Guide to State Statistical Abstracts

This bibliography includes the most recent statistical abstracts for states published since 1995 plus those that will be issued in late 2000. For some states, a near equivalent has been listed in substitution for, or in addition to, a statistical abstract. All sources contain statistical tables on a variety of subjects for the state as a whole, its component parts, or both. The page counts given for publications are approximate. Internet sites also contain statistical data.
