ESTIMATES OF THE POPULATION OF THE UNITED STATES TO OCTOBER 1, 1972

The total population of the United States (including Armed Forces overseas) was about 209,289,000 on October 1, 1972 according to estimates released today by the Bureau of the Census, Department of Commerce. This figure represents an increase of 1,697,000, or 0.8 percent, over the estimate for the corresponding month a year ago; and an increase of 159,000 over the previous month. The monthly gain was the result of a natural increase of 131,000 (excess of births over deaths), and an estimated net civilian immigration of 27,000. (See chart below. Data are adjusted for number of days in the month, and are provisional after December 1968.)

The October 1, 1972, total population represents an increase of 4,954,000 over the population on April 1, 1970, the date of the census upon which these estimates are based. Estimates for the period since April 1, 1960 have been adjusted to be consistent with the official 1970 resident population count of 203,235,298.

This report presents estimates for (1) the total population including Armed Forces overseas, (2) the total resident population, and (3) the civilian resident population, for selected months back to January 1, 1960. The population coverage shown by the Census Clock in the lobby of the Department of

Commerce includes, in addition to the total population including Armed Forces overseas, overseas civilian employees of the Federal Government, their dependents, and the dependents of the Armed Forces overseas. On April 1, 1970, this population was 204,839,000.

In addition to data from the decennial censuses, the estimates are based on statistics on births and deaths provided by the National Center for Health Statistics, U. S. Public Health Service; statistics on immigration provided by the Immigration and Naturalization Service. Department of Justice; data

on civilian citizens abroad provided by the Department of Defense and the Civil Service Commission; data on movement between Puerto Rico and the United States mainland provided by the Puerto Rico Planning Board; and data on the Armed Forces provided by the Department of Defense. Provisional estimates of net civilian immigration since July 1, 1971, are based in part on immigrant visa statistics provided by the Bureau of Security and Consular Affairs, Department of State. For a complete discussion of the estimating procedure used in deriving these estimates, see Current Population Reports, Series P-25, No. 481.
