[3] The value of horses of owners, as given in this table for Texas, is $93,770 in excess; and as given for Oklahoma, $1,100 less than figures previously published. The value of tenant's horses, as given in the table for Texas, is $93,770 less than previously published report, while, as given for Oklahoma, it is $1,100 greater. The combined disparities affect the West South Central total and the total for the South; the discrepancy, as compared with figures previously published, being $92,670, excess for owners and deficiency for tenants, and being due to incorrect classification, in the earlier report, of amounts specified by tenure.

[4] By correction of errors the number of farms reporting goats and kids is reduced, as compared with figures previously published for Georgia, by 5 and for Texas by 1, and is increased for Louisiana by 3; giving a net reduction of 3 for the South as a whole.

[5] Footnote 4 is explanatory.
