SACRAMENTO

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 500,719, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 223,579, or 80.7 percent, over the 277,140 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

SAVANNAH

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 186,161, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 34,680, or 22.9 percent, over the 151,481 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

STAMFORD

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains one report for each of the 192 standard metropolitan statistical areas listed in the U.S. Bureau of the Budget publication Standard Metropolitan Statistical Areas (1959). The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 177,305, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 42,409, or 31.4 percent, over the 134,896 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between August 1960 and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

The 192 reports are numbered in alphabetical order rather than in order of publication)

The population of the standard metropolitan statistical area as of April 1, 1960, was 363,527, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 95,140, or 35.4 percent, over the 268,387 inhabitants enumerated in the 1950 Census.

The preliminary figures presented here will be superseded by the final population counts for cities, counties, and minor civil

divisions to be shown in Advance Report Series PC(A1), which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.
