

# 1950 CENSUS OF HOUSING

## PRELIMINARY COUNTS OF DWELLING UNITS

August 11, 1950

Washington 25, D. C.

Series HC-1 No. 5

### DWELLING UNITS IN OREGON: APRIL 1, 1950

(The preliminary counts of dwelling units in this report are compiled in field offices. Preliminary counts of population may be obtained from the Series PC-2 report for this State)

On April 1, 1950, there were approximately 526,000 dwelling units in Oregon, according to a report issued today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. In 1940, there were 369,811 dwelling units in the State.

The counts for the State, counties, and places of 5,000 inhabitants or

more are based on preliminary field tabulations from the 1950 Census of Housing. The figures may differ from the final verified count of dwelling units because of minor corrections and because the field counts include, in addition to dwelling units, a small number of living quarters which will not be classified as dwelling units in the final tabulations.
