LETTER OF TRANSMITTAL.

DEPARTMENT OF COMMERCE AND LABOR,
BUREAU OF THE CENSUS,
Washington, D. C., December 21, 1912.

Sir:

I have the honor to transmit herewith the Abstract of the Thirteenth Decennial Census. In condensed form it contains the principal statistics gathered at the decennial enumeration of 1910 on the subject of population (except occupation statistics), agriculture, manufactures, and mining, and gives figures on all subjects for the United States as a whole, and for the different states; together with statistics relating to population and manufactures for the principal cities.

Other editions of the Abstract are being issued with supplements relating to each of the states and to the District of Columbia, Alaska, Hawaii, and Porto Rico, respectively. Each of these editions will contain all of the matter here published, and, in addition thereto, a second section which will treat the same subjects with greater detail for the state to which it refers, and will embrace all of the census results to be published concerning that state, its counties, cities, and other civil divisions, except as to occupations.

Respectfully,

[Signature]

Director of the Census.

Hon. CHARLES NAGEL,
Secretary of Commerce and Labor.
