

NAPCS Product List for NAICS 54162: Environmental Consulting Services

1	2	3	4	5	6	7	8	9
Industry Subject Area	Working Group Code	Tri-lateral Detail	National Product Detail			United States		
			Can	Mex	US	Title	Definition	NAICS Industries Producing the Product
54162	1					Environmental consulting services	<p>Providing objective information, advice, and guidance to clients concerning the preservation of air, water, and soil quality; natural resource development; waste management; pollution control; and other environmental issues. May involve the sale or transfer of technology to a client, and often extends to assisting the client to organize and monitor the implementation of solutions.</p> <p>Excludes:</p> <ul style="list-style-type: none"> • services that involve stand-alone implementation are classified to an operational area such as engineering, remediation, construction, or project management. 	54162
54162	1.1					Environmental assessment services	<p>Conducting objective studies (including collecting information through investigations, surveys, physical sampling, testing, and other activities, for one or more of the following purposes: (1) identifying whether or not environmental contamination exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assessing the risk to public health and safety from environmental contamination associated with a project that is proposed or in place; and (3) evaluating the impact on the ecology, society, or economy of environmental contamination resulting from human or natural activity.</p> <p>Includes product 3.1.1 on 562 list.</p>	54162
54162	1.1.1	X				Environmental assessment services, integrated	<p>Conducting objective studies, including collecting information through investigations, surveys, physical sampling, testing, and other activities, for one or more of the following purposes: (1) identify whether or not contamination of two or more environmental media (air, water, soil, noise) exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assess the risk to public health and safety from the contamination of two or more environmental media associated with a project that is proposed or in place; and (3) evaluate the impact on the ecology, society, or economy of contamination of two or more environmental media resulting from human or natural activity.</p>	54162
54162	1.1.1.1			X		Site assessment services, integrated	<p>Collecting information through on-site investigations, surveys, physical sampling, testing, and other activities to identify the existence, source, nature and extent of contamination to two or more media (air, water, soil, noise) on a site by a hazardous material.</p> <p>Subset of product 3.1.1.9 on 562 list.</p>	54162
54162	1.1.1.2			X		Risk assessment services, integrated	<p>Performing a detailed quantitative and/or qualitative evaluation of the potential for harm from an actual or proposed activity at a site, such as processes or equipment in use, spills, fires, explosions in facilities, flights, or as a result of a natural phenomenon. Often includes computer modeling services. Assessments classified in this group are performed to evaluate the risk for two or more media (air, water, soil, noise).</p>	54162

NAPCS Product List for NAICS 54162: Environmental Consulting Services

1	2	3	4	5	6	7	8	9
Industry Subject Area	Working Group Code	Tri-lateral Detail	National Product Detail			United States		
			Can	Mex	US	Title	Definition	NAICS Industries Producing the Product
54162	1.1.1.3			X		Environmental impact assessment services, integrated	Providing a detailed characterization of the manner in which a specified area will be affected by a proposed project or any other external change. Often includes an evaluation of the ecological, societal, and economic effects of the change that is being studied and the provision of potential strategies to minimize harm. May include both the assessment and the preparation and filing of an environmental impact statement required for regulatory approval. Assessments classified in this group are performed to evaluate the impact upon two or more media (air, water, soil, noise).	54162
54162	1.1.2	X				Environmental assessment services, air	Conducting objective studies (including collecting information through investigations, surveys, physical sampling, testing, and other activities) for one or more of the following purposes: (1) identifying whether or not air contamination (including indoor air and outdoor air) exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assessing the risk to public health and safety from air contamination associated with a project that is proposed or in place; and (3) evaluating the impact on the ecology, society, or economy of air contamination resulting from human or natural activity. Includes product 3.1.1.1 on 562 list.	54162
54162	1.1.2.1		X		X	Environmental assessment services, indoor air	Conducting objective studies (including collecting information through investigations, surveys, physical sampling, testing, and other activities) for one or more of the following purposes: (1) identifying whether or not indoor air contamination exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assessing the risk to public health and safety from indoor air contamination associated with a project that is proposed or in place; and (3) evaluating the impact on the ecology, society, or economy of indoor air contamination resulting from human or natural activity.	54162
54162	1.1.2.2		X		X	Environmental assessment services, outdoor air	Conducting objective studies (including collecting information through investigations, surveys, physical sampling, testing, and other activities) for one or more of the following purposes: (1) identifying whether or not outdoor air contamination exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assessing the risk to public health and safety from outdoor air contamination associated with a project that is proposed or in place; and (3) evaluating the impact on the ecology, society, or economy of outdoor air contamination resulting from human or natural activity.	54162
54162	1.1.2.3			X		Site assessment services, air	Collecting information through on-site investigations, surveys, physical sampling, testing, and other activities to identify the existence, source, nature and extent of contamination to the ambient air on a site by a hazardous material.	54162
54162	1.1.2.4			X		Risk assessment services, air	Performing a detailed quantitative and/or qualitative evaluation of the potential for harm to the air within or surrounding a piece of property to result from an actual or potential release of chemicals or pathogens. Often includes computer modeling services.	54162

NAPCS Product List for NAICS 54162: Environmental Consulting Services

Industry Subject Area	Working Group Code	Tri-lateral Detail	National Product Detail			United States		
			Can	Mex	US	Title	Definition	NAICS Industries Producing the Product
54162	1.1.2.5			X		Environmental impact assessment services, air	Providing a detailed characterization of the manner in which a specified area of air will be affected by a proposed project or any other external change. Often includes an evaluation of the ecological, societal, and economic effects of the change that is being studied and the provision of potential strategies to minimize harm. May include both the assessment and the preparation and filing of an environmental impact statement required for regulatory approval.	54162
54162	1.1.3	X				Environmental assessment services, water	Conducting objective studies (including collecting information through investigations, surveys, physical sampling, testing, and other activities) for one or more of the following purposes: (1) identifying whether or not water contamination (surface water and groundwater) exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assessing the risk to public health and safety from water contamination associated with a project that is proposed or in place; and (3) evaluating the impact on the ecology, society, or economy of water contamination resulting from human or natural activity. Includes product 3.1.1.2 on 562 list.	54162
54162	1.1.3.1		X		X	Environmental assessment services, surface water	Conducting objective studies (including collecting information through investigations, surveys, physical sampling, testing, and other activities) for one or more of the following purposes: (1) identifying whether or not surface water contamination exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assessing the risk to public health and safety from surface water contamination associated with a project that is proposed or in place; and (3) evaluating the impact on the ecology, society, or economy of surface water contamination resulting from human or natural activity.	54162
54162	1.1.3.2		X		X	Environmental assessment services, groundwater	Conducting objective studies (including collecting information through investigations, surveys, physical sampling, testing, and other activities) for one or more of the following purposes: (1) identifying whether or not groundwater contamination exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assessing the risk to public health and safety from groundwater contamination associated with a project that is proposed or in place; and (3) evaluating the impact on the ecology, society, or economy of groundwater contamination resulting from human or natural activity.	54162
54162	1.1.3.3			X		Site assessment services, water	Collecting information through on-site investigations, surveys, physical sampling, testing, and other activities to identify the existence, source, nature and extent of contamination to the water on a site by a hazardous material.	54162
54162	1.1.3.4			X		Risk assessment services, water	Performing a detailed quantitative and/or qualitative evaluation of the potential for harm to a specified area of water to result from an actual or potential release of chemicals or pathogens. Often includes computer modeling services.	54162

Industry Subject Area	Working Group Code	Tri-lateral Detail	National Product Detail			United States		
			Can	Mex	US	Title	Definition	NAICS Industries Producing the Product
54162	1.1.3.5			X		Environmental impact assessment services, water	Providing a detailed characterization of the manner in which a specified area of water will be affected by a proposed project or any other external change. Often includes an evaluation of the ecological, societal, and economic effects of the change that is being studied and the provision of potential strategies to minimize harm. May include both the assessment and the preparation and filing of an environmental impact statement required for regulatory approval.	54162
54162	1.1.4	X				Environmental assessment services, soil	Conducting objective studies (including collecting information through investigations, surveys, physical sampling, testing, and other activities) for one or more of the following purposes: (1) identifying whether or not soil contamination exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assessing the risk to public health and safety from soil contamination associated with a project that is proposed or in place; and (3) evaluating the impact on the ecology, society, or economy of soil contamination resulting from human or natural activity. Includes product 3.1.1.3 on 562 list.	54162
54162	1.1.4.1			X		Site assessment services, soil	Collecting information through on-site investigations, surveys, physical sampling, testing, and other activities to identify the existence, source, nature and extent of contamination to the soil on a site by a hazardous material.	54162
54162	1.1.4.2			X		Risk assessment services, soil	Performing a detailed quantitative and/or qualitative evaluation of the potential for harm to a specified area of soil to result from an actual or potential release of chemicals or pathogens. Often includes computer modeling services.	54162
54162	1.1.4.3			X		Environmental impact assessment services, soil	Providing a detailed characterization of the manner in which a specified area of soil will be affected by a proposed project or any other external change. Often includes an evaluation of the ecological, societal, and economic effects of the change that is being studied, and the provision of potential strategies to minimize harm. May include both the assessment and the preparation and filing of an environmental impact statement required for regulatory approval.	54162
54162	1.1.5	X				Environmental assessment services, noise	Conducting objective studies (including collecting information through investigations, surveys, physical sampling, testing, and other activities) for one or more of the following purposes: (1) identifying whether or not noise contamination exists at a particular site, and if so, determine the source, nature, and extent of the contamination; (2) assessing the risk to public health and safety from noise contamination associated with a project that is proposed or in place; and (3) evaluating the impact on the ecology, society, or economy of noise contamination resulting from human or natural activity.	54162
54162	1.2					Environmental audit services	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements or of a party's environmental compliance policies, practices, and controls.	54162

NAPCS Product List for NAICS 54162: Environmental Consulting Services

Industry Subject Area	Working Group Code	Tri-lateral Detail	National Product Detail			United States		
			Can	Mex	US	Title	Definition	NAICS Industries Producing the Product
54162	1.2.1	X				Environmental audit services, integrated	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements or of a party's environmental compliance policies, practices, and controls, with respect to the quality of multiple (two or more) environmental media (air, water, soil, noise.)	54162
54162	1.2.2	X				Environmental audit services, air	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements or of a party's environmental compliance policies, practices, and controls, with respect to air quality.	54162
54162	1.2.2.1		X		X	Environmental audit services, indoor air	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements or of a party's environmental compliance policies, practices, and controls, with respect to indoor air quality.	54162
54162	1.2.2.2		X		X	Environmental audit services, outdoor air	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements or of a party's environmental compliance policies, practices, and controls, with respect to outdoor air quality.	54162
54162	1.2.3	X				Environmental audit services, water	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements or of a party's environmental compliance policies, practices, and controls, with respect to water quality.	54162
54162	1.2.3.1		X		X	Environmental audit services, surface water	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements or of a party's environmental compliance policies, practices and controls, with respect to surface water quality.	54162
54162	1.2.3.2		X		X	Environmental audit services, ground water	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements of a party's environmental compliance policies, practices and controls, with respect to groundwater quality.	54162
54162	1.2.4	X				Environmental audit services, soil	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements or of a party's environmental compliance policies, practices, and controls, with respect to the environmental quality of a specified area of land.	54162
54162	1.2.5	X				Environmental audit services, noise	Providing an independent assessment of the current status of a party's compliance with applicable environmental requirements or of a party's environmental compliance policies, practices, and controls, with respect to levels of noise and vibration.	54162
54162	1.3					Site remediation planning services	Developing a plan to remediate environmental contamination to the air, water, soil, or other media on a contaminated site, incorporating appropriate technical or other criteria as may be specified by legislation or regulation.	54162 562
54162	1.3.1	X				Site remediation planning services, integrated	Developing a plan to remediate contamination of multiple (two or more) environmental media (air, water, soil, noise) contamination at a particular site, incorporating such technical or other criteria as may be specified by legislation or regulation. Subset of product 3.1.2.9 on 562 list.	54162 562

Industry Subject Area	Working Group Code	Tri-lateral Detail	National Product Detail			United States		
			Can	Mex	US	Title	Definition	NAICS Industries Producing the Product
54162	1.3.2	X				Site remediation planning services, air	Developing a plan to remediate air contamination at a particular site, incorporating such technical or other criteria as may be specified by legislation or regulation.	54162 562
54162	1.3.2.1		X		X	Site remediation planning services, indoor air	Developing a plan to remediate indoor air contamination at a particular site, incorporating such technical or other criteria as may be specified by legislation or regulation.	54162 562
54162	1.3.2.2		X		X	Site remediation planning services, outdoor air	Developing a plan to remediate outdoor air contamination at a particular site, incorporating such technical or other criteria as may be specified by legislation or regulation.	54162 562
54162	1.3.3	X				Site remediation planning services, water	Developing a plan to remediate water contamination at a particular site, incorporating such technical or other criteria as may be prescribed by specified by legislation or regulation.	54162 562
54162	1.3.3.1		X		X	Site remediation planning services, surface water	Developing a plan to remediate surface water contamination at a particular site, incorporating such technical or other criteria as may be specified by legislation or regulation.	54162 562
54162	1.3.3.2		X		X	Site remediation planning services, groundwater	Developing a plan to remediate groundwater contamination at a particular site, incorporating such technical or other criteria as may be specified by legislation or regulation.	54162 562
54162	1.3.4	X				Site remediation planning services, soil	Developing a plan to remediate soil contamination at a particular site, incorporating such technical or other criteria as may be specified by legislation or regulation.	54162 562
54162	1.3.5	X				Site remediation planning services, noise	Developing a plan to remediate noise and vibration at a particular site, incorporating such technical or other criteria as may be specified by legislation or regulation. Subset of product 3.1.2.9 on 562 list.	54162 562
54162	1.4	X				Evaluation of environmental studies	Conducting an analysis that explains the strengths and weaknesses of an environmental study and provides the basis for alternative judgments. May also include an analysis of possible future responses of regulators.	54162
54162	1.5	X				Natural resource management consulting services	Providing advice and guidance concerning the best practices for the ecologically sustainable development and use of land and forests; bodies of water; oil, gas, and mineral deposits; wildlife populations; and other natural resources. Excludes: • providing natural resource management services is in product 3.17, Natural resource management services.	54162

54162	1.6					Waste management consulting services	Providing advice and guidance concerning the best practices for the minimization, transport, handling, disposal, and/or recycling of waste.	54162 562
54162	1.6.1	X				Hazardous waste management consulting services	Providing advice and guidance concerning the best practices for the minimization, transport, handling, disposal, and/or recycling of hazardous waste.	54162 562
54162	1.6.2	X				Non-hazardous waste management consulting services	Providing advice and guidance concerning the best practices for the minimization, transport, handling, disposal, and/or recycling of non-hazardous waste.	54162 562
54162	1.7	X				Environmental policy development consulting services	Advising public or private institutions on the design, development, and implementation of environmental statutes, regulations, standards, or practices. May extend to the drafting of such statutes, regulations, standards, or practices on behalf of the client.	54162
54162	1.8	X				Other environmental consulting services	Providing other environmental advisory services.	54162
54162	1.8.1			X		Consulting services for civil protection programs	Developing a program that establishes procedures designed to protect and assist people in the case of emergencies.	54162
54162	1.8.2			X		Consulting services for accident prevention programs	Developing a program of accident prevention in order to protect the workers, the population and the natural resources.	54162
54162	1.8.3	X				Expert witness testimony services, environmental	The provision of testimony by a witness who, by virtue of experience, training, skill or knowledge of environmental issues, is recognized as being qualified to render an informed opinion on such matters.	54162
54162	1.8.4			X		Sustainable ecological development studies	Conducting studies of the environment in a specific geographical location, in order to establish policies for the optimal use and preservation of the natural resources with relation to the social and economic development of the region.	54162
54162	1.8.5	X				Environmental studies and reports	Conducting long-term environmental research studies for the purpose of developing further knowledge on a specific environmental topic and preparing a research report.	541620 541690

54162	2.2	X				Site remediation clean-up services	Implementing an approved plan for remediation of air, water, or soil on a contaminated site, as may be specified by legislation or regulation. Same as product 3.1.3 on 562 list.	562 54162
54162	2.3	X				Control, containment, and monitoring services for site remediation	Managing a contaminated site in accordance with a remediation plan. Includes: <ul style="list-style-type: none"> operation and maintenance of equipment and/or technologies on the site for the purpose of preventing additional, or wider, contamination on the site or the movement of contaminants from the site. monitoring of the site to determine the nature and extent of contamination at the site, the effectiveness of any remedial activities or remedial technologies; emissions from the site; and the impacts of the contaminants on the environment or human health. controlling unauthorized access to the site. Same as product 3.1.4 on 562 list.	562 54162
54162	2.4	X				Building remediation services	Developing and implementing a remediation plan that removes, destroys, contains or otherwise reduces contaminants in a building, including remediation of asbestos, lead paint, radon, and other contaminants. Same as product 3.2 on 562 list.	562 54162
54162	2.5					Environmental emergency response services	Developing and/or implementing rapid response plans and activities to deal with various types of environmental emergencies (e.g., fuel and chemical spills and incidents involving dangerous goods and hazardous materials). Same as product 3.3 on 562 list.	562 54162
54162	2.5.1	X				Environmental emergency response planning services	Developing plans to deal with various types of environmental emergencies (e.g., fuel and chemical spills, incidents involving dangerous goods or hazardous materials).	562 54162
54162	2.5.2	X				Environmental emergency response services, petroleum and oil-based spills	Implementing a rapid response to an environmental emergency arising from an abnormal or unusual discharge of petroleum based material or oil from or out of a structure, vehicle, or other container. Same as product 3.3.2 on 562 list.	562 54162
54162	2.5.3	X				Environmental emergency response services, mine spills	Implementing a rapid response to an environmental emergency arising from an abnormal or unusual discharge related to a mining operation. Same as product 3.3.3 on 562 list.	562 54162

54162	2.5.4	X				Environmental emergency response services, nec.	Developing and/or implementing rapid response plans and activities to deal with various types of environmental emergencies, not elsewhere classified. Same as product 3.3.9 on 562 list.	562 54162
54162	2.6	X				Project management services	Planning, supervising, and coordinating the activities involved in carrying out a project, with regard to time, cost, performance requirements, and other constraints. May also include the arranging of financing for a project, and procurement of equipment and subcontractors. Includes: • only those situations in which project management is offered as a stand-alone service. Same as product 2.1 on 54133 list.	23 541310 541320 541330 541620
54162	2.7	X				Construction management services	Planning, supervising, and coordinating the work of tradesmen, laborers, and contractors on a construction site. May include assistance with the procurement of materials and subcontractors. Construction managers typically act as a liaison between the project owner and the general contractors and the architects or engineers. Includes: • oversight and scheduling services (i.e., agency CM). • management services for an entire construction project (i.e., at risk CM).
