CHART
SHOWING FOR THE UNITED STATES AND FOR EACH STATE, WITH DISTINCTION OF SEX, THE RATIO BETWEEN THE TOTAL POPULATION OPILED YEARS OF AGE AND THE NUMBER OF PERSONS REPORTED AS ENGAGED IN EACH PRINCIPAL CLASS OF
GAINFUL OCCUPATIONS AND ALSO AS ATTENDING SCHOOL
Compilied from the Returns of Population of the Ninth Census 1870
By FRANCIS WALKER
Note: The square spaces represent the proportion of the population which is engaged in a given occupation or attending school. The shaded squares indicate the proportion of males and white squares represent the proportion of the population not so engaged.
