REPORTS OF THE THIRTEENTH CENSUS.

POPULATION:

Volume I.—General Report and Analysis.
Volume II.—Reports by States, with Statistics for Counties, Cities, and other Civil Divisions—Alabama to Montana.
Volume III.—Reports by States, with Statistics for Counties, Cities, and other Civil Divisions—Nebraska to Wyoming; Alaska, Hawaii, and Porto Rico.
Volume IV.—Occupation Statistics.

AGRICULTURE:

Volume V.—General Report and Analysis.
Volume VI.—Reports by States, with Statistics for Counties—Alabama to Montana.
Volume VII.—Reports by States, with Statistics for Counties—Nebraska to Wyoming; Alaska, Hawaii, and Porto Rico.

MANUFACTURES:

Volume VIII.—General Report and Analysis.
Volume IX.—Reports by States, with Statistics for Principal Cities.
Volume X.—Reports for Principal Industries.

MINING:

Volume XI.—Mines and Quarries.

ABSTRACT OF THE THIRTEENTH CENSUS.
LETTER OF TRANSMITTAL.

DEPARTMENT OF COMMERCE,
BUREAU OF THE CENSUS,
Washington, D.C., December 23, 1918.

Sir:

I have the honor to transmit herewith Volume I of the Reports of the Thirteenth Decennial Census, relating to population.

The census of population was taken in conformity with "An act to provide for the thirteenth and subsequent decennial censuses," approved July 2, 1909. The statistics were collected as of date April 15, 1910. The work of collecting the statistics was done by enumerators under the direction of supervisors of the census, except in the outlying territory, where it was done by special agents working under the direction of a supervisor of census in the case of Porto Rico and of chief special agents in the case of Alaska and Hawaii.

The results of the population census are contained in four volumes, constituting Volumes I, II, III, and IV of the Reports of the Thirteenth Decennial Census. Volumes II and III contain a separate report on the population of each state and of the District of Columbia, Alaska, Hawaii, and Porto Rico, each such report having previously been issued in the form of two bulletins. Volume IV will contain statistics relating to occupations. Volume I, the present volume, consists of a general analysis and discussion of the statistics of population.

The collection and compilation of the statistics of population have been under the supervision of William O. Hunt, chief statistician for population. The chiefs of division under Mr. Hunt during the Thirteenth Census period were William H. Jarvis, Edward W. Koch, Arthur E. Seymour, and William B. Cragg.

The text of the chapters on the number of inhabitants, state of birth, and inability to speak English was written by John Cummings; on school attendance, by E. A. Goldenweiser; on sex, age, and marital condition, by William B. Bailey; and on mother tongue, by Daniel Folkmar.

My predecessor, Hon. E. Dana Durand, gave much personal attention to the planning of the tables and the preparation of the text of this report.

Respectfully,

Hon. WILLIAM O. REDFIELD,
Secretary of Commerce.

#### Diagrams.

- Increase of population in the United States and the principal countries of Europe: 1800-1910.
- Population per square mile: 1790-1910.
- Population in places of 5,000 inhabitants or more at each census: 1790-1910.
- Per cent urban in total population, by states: 1880-1910.
- Population of cities having, in 1910, 100,000 inhabitants or more: 1910 and 1900.

#### Map.

- Percentage of increase in total population, by states: 1900-1910.
- Per cent urban in total population, by states: 1900.
- Percentage of increase in urban population, by states: 1900-1910.
- Per cent urban in total population, by states: 1900.
- Percentage of increase in rural population, by states: 1900-1910.
- Percentage of increase in total population, by counties: 1900-1910.
- Rural population per square mile, by counties: 1910.

### Chapter II—COLOR OR RACE, NATIVITY, AND PARENTAGE.

#### Introduction.

- Definition of terms.
- Note regarding margin of error.
- United States and outlying possessions.
- United States as a whole.
- General summary: 1910 and 1900.
- White and negro population.
- Indian, Chinese, and Japanese population.
- Black and mulatto population.
- Native and foreign-born population.
- White population by nativity and parentage.
- Population of each color or race, by nativity and parentage.

#### Principal Tables.

- Population by principal color or race, nativity, and parentage classes.
- White population by nativity and parentage.
- Black and mulatto population.
- Colors or races, nativity, and parentage, by divisions and states: 1880-1910.
- Increase in white and negro population.
- Changes in composition of the white population.
- Negro population, distinguished as black and mulatto, by divisions and states: 1910, 1900, and 1890.

#### Maps.

- Composition of the urban and rural population.
- Increase of population in the United States and the principal countries of Europe: 1800-1910.

Chapter VI.—STATE OF BIRTH OF THE NATIVE POPULATION.

Introduction ................................................................. 689
General extent of migration of native population within the United States ................................................................. 689
Interdivisional migration ............................................... 690
Aggregate migration of total native population from and to each division ..................... 690
Aggregate migration of native white and native negro population from and to each division ..................... 693
Migration to the several divisions from other divisions and from foreign countries ..................... 694
Distribution of population by division of birth and division of residence ..................... 696
Mississippi migration ..................................................... 698
Migration North and South ............................................. 698
Interstate migration ..................................................... 699
Aggregate migration of total native population from and to each state ..................... 699
Aggregate migration of native white and negro population from and to each state ..................... 706
Aggregate migration of native whites, classified according to parentage, from and to each state ..................... 706
State of birth in relation to state of residence ..................... 712
Migration to the several states from other states and from foreign countries ..................... 712
Division of residence of persons born in each state ..................... 717
Division of birth of persons resident in each state ..................... 717
Distribution of total native population, by state of birth and state of residence ..................... 717
Distribution of native white and negro population, by state of birth and state of residence ..................... 729
Migration to urban and rural communities ......................... 731
Interdivisional migration ............................................. 721
Interstate migration ..................................................... 722
Distribution of native and foreign-born population between urban and rural communities ..................... 722
Migration to principal cities ........................................... 727

PRINCIPAL TABLES.

Population born in and living in the United States, by divisions: 1870-1910 ............................ 692
Population born in each state, with number and percentage living in other states, and number living in each state, with number and percentage born in other states: 1880-1910 .................................................. 700
Chapter VI.—STATE OF BIRTH OF THE NATIVE POPULATION—Continued.

PRINCIPAL TABLES—continued.

White and negro population—number born in each state, with number and percentage living in other states, and number living in each state, with number and percentage born in other states: 1910, 1900, and 1890. ........................................ 707

White population of native and of foreign or mixed parentage—number born in each state, with number and percentage living in other states, and number living in each state, with number and percentage born in other states: 1910 and 1900. .................................................................................. 710

Total population of each state, distinguished as born in the state of residence, in other states, and in foreign countries: 1910, 1900, and 1890. .................................................. 714

White population of each state, distinguished as born in the state of residence, in other states, and in foreign countries: 1910, 1900, and 1890. .................................................. 714

Percentage of the total and white population of each state who were born in the state of residence, in other states, and in foreign countries: 1910, 1900, and 1890. .................................................. 716

Per cent distribution, by division of residence, of the population born in each state: 1910. ............................................................................................................................ 718

Per cent distribution, by division of birth, of the native population residing in each state: 1910. ............................................................................................................................ 719

Urban and rural population of each state, distinguished as born in the state of residence, in other states, and in foreign countries: 1910. ............................................................................................................................ 723

Urban and rural white population of each state, distinguished as born in the state of residence, in other states, and in foreign countries: 1910. ............................................................................................................................ 724

Percentage of the population of each state born in the state of residence, in other states, and in foreign countries, who live in urban and rural communities: 1910 and 1900. ............................................................................................................................ 725

Population of cities having 50,000 inhabitants or more, distinguished as born in the state in which city is located, in other states, and in foreign countries: 1910. ............................................................................................................................ 727

Native population classified according to division and state in which born: 1910. ............................................................................................................................ 730

Native white population classified according to division and state in which born: 1910. ............................................................................................................................ 735

Native negro population classified according to division and state in which born: 1910. ............................................................................................................................ 740

Native white population of native parentage classified according to division and state in which born: 1910. ............................................................................................................................ 745

Native white population of foreign or mixed parentage classified according to division and state in which born: 1910. ............................................................................................................................ 750

Population of each state classified as native and foreign born, and the native population distributed according to principal states of birth: 1910 and 1900. ............................................................................................................................ 755

Population of each state classified as native and foreign born, and the native population distributed according to principal states of birth: 1910 and 1900. ............................................................................................................................ 756

White and negro population of each Southern state classified as native and foreign born, and the native population distributed according to principal states of birth: 1910. ............................................................................................................................ 761

Persons born in each state, distributed according to principal states of residence: 1910 and 1900. ............................................................................................................................ 763

White and negro persons born in each Southern state, distributed according to principal states of residence: 1910. ............................................................................................................................ 768

Native population, in cities of 50,000 inhabitants or more, classified according to division and state in which born: 1910. ............................................................................................................................ 770

MAPS.

Percentage living in other states of the population born in each state: 1910. ............................................................................................................................ 703

Percentage living in other states of the native population living in each state: 1910. ............................................................................................................................ 703

States having gained or lost by interstate migration: 1910. ............................................................................................................................ 705

Chapter VII.—COUNTRY OF BIRTH OF THE FOREIGN-BORN POPULATION.

Introduction. ............................................................................................................................ 780

United States as a whole. ............................................................................................................................ 781

Total foreign born, by country of birth: 1910 and 1900. ............................................................................................................................ 782

Comparative statistics: 1890 to 1910. ............................................................................................................................ 784

Poland as a country of birth. ............................................................................................................................ 788

Immigration in relation to the foreign-born population. ............................................................................................................................ 789

Foreign-born non-white population, by country of birth. ............................................................................................................................ 790

Divisions and states. ............................................................................................................................ 790

Relative importance of the natives of the several countries in each division. ............................................................................................................................ 790

Distribution of natives of each country among the divisions. ............................................................................................................................ 797

Increase in natives of each country, by divisions: 1900-1910. ............................................................................................................................ 801

Comparative statistics, by divisions: 1870-1910. ............................................................................................................................ 802

Distribution of natives of leading countries, by divisions and states. ............................................................................................................................ 802

Urban and rural communities. ............................................................................................................................ 817

United States as a whole. ............................................................................................................................ 817

Divisions and states. ............................................................................................................................ 818

Principal cities. ............................................................................................................................ 819

Country of birth statistics, by sex. ............................................................................................................................ 820

PRINCIPAL TABLES.

Foreign-born population by country of birth: 1880-1910. ............................................................................................................................ 784

Increase in foreign-born population, by country of birth: 1880-1910. ............................................................................................................................ 787

Per cent distribution of the foreign-born population by country of birth, for divisions: 1910 and 1900. ............................................................................................................................ 791

Distribution of the foreign-born population by principal countries of birth, in the order of their rank in 1910, for divisions: 1910 and 1900. ............................................................................................................................ 794

Per cent distribution of the total population according to country of birth, by divisions: 1910, 1900, and 1890. ............................................................................................................................ 795

Per cent distribution of population born in specified foreign countries by division of residence: 1910. ............................................................................................................................ 798

Per cent distribution of population born in specified foreign countries by division of residence: 1910, 1900, and 1890. ............................................................................................................................ 800

Increase in foreign-born population by country of birth, for divisions: 1900-1910. ............................................................................................................................ 801

Distribution of population born in the principal foreign countries by state of residence: 1910 and 1890. ............................................................................................................................ 804

Distribution of the foreign-born population by principal countries of birth, in the order of their rank in 1910, for selected states: 1910 and 1900. ............................................................................................................................ 807

Foreign-born persons of Polish origin, by divisions and states: 1910, 1900, and 1890. ............................................................................................................................ 810

Per cent distribution of the foreign-born population by principal countries of birth, for the United States and by divisions, 1870-1910, and by states, 1880-1910. ............................................................................................................................ 811

Per cent distribution of population born in specified foreign countries, by division or state of residence: 1910. ............................................................................................................................ 814

Per cent of total population (native and foreign) born in specified foreign countries, by divisions and states: 1910. ............................................................................................................................ 816
