Area and investment, 1910 and 1929; condition and occupied farm area, 1929; by States. .......................... 670

CONTENTS

Table

735. Sugar, beet and cane—Chiefly raw—Production, for continental United States, Puerto Rico, Hawaii, Philippines, and world: 1879 to 1940. ................................................................................................................................. 700
736. Sugar, beet and cane—Block, production, trade, and calculated disappearance in continental United States: 1899 to 1940. .................................................................................................................. 700
735. Sugar, beet and cane—Raw—Percent distribution of consumption in continental United States, by source: 1879 to 1940. .................................................................................................................................................................................. 700
735. Sugar, raw and refined—Wholesale prices, New York, 1881 to 1940, and by months, 1898, 1938, and 1939. ........................................................................................................................................................................................................ 700
736. Rubber—World production and U. S. imports: 1912 to 1940. .................................................................................................................................................................................................................. 700
736. Cotton—Production, consumption, exports, imports, prices, and carry-over: 1889 to 1941. ........................................................................................................................................................................................................ 700
736. Cottonseed and cottonseed products—Production, value, and exports, 1889 to 1941, and by States, 1941. ........................................................................................................................................................................................................ 700
736. Cotton (excluding lint)—Exports, by countries: 1886 to 1941. .................................................................................................................................................................................................................. 700
736. Coffee—Imports and reexports: 1880 to 1910. .......................................................................................................................................................................................................................... 700
736. Tea—Net imports: 1850 to 1945. .......................................................................................................................................................................................................................... 700
736. Corn and corn oils—Imports: 1871 to 1940. .......................................................................................................................................................................................................................... 700
736. Silk and silk manufactures—Imports and exports: 1871 to 1940. .................................................................................................................................................................................................................. 700
736. Corn, rice, flaxseed, and tobacco—Exports and imports: 1855 to 1941. ................................................................................................................................................................................................................ 700
737. Wheat—Supply, distribution, and disappearance, in continental United States: 1938 to 1940. ........................................................................................................................................................................................................ 700
737. Wheat—Exports and imports: 1879 to 1941. .......................................................................................................................................................................................................................... 700
737. Corn, rice, and oats—Commercial stocks, by months: 1911-22 to 1930-41. .................................................................................................................................................................................................................. 700
737. Wheat, corn, and oats—Receipts at primary markets, by crop years: 1883 to 1940. ........................................................................................................................................................................................................ 700
737. Grain received at all Atlantic ports, by port and by kind: 1920 to 1940. .................................................................................................................................................................................................................. 700
741. Grain prices—Average market price, by kind, by market: 1898 to 1940. .................................................................................................................................................................................................................. 700
742. Average prices received by farmers for specified crops—Monthly averages: 1918 to 1941. ........................................................................................................................................................................................................ 700
737. Freight rates on wheat from Buffalo and Chicago to New York: 1905 to 1910. ........................................................................................................................................................................................................ 700
737. Grain-mill products—Grains ground and flour, etc., produced: 1929, 1933, and 1939. ........................................................................................................................................................................................................ 700
737. Selected foods, processed and manufactured, by quantity and value: 1899, 1927, and 1939. ........................................................................................................................................................................................................ 700
737. Fringed crops, forage, and production—Summary for Alaska, Hawaii, and Virgin Islands. ........................................................................................................................................................................................................ 700

26. FORESTS AND FOREST PRODUCTS

737. Forests—Area, saw-timber stand, and annual growth estimates, by regions: 1905. ........................................................................................................................................................................................................ 700
737. Stand of saw timber (estimated), by region and kind of wood: 1928. .................................................................................................................................................................................................................. 700
737. National forest area, by States, and for Alaska and Puerto Rico: June 30, 1940. ........................................................................................................................................................................................................ 700
737. National forest reserves—Land purchased, by States and for Puerto Rico: June 30, 1940. ........................................................................................................................................................................................................ 700
737. National forests—Summary of operations: 1931 to 1940. .................................................................................................................................................................................................................. 700
737. Forest fires—Number, area burned, and damage, by cause, in protected areas: 1931 to 1940. ........................................................................................................................................................................................................ 700
737. Forest fires—Area burned, by type, and damage, by kind, in protected areas: 1931 to 1940. ........................................................................................................................................................................................................ 700
737. Volume removed annually from commercial timber. .................................................................................................................................................................................................................. 700
737. Lumber—Production, by kind of wood, and average value: 1889 to 1939. ................................................................................................................................................................................................................ 700
737. Lumber—Production, by regions and States: 1886 to 1939. ................................................................................................................................................................................................................ 700
737. Lumber—Average mill value per 1,000 board feet, by kind of wood: 1929 to 1940. ........................................................................................................................................................................................................ 700
737. Veneers—Wood consumed in manufacture, by States and by kind of wood: 1928 to 1939. ........................................................................................................................................................................................................ 700
737. Laths and shingles—Production, 1899 to 1929, and by States, 1929 to 1939. ................................................................................................................................................................................................................ 700
737. Chipcord stock—Production, by kind: 1899 to 1929. ................................................................................................................................................................................................................ 700
737. Lumber and shingles—Production, for Alaska: 1899 to 1939. .................................................................................................................................................................................................................. 700
737. Pulpwood—Consumption by mills, and mill cost: 1929 to 1939. .................................................................................................................................................................................................................. 700
737. Wood pulp—Production, 1899 to 1929, and by States and by process, 1899 to 1929. ........................................................................................................................................................................................................ 700
737. Paper and paperboard—Production, by kind: 1899 to 1939. .................................................................................................................................................................................................................. 700
737. Turpentine and resin—Production, 1899 to 1941, and by States, 1929 to 1941. ........................................................................................................................................................................................................ 700

30. FISHERIES

737. Fishery products—Quantity and value, by sections and States: 1899 to 1939. ........................................................................................................................................................................................................ 700
738. Fisheries—Summary for the United States, by sections: 1929. .................................................................................................................................................................................................................. 700
738. Fishery products landed at Seattle by U. S. vessels, and fish received by Seattle wholesale dealers: 1917 to 1940. ........................................................................................................................................................................................................ 700
738. Fishery products landed at Boston and Gloucester, Mass., and Portland, Maine, by U. S. vessels: 1890 and earlier years. ........................................................................................................................................................................................................ 700
738. Fishery products—Flaxseed—Production, by kind, for United States (including Alaska): 1929 to 1940. ........................................................................................................................................................................................................ 700
738. Salmon, canned—Production, by kind, for Washington, Oregon, and Alaska: 1926 and earlier years. ........................................................................................................................................................................................................ 700
738. Fishery products of Alaska—Quantity and value, by kind: 1926 to 1940. ........................................................................................................................................................................................................ 700
738. Salmon caught in Alaska—Quantity and value, by kind: 1911 to 1940. ................................................................................................................................................................................................................ 700
738. Fish propagation—Output of eggs, fry, and fingerlings, by Bureau of Fisheries, 1885 and earlier years, and by Fund, 1920. ........................................................................................................................................................................................................ 700

CONTENTS

33. DISTRIBUTION, SERVICES, AND HOTELS

Table

900. Explosives—Amounts (excluding exports) manufactured and sold, continental United States and Alaska: 1916 to 1940. 902
901. Tobacco products—Production, by kind, 1901 to 1940, and by States, 1940. 903
902. Tobacco consumption in the United States: 1896 to 1940. 903
903. Tobacco leaf—Amounts consumed in the manufacture of cigars, cigarettes, chewing and smoking tobacco, and snuff: 1896 to 1940. 904
904. Distilled spirits, wines, fermented malt liquors, and viral beverages—Production, tax-paid withdrawals, and imports. 904
905. Denatured alcohol: 1913 to 1941. 905
906. Ethanol and other distilled spirits, except brandy—Materials used in production, by kinds: 1913 to 1941. 906
907. Motor-facilitated production—Summary: 1925 to 1939. 907
908. Alaska—Manufacture, by industries: 1930 to 1939. 908
909. Hawaii—Manufacture, by industries: 1930 to 1939. 909
910. Puerto Rico—Manufacture, by kind: 1930 to 1939. 910
911. Patent applications, patents filed, and patents and certificates of registration issued since institution of the patent system: 1790 to 1940. 912

34. CONSTRUCTION AND HOUSING

Table

920. Construction contracts awarded in 37 States—Value of construction and floor space in buildings, by class of construction: 1926 to 1940. 943
921. Construction contracts awarded in 37 States—Values, by public and private ownership, and floor space, by months: 1927 to 1940. 944
922. Construction contracts awarded—Indexes of value: 1915 to 1939. 945
923. Building permits issued—Number and permit valuation of buildings, by principal cities: 1936 to 1940. 946
924. Housing permits issued—Value of permits, by city: 1935 to 1940. 946
925. Construction and other projects financed from Federal funds—Value, by type, 1927 to 1940, and by fund, 1940. 947

BRIEF BIBLIOGRAPHY OF SOURCES OF STATISTICAL DATA

The following bibliography is intended to furnish a guide to additional information, particularly to more detailed primary data, than is presented in the Statistical Abstract. References to secondary sources of data are included where primary sources are not readily available, and to one-time studies where these present compilations or estimates for several years or new types of data not available in regular reports.

Statistical data issued by the various States and the reports of municipal and other local agencies are a valuable part of the literature but have been omitted from this bibliography because of the limitation of space. For the same reasons many items have been omitted which cover a specialized subject, such as a single commodity or a kind of business.

Major inquiries, such as the Census of Population, are referred to by name rather than by specific volume references.

Subjects are arranged alphabetically but, for convenience, several are sometimes combined into one group. In such cases cross-references refer to the first subject of the group. Within the subject groups, titles of publications are arranged by the issuing agency or publisher. The designation "U.S." is placed before the name of each Federal agency. Reference is usually made to the Bureau, rather than to the Department responsible for the report. All of these agencies are located in Washington.

Accidents see Vital Statistics.

Agriculture see also Population.

National Fertilizer Association, Inc. (Washington, D. C.),

The Fertilizer Review.

U. S. Agricultural Adjustment Administration.

Agricultural Adjustment. Annual.

U. S. Agricultural Marketing Service.

Farm Production and Income from Meat Animals. Annual.

Production of Manufactured Dairy Products. Annual.

U. S. Bureau of Agricultural Economics.

Estimated Total Farm Mortgage Debt. Annual.

Farm Mortgage Loans of Leading Lending Agencies. Annual.

Situation Reports. Monthly.

The Farm Real Estate Situation. Annual.

U. S. Bureau of the Census.

Census of Agriculture. Quinquennial.

Census of Irrigation. Decennial.

Census of Drainage. Decennial.

xxv
Agriculture—Continued.

U. S. Bureau of the Census—Continued.

Census of Manufacturers. Biennial. (Processing of Agricultural Products.)

Cotton Reports—current reports issued semimonthly and monthly, summarized annually in two publications, Cotton Production and Distribution by Seasons, and Cotton Production in the United States by Crop Years.

Monthly Summary of Foreign Commerce of the United States. (Data on imports and exports of agricultural products.)

U. S. Bureau of Reclamation.

Annual Report.

U. S. Department of Agriculture.

Agricultural Statistics. Annual.

Gross Farm Income and Indices of Farm Production and Prices in the United States, 1869–1937. 1940.
