AKRON

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 509,403, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 99,371, or 24.2 percent, over the 410,032 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

AUSTIN

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 211,292, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 50,312, or 31.3 percent, over the 160,980 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

BRIDGEPORT

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 331,749, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 58,026, or 21.2 percent, over the 273,723 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between August 1960 and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

CINCINNATI

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 1,059,026, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 154,624, or 17.1 percent, over the 904,402 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

DENVER

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 923,161, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 311,033, or 50.8 percent, over the 612,128 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

HARRISBURG

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 342,039, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 49,798, or 17.0 percent, over the 292,241 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

KALAMAZOO

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 168,575, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 41,868, or 33.0 percent, over the 126,707 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PG(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

MIAMI

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 917,851, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 422,767, or 85.4 percent, over the 495,084 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

NEW HAVEN

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 308,208, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 38,494, or 14.3 percent, over the 269,714 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between August 1960 and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

PENSACOLA

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 202,446, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 71,186, or 34.2 percent, over the 131,260 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 117,547, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 27,359, or 30.3 percent, over the 90,188 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.
