

Changes in

**SCHEDULE B—STATISTICAL CLASSIFICATION OF
DOMESTIC AND FOREIGN COMMODITIES
EXPORTED FROM THE UNITED STATES**

JANUARY 1, 1965, EDITION

CHANGES ARE EFFECTIVE JANUARY 1, 1966

PUBLIC BULLETIN B-2

Public Bulletin B-2 is intended primarily as a "clean-up" bulletin for the January 1, 1965 edition of Schedule B. It encompasses corrections to the original classifications and illustrative items. It also incorporates those additions and revisions necessary to take care of inadvertent omissions and provide necessary clarifications in the January 1, 1965 edition. The Introduction and Alphabetic Index have been revised to reflect these changes wherever pertinent.

EXPORTERS ARE ADVISED TO SUBSTITUTE THESE REPRINT PAGES TO BECOME EFFECTIVE JANUARY 1, 1966.

Released November 1965

U.S. DEPARTMENT OF COMMERCE
John T. Connor, Secretary

BUREAU OF THE CENSUS
A. Ross Eckler, Director

14. WHAT IS MEANT BY "D" OR "F" IN COLUMN (12)?

Foreign goods must be shown separately from goods of domestic production, and for this purpose, domestic merchandise is identified by the designation "D" and foreign merchandise by "F".

Exports of foreign merchandise include those commodities which are the growth, produce, or manufacture of foreign countries, which entered the United States as imports and which at the time of exportation have undergone no change in form or condition or enhancement in value by further manufacture in the United States, Puerto Rico, or the Possessions.

Exports of domestic merchandise include those commodities which are the growth, produce, or manufacture of the United States, Puerto Rico, or the Possessions (including commodities incorporating foreign components), and those articles of foreign origin which have been enhanced in value or changed from the form in which imported by further manufacture or processing in the United States, Puerto Rico, or the Possessions.

15. HOW CAN THE SCHEDULE B COMMODITY NUMBER BE OBTAINED?

Consult the current edition of Schedule B, "Statistical Classification of Domestic and Foreign Commodities Exported from the United States." Directions for locating the correct Schedule B commodity number will be found in the introduction to Schedule B. Shippers may also consult their local Collectors of Customs, Department of Commerce Field Offices (located in principal cities), the New York Office, Foreign Trade Branch, Economic Operations Division, Bureau of the Census, 434 Customhouse, New York, New York, 10004 or write to the Foreign Trade Division, Bureau of the Census, Washington, D.C., 20233, for assistance in determining the correct Schedule B commodity numbers for their shipments. Schedule B may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C., and/or from Department of Commerce Field Offices. Local Collectors of Customs may also stock copies of Schedule B for sale.

16. HOW SHOULD NET QUANTITY BE SHOWN IN COLUMN (14)?

Consult the current edition of Schedule B (see question 15). Where a unit of quantity is specified in Schedule B for the commodity number in which the item is classified, net quantity exported must be reported in the specified unit, and the unit in which reported should be indicated following the net quantity figure. If no unit of quantity is specified in Schedule B for a numbered classification, but a validated export

See footnote on page 6.

IX

license for the item specifies a unit of quantity, the net quantity should be reported on the declaration in terms of the unit of quantity specified in the validated export license. In stating quantities, fractions of less than one-half should be ignored, and fractions of one-half or over should be considered a whole unit. Where neither Schedule B nor an applicable validated license presents a unit of quantity for the item, net quantity should not be shown, and a dash " — " should be entered in the "net quantity" column.

17. HOW SHOULD VALUE BE SHOWN IN COLUMN (15)?¹

A separate value must be given for each item requiring a separate Schedule B commodity number (except for a few commodity numbers for which Schedule B specifically requires quantity only), or each group of items bearing the same commodity number. The dollar value at United States port of export should be given. This value should be the selling price, or cost if not sold, including inland freight, insurance, and other charges to border point or seaport. It should not include ocean freight, marine insurance, or other charges incurred beyond the United States port of exportation.

Where exact information as to the amount of inland freight charges, etc., is not available, estimates are acceptable. Inland freight charges, etc., should not be shown separately on the declaration, but should be reflected, together with the selling price (or cost, if not sold), in a single value figure entered in column (15) as described above. In stating values, fractions of less than one-half dollar should be ignored, and fractions of one-half dollar or over should be stated as a whole dollar. Cent figures should be omitted.

18. WHAT SHOULD BE ENTERED AS THE DATE OF EXPORTATION?

Information as to date of exportation, when required, will be entered by Collectors of Customs.

19. WHAT SHOULD BE DONE WITH THE SHIPPER'S EXPORT DECLARATION WHEN COMPLETED?

Unless otherwise provided in the regulations of the Census Bureau and the Office of Export Control, the Shipper's Export Declaration in the required number of copies should be presented in person by the exporter or his authorized agent to the Collector of Customs at the United States port of export prior to exportation of the merchandise. (For shipments by mail, the declaration should be filed with the postmaster at the time of mailing.) For shipments from an interior point, the declaration, prepared and signed by the exporter or his agent, may be given to the carrier for presentation to Customs at the port of export.

20. HOW SHOULD CORRECTIONS BE MADE?

Corrections, amendments, or cancellations of data reported on Shipper's Export Declarations should be effected by means of the Shipper's Export Declaration Correction Form (available free from Collectors of Customs) which must be filed with the Collector of Customs or the Postmaster where the declaration was originally presented.

21. WHERE CAN THE SHIPPER'S EXPORT DECLARATION FORMS BE OBTAINED?

The regular declaration and its continuation sheet can be purchased for a nominal price from Collectors of Customs, Department of Commerce Field Offices, or the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. The alternate form must be privately printed; free samples are available from the Foreign Trade Division, Bureau of the Census, Washington, D.C. 20233. Any of the Shipper's Export Declaration forms may be privately printed provided they conform strictly to the official form in size, wording, color, quality (weight) of paper stock, and arrangement, including the instructions on the reverse side.

22. WHAT ARE SOME OF THE KINDS OF SHIPMENTS FOR WHICH SHIPPER'S EXPORT DECLARATIONS NEED NOT BE FILED?¹

Shipper's Export Declarations are generally required for all shipments unless specifically exempt. (See question 2.) A partial list of the kinds of shipments for which Shipper's Export Declarations are not required when such shipments are not moving under a validated export license is shown below.

- a. Shipments by mail where either the shipper or the addressee is not a business concern.
- b. Shipments by mail valued less than \$100.
- c. Shipments of technical data by mail (regardless of whether or not a validated export license is required).
- d. Shipments by mail where the goods are not exported for commercial consideration.
- e. Shipments by mail of catalogs, instruction books, and other advertising matter, or of newspapers, magazines and periodicals.
- f. Shipments of diplomatic pouches and their contents.
- g. Shipments of human remains and accompanying appropriate receptacles and flowers.
- h. Shipments from one point in the United States to another point thereof by routes passing through Canada or Mexico, and shipments from one point in Canada or Mexico to another point thereof by routes passing through the United States.
- i. Shipments of baggage, personal effects, and tools of trade, of persons leaving the United States, provided such baggage, personal effects, and tools of trade (i) include only such articles as are owned by such person or member of his immediate family; (ii) shall be in his possession at the time of or prior to his departure from the United States; (iii) are necessary and appropriate and intended for the personal use of such person or his immediate family;

and (iv) are not intended for sale, and provided further that such baggage, personal effects and tools of trade are not moving as cargo on a bill of lading.

j. Shipments of all commodities, whether shipped commercially or through government channels, consigned to the United States armed services, including shipments to armed services exchange systems.

k. Shipments encompassed by Office of Export Control General License GIFT.

l. Shipments, except by water or air, to Mexico valued less than \$50 provided such shipments are not moving as cargo on a bill of lading.

m. Shipments to Canada, to the United States possessions, and between the United States and Puerto Rico, where the value of the commodities classified under a single Schedule B number and shipped on the same exporting carrier from one exporter to one importer does not exceed \$100.

23. HOW CAN I FIND THE ANSWERS TO ANY FURTHER QUESTIONS I MAY HAVE ON SHIPPER'S EXPORT DECLARATIONS?

The reverse side of the Shipper's Export Declaration, reproduced on page 2, contains additional instructions. For further information, consult your local Collector of Customs or Department of Commerce Field Office. The Foreign Trade Division, Bureau of the Census, Washington, D.C. 20233, and the New York Office, Foreign Trade Branch, Economic Operations Division, Bureau of the Census, Room 434 Customhouse, New York, New York 10004, will also be able to answer any inquiries. Complete information regarding Census (statistical) requirements for the preparation and filing of the Shipper's Export Declaration is contained in the Foreign Trade Statistics Regulations (issued under the authority of Chapter 9 of Title 13, United States Code (76 Stat. 951) which may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20402. Additional copies of the Correct Way to Fill Out the Shipper's Export Declaration may be obtained free of charge from Collectors of Customs, Department of Commerce Field Offices, the New York Office of the Economic Operations Division, or Washington office of the Foreign Trade Division, Bureau of the Census.

24. COMPLIANCE WITH EXPORT CONTROL REGULATIONS

In preparing and filing export declarations, shippers must comply with all pertinent export control regulations published in the Comprehensive Export Schedule of the Bureau of International Commerce. Information concerning export control regulations may be obtained from the Bureau of International Commerce, Washington, D.C., 20230, or from the Department of Commerce Field Offices.

¹Space limitations preclude further discussion of applicable provisions in this "Correct Way to Fill Out the Shipper's Export Declaration." It is particularly important that the Foreign Trade Statistics Regulations and/or the Comprehensive Export Schedule be consulted for more complete treatment of these items.

When reporting exports of parts of machinery or other commodities, all possible classifications should be considered and the major headings and directives as well as the descriptions for such classifications should be carefully reviewed before a decision is made regarding the 7-digit code to be used.

Classification of Equipment, Parts, and Accessories Exported as Scrap

Machines, equipment, vehicles or apparatus, or parts or accessories therefore, should be described and classified as scrap on the Shipper's Export Declaration when they are being sold or shipped as scrap metal or when the known direct end use abroad is for scrapping (remelting for use in new production). This rule applies whether the physical characteristics or method of packaging identifies the items as scrap, or whether the items being shipped are in their original form or substantially their original form. The nature of the transaction as it is understood by the exporter and as reflected in the commercial documents covering the transaction is the basic criterion in classifying such shipments as scrap.

The description on the Shipper's Export Declaration, in addition to identifying the shipment as scrap, should specify the metal of which the item or items are made, and the Schedule B number for the appropriate classification for scrap of that metal should be shown in Column 13.

Classification of Metal Shipping Containers in Which Commodities are Exported

Attention is called to the classifications which are provided for specified types of metal containers for storage and transport. In this new edition of Schedule B, a separate commodity number, code 692.9999, is provided for filled or unfilled metal shipping containers which are moving in and out of the United States as instruments of international trade. This number is to be used for containers of domestic or foreign manufacture, exported empty and returned filled or exported filled and returned empty or filled, when moving as instruments of international trade. Shippers are cautioned to carefully read the directives for the commodity numbers covering metal containers for storage and transport.

Classification of Military-Type Equipment

In the case of some commodities (notably, clothing) items of a military type are classified separately from similar items which are other than military. However, in many cases military-type items are not classified separately but are included in the same classifications with shipments of the same commodity for other uses. Shippers of military-type items may find some of them covered by listings in the index which indicate "military." For military-type items not so listed, locate the Schedule B number which covers the item by name. If there is no directive on the page where that Schedule B number appears giving information as to the Schedule B number for military-type items, the military shipment is to be included under the Schedule B number which covers the commodity by name. (For purposes of Schedule B classification, "military" means manufactured to military specifications.)

Commodities Donated for Relief or Charity by Individuals or Private Agencies

Separate classifications are provided in the schedule for exports of certain commodities donated for relief or charity by individuals or private agencies. In general, such classifications are provided for those commodities which are known to be, or are likely to be, exported for relief or charity in fairly sizeable amounts. The classes which are provided for shipments of this type are as follows:

- 022.2030 - Nonfat dry milk
- 023.0010 - Butter
- 023.0030 - Anhydrous milk fat
- 024.0010 - Cheese and curd
- 041.0010 - Unmilled wheat, including
spelt or meslin
- 042.2010 - Milled rice
- 044.0010 - Unmilled corn
- 046.0010 - Wheat flour
- 047.0210 - Corn meal
- 048.1110 - Bulgur wheat (CLASSIFICATION
REWODED)
- 048.1120 - Rolled wheat (CLASSIFICATION
INSERTED)
- 048.1130 - Breakfast cereals prepared for
cooking, not elsewhere classified
(CLASSIFICATION INSERTED)
- 054.2005 - Dried beans, except for seed
- 091.0040 - Shortening
- 099.9900 - Food, donated for relief or
charity by individuals or
private agencies, not elsewhere
classified
- 421.2030 - Soybean salad oil
- 421.3030 - Cottonseed salad oil
- 421.8030 - Other salad oils
- 499.9900 - Oils and fats, not elsewhere
classified
- 549.9900 - Medicinal and pharmaceutical
products
- 849.9900 - Clothing (new clothing exported
for relief or charity by individuals
and private agencies and all used
clothing for relief or charity
whether exported by individuals,
private agencies or government
agencies)
- 931.0020 - Commodities donated for relief
or charity by individuals or
private agencies, not elsewhere
classified

In all cases, exports of commodities donated for relief or charity by individuals or private agencies should be reported under one of the classes listed above and not under other commodity classifications in the schedule. Commodity number 931.0020 should be used only in those cases where a more specific number has not been provided. The classes listed above should not be used for shipments by government agencies (United States, foreign or international) even

(1st Revision, January 1, 1966)

though the shipments may be described as exported "for relief or charity", except for shipments of used clothing by government agencies which are included under commodity number 849.9900. All other shipments for relief or charity by government agencies are to be reported along with regular commercial shipments under the applicable classification for the commodity being exported.

Classification for Reporting the Value of Repairs and Alterations

In the 1965 edition of Schedule B, a classification has been established for the value of repairs and alterations. Under this classification (commodity number 931.0010), shippers should report the value of repairs and alterations made on articles exported from the United States after having been imported for such purposes. The value to be reported should represent the total value of processing in the United States, including the value of parts and labor. The value of the article which was imported to be repaired or altered should not be included in the value reported for commodity number 931.0010.

Classification of Toys

When classifying exports of toys, reference should be made to the commodity classifications under group code 894. In general, toys are not intended to be reported under classifications for items which have the same name but are not toys. For example, toy trucks are not to be reported as trucks (codes 732.0204 through 732.0292).

Classifications With Double Units of Quantity

For some commodities (principally textiles), shippers are required to report net quantity information in two units, such as pound and square yard. For such commodities, two consecutive reporting numbers are provided in the schedule. Net quantity information for each reporting number is required to be shown on the Shipper's Export Declaration in the specified unit. Value is required to be reported only with the number which has a superior "v" shown following the unit of quantity.

Items Valued Less Than \$100

When classifying shipments valued less than \$100 or shipments including items valued less than \$100, reference should be made to Schedule B number 931.0030. This number is to be used by shippers when reporting exports of general merchandise valued at less than \$100, except where the shipment requires a validated export license. The conditions under which commodity number 931.0030 is to be used are outlined in the directives given in the schedule for this classification.

Trademarks and Brand Names in Schedule B

The lists of export commodities, under the numbered classifications herein, include some trademarks and brand names, either alone or coupled with the common commercial identification or description of the commodity. The inclusion of trademarks and brand names in Schedule B results from the practice of sometimes referring to commodities being exported in terms of such marks rather than in terms of more complicated and technical specifications which otherwise might be necessary for proper classification in the Schedule B categories. A substantial proportion of Shipper's Export Declarations are prepared by clerks or other nontechnical employees of export houses, freight forwarders, etc., who must rely on the designation of the commodity appearing on commercial papers such as invoices and who cannot be expected to know in all cases the detailed technical specifications of products solely designated by trademarks or brand names in such commercial papers. Commercial invoices and the Shipper's Export Declarations which are prepared from them, therefore, frequently refer to export shipments solely in terms of trademarks or brand names such as Cosmoline, Satina, Renuzit, etc. Without the inclusion of such trademarks in Schedule B it would be difficult to classify shipments of such products in their proper Schedule B classifications.

The Bureau of the Census is cognizant that such trademarks and brand names identify the products of specific manufacturers and that trademark owners may be genuinely concerned that their trademarks and brand names may, through indiscriminate use, become common names or "generic designations" for the products in connection with which they are used. The United States Patent Office has compared the lists of export commodities in Schedule B with the trade mark registrations which are in full force and effect in that Office, and a real effort was made to identify by a symbol and footnote all marks presently registered in that Office which appear in the numbered classifications in Schedule B. If, through inadvertence, a trademark registered in the United States Patent Office appears in Schedule B without such identification, the owner of such mark should notify the United States Patent Office, Trademark Operation, so that correction may be made in future printings.

The inclusion of trademarks and brand names (registered or unregistered in the U.S. Patent Office) in the lists of export commodities herein is necessitated by practical considerations of administration as stated above and in no case should such inclusion be considered as prejudicing, or having, or intending to have, any adverse effect upon the rights of the trademark owner.

Revisions or additions on reprinted pages in 1965
Schedule B.

A change in the title or commodity description of an existing classification will be made on the reprinted page by the insertion of the new correct title or description followed by a parenthetical note reading "(Classification reworded)"; other types of changes in the classifications will be followed by similar parenthetical notations, all of which have been underscored for easy "spotting".

Items being introduced into the Schedule for the first time on these reprinted pages will be identified by a symbol "•" to the left of the item. In the case of the addition of an item which has been transferred from one commodity number to another, the "•" symbol at the left of the listing will also be used, and the item will be followed by a parenthetical note

reading: "(From _____)". No notations will be made to indicate places where items have been deleted from the list of inclusions.

For the benefit of users of the statistics, classification changes or modifications will be marked on the reprint pages to show the date when the change was effective in the statistics. Listings for individual items being added to the Schedule for the first time are not given an effective date since their addition merely constitutes additional information and not a change in classification. The same is true of editorial changes, changes to correct obvious errors and changes which merely clarify the meaning.

The number of times the page has been revised together with the official date of the page will be indicated in a parenthetical note in the lower right hand corner of the page.

R Consists of or includes a trademark registered in the Patent Office of the U.S. See explanation in Introduction.

^vThis commodity number and the one preceding it are provided for the same classification and both are required to be shown on the Shipper's Export Declaration, each on a separate line. On the line with the preceding commodity number, shipping weight and value columns should be left blank, and net quantity reported in terms of the unit specified for the commodity number. On the line with this commodity number, which carries the superior "v", shipping weight (when required) and value should be shown, and net quantity reported in terms of the unit specified.

● New item or item which has been transferred from one commodity number to another.

(1st Revision, January 1, 1966)

**Classification of Exports
Section 4. Animal and Vegetable Oils and Fats**

Schedule B number	Commodity description, and items included (List of items not necessarily complete)	Unit of quantity
<u>ANIMAL OILS AND FATS</u>		
FISH AND MARINE MAMMAL OIL:		
THIS HEADING INCLUDES CRUDE AND REFINED OILS AND FATS, BUT EXCLUDES OILS AND FATS FURTHER PREPARED, E.G., HYDROGENATED.		
411.1010	WHALE AND SPERM OIL	LB.
	GREASE, WHALE BLUBBER OIL; COSMOL	
	OIL, PORPOISE JAW, FOR CLOCKS AND WATCHES	R SPERMAFOL 45
411.1020	MENHADEN OIL	LB.
411.1030	FISH AND MARINE MAMMAL OIL, N.E.C. (SPECIFY BY NAME)	LB.
FISH LIVER OILS ARE INCLUDED EVEN IF THEY HAVE BEEN IRRADIATED OR IF THEIR VITAMIN CONTENT HAS BEEN OTHERWISE INCREASED, BUT THEY ARE EXCLUDED WHEN--1. PUT UP AS MEDICAMENTS (SEE 5417058); 2. EMULSIFIED; 3. MIXED WITH OTHER SUBSTANCES WITH A VIEW TO THERAPEUTIC USE. FOR SULFONATED FISH OILS AND FATTY ACIDS, SEE 5329000; 5511050; 5543040 AND 5543050.		
	FISH OIL, EXCEPT MENHADEN, FORTIFIED, VETERINARY GRADE, NOT MEDICAMENT OIL; COD	
	OIL, COD-LIVER, NONMEDICINAL OIL; EULACHON OIL; HALIBUT, NON-MEDICAL OIL; POLLACK LIVER	
	OIL, SARDINE (PILCHARD AND HERRING) OIL; SEAL	
411.3310	LARD OIL; OLEO OIL; LARD STEARIN; OLEO STEARIN AND TALLOW STEARIN; EDIBLE.	LB.
411.3320	LARD OIL; TALLOW OIL; LARD STEARIN; OLEO STEARIN AND TALLOW STEARIN; INEDIBLE.	LB.
	OIL; GREASE	
411.3610	TALLOW; EDIBLE	LB.
	FLAKES; TALLOW SUET; BEEF	
	TALLOW; BEEF TALLOW; MUTTON	
411.3620	TALLOW; INEDIBLE; AND GREASE, EXCEPT WOOL GREASE AND CHOICE WHITE GREASE.	LB.
	REPORT CHOICE WHITE GREASE IN 0910020.	
	GREASE; BONE GREASE; FLESHING GREASE; GARBAGE	
	R NEO-FAT 18-59 OIL; MINK SUET; BEEF	TALLOW; FANCY
411.3630	ANIMAL FATS AND OILS, N.E.C., INCLUDING WOOL GREASE AND DEGRAS	LB.
REPORT BUTTER IN 0230010 AND 0230020; DIPPEL'S OIL; SOMETIMES CALLED BONE OIL; IN 5999970. LANOLIN; TO WHICH MEDICATED OR PERFUMED SUBSTANCES HAVE BEEN ADDED; AND WOOL GREASE RESIDUES (SEE 4313030) ARE EXCLUDED. ALSO EXCLUDED ARE FISH OILS WHICH HAVE BEEN MERELY OXIDIZED OR POLYMERIZED; AND SULFONATED OILS.		
	BONE MARROW OIL EGG YOLK; TANNERS' FAT CAUL FAT; WOOL; DEODORIZED GREASE; CURRIER'S GREASE; TANNING HORSE FAT	
	LANOLIN; ANHYDROUS LANOLIN GREASE R MYVEROL, TYPE 18-05 AND TYPE 70 OIL; EGG OIL; GOOSE OIL; LANOLIN	
	OIL; NEAT'S-FOOT OIL; SKUNK OIL; TURTLE OLEO STOCK STEARIN; GREASE WOOL	
<u>VEGETABLE FATS AND OILS, EXCEPT HYDROGENATED</u>		
VEGETABLE OILS; SOFT; EXCEPT HYDROGENATED:		
REPORT ESSENTIAL OILS; NATURAL; IN 5511010-5511050; HYDROGENATED OILS; INCLUDING FLAKES; IN 4312010; 4312020; AND 4312030; AND SHORTENING IN 0910050.		
421.2010	SOYBEAN OIL; CRUDE; INCLUDING DEGUMMED (<u>CLASSIFICATION REWORDED</u>)	LB.

Classification of Exports
Section 5. Chemicals

Schedule B number	Commodity description, and items included (List of items not necessarily complete)	Unit of quantity
513.5020	ZINC OXIDES AND PEROXIDE, PIGMENT GRADES (SPECIFY BY CHEMICAL NAME AND DESCRIBE AS PIGMENT GRADE ON THE SHIPPER'S EXPORT DECLARATION)	LB.
513.5030	IRON OXIDES AND HYDROXIDES, PIGMENT GRADES (SPECIFY BY CHEMICAL NAME AND DESCRIBE AS PIGMENT GRADE ON THE SHIPPER'S EXPORT DECLARATION)	LB.
	FERRIC OXIDE HYDRATED	
513.5040	LEAD OXIDES, PIGMENT GRADES (SPECIFY BY CHEMICAL NAME AND DESCRIBE AS PIGMENT GRADE ON THE SHIPPER'S EXPORT DECLARATION)	LB.
	LEAD OXIDE, YELLOW, DRY LITHARGE	
	ORANGE MINERAL RED LEAD (LEAD OXIDE)	
	RED LEAD OXIDE	
513.5050	COBALT AND MANGANESE OXIDES AND COBALT HYDROXIDES, PIGMENT GRADES (SPECIFY BY CHEMICAL NAME AND DESCRIBE AS PIGMENT GRADE ON THE SHIPPER'S EXPORT DECLARATION)	LB.
	COBALT HYDROXIDE COBALT OXIDE	
	COLORING OXIDE, COBALT MANGANESE DIOXIDE (ALL GRADES INCLUDING BATTERY MIX) - EXCL. NATURAL	
513.5060	OXIDES OF ZINC, IRON, TITANIUM, LEAD, MANGANESE, COBALT; ZINC PEROXIDE; HYDROXIDES OF IRON AND COBALT, EXCEPT PIGMENT GRADES (SPECIFY BY CHEMICAL NAME AND DESCRIBE AS "EXCEPT PIGMENT GRADE" ON THE SHIPPER'S EXPORT DECLARATION). (CLASSIFICATION REWORDED)	LB.
	IRON HYDROXIDE, SYNTHETIC IRON OXIDE CATALYST IRON OXIDE, SYNTHETIC (EXCEPT PIGMENTS)	
	LEAD DIOXIDE LEAD OXIDE, BROWN LEAD PEROXIDE MANGANESE OXIDE	
	ROUGE, JEWELLERS (SYNTHETIC FERRIC OXIDE) TITANIUM OXIDE ZINC PEROXIDE	
513.6110	AMMONIA, ANHYDROUS OR IN AQUEOUS SOLUTION, FERTILIZER GRADE (REPORT WEIGHT OF AMMONIA CONTENT ONLY AS NET QUANTITY)	CNT. LB.
	AMMONIA LIQUOR	
	AMMONIACAL GAS LIQUOR, CRUDE	
	AMMONIUM HYDROXIDE	
513.6120	AMMONIA, ANHYDROUS OR IN AQUEOUS SOLUTION, EXCEPT FERTILIZER GRADE (REPORT WEIGHT OF AMMONIA CONTENT ONLY AS NET QUANTITY)	CNT. LB.
	AMMONIA, ANHYDROUS AND AQUA AMMONIA, HOUSEHOLD	
	AMMONIA LIQUOR AMMONIACAL GAS LIQUOR, CRUDE	
	AMMONIUM HYDROXIDE	
513.6210	SODIUM HYDROXIDE (CAUSTIC SODA), SOLID (SPECIFY AS SOLID FORM ON THE SHIPPER'S EXPORT DECLARATION)	LB.
	CAUSTIC SODA CHARGES CAUSTIC SODA STICKS	
	SODIUM HYDROXIDE, FLAKES SODIUM HYDROXIDE, GRANULAR	
	SODIUM MONOHYDRATE	
513.6220	SODIUM HYDROXIDE (CAUSTIC SODA), LIQUID (REPORT DRY WEIGHT CONTENT AS NET QUANTITY) (SPECIFY AS LIQUID FORM ON THE SHIPPER'S EXPORT DECLARATION)	CNT. LB.
513.6310	POTASSIUM HYDROXIDE	LB.
	CAUSTIC POTASH	
513.6320	SODIUM PEROXIDE	LB.
	SALOZONE (SODIUM PEROXIDE)	
513.6330	POTASSIUM PEROXIDE	LB.
513.6400	OXIDES, HYDROXIDES AND PEROXIDES OF STRONTIUM, BARIUM, OR MAGNESIUM (SPECIFY BY CHEMICAL NAME)	LB.
	BARIUM DIOXIDE BARIUM HYDRATE BARIUM HYDROXIDE BARIUM OXIDE BARIUM PEROXIDE	
	BARIUM SUPEROXIDE MAGNESIA, ACTIVATED MAGNESIUM HYDROXIDE (MAGNESIUM HYDRATE) MAGNESIUM OXIDE	
	MAGNESIUM OXIDE MAGNESIUM PEROXIDE STRONTIUM HYDROXIDE STRONTIUM OXIDE STRONTIUM PEROXIDE

(1st Revision, January 1, 1966)

Classification of Exports
Section 6. Manufactured Goods Classified Chiefly by Material

Schedule B number	Commodity description, and items included (List of items not necessarily complete)	Unit of quantity
	CASTINGS OR FORGINGS ARE CONSIDERED AS BEING IN THE ROUGH STATE EVEN IF THEY HAVE BEEN SUBJECTED TO ANNEALING, TEMPERING AND SIMILAR HEAT TREATMENTS OR NITRIDING TO IMPROVE THE PROPERTIES OF THE METAL; OR IF THEY HAVE BEEN SUBJECTED TO DESCALING PROCESSES AND ROUGH COATING TO PREVENT RUSTING. CASTINGS OR FORGINGS FURTHER ADVANCED THAN DESCRIBED ABOVE, AND SPECIFICALLY IDENTIFIABLE AS PARTS OF ARTICLES, SHOULD BE CLASSIFIED AS SUCH PARTS IN THE APPROPRIATE COMMODITY NUMBER.	
679.1010	GREY IRON CASTINGS IN THE ROUGH STATE	LB.
	CASTINGS, CESSPOOLS COVERS, MANHOLE DRAINS, ROOF CASTINGS, MANHOLE DRAINS, FLOOR	
679.1020	MALLEABLE IRON CASTINGS IN THE ROUGH STATE	LB.
	CASTINGS, MANHOLE COVERS, MANHOLE FIREPLUGS	
679.2010	CARBON STEEL CASTINGS IN THE ROUGH STATE	LB.
	BALLS, GRINDING RUDDER POSTS CASTINGS, BALL SOCKET RUDDERS AND PARTS	
679.2020	ALLOY STEEL CASTINGS IN THE ROUGH STATE	LB.
	BALLS, GRINDING, CAST, ALLOY RUDDERS RUDDER POSTS VALVE SEATS	
679.3010	GRINDING BALLS AND RODS, ROUGH FORGINGS	LB.
679.3020	CARBON STEEL FORGINGS, N.E.C., IN THE ROUGH STATE	LB.
	BARS, SHELL DIE CRANK PINS ENGINE FORGINGS BLANKS, TAPPET CRANKSHAFTS FORGINGS, GUN CLIP PLATES DIE BLOCKS COGS DROP FORGINGS	
679.3030	ALLOY STEEL FORGINGS, N.E.C., IN THE ROUGH STATE	LB.
	BARS, SHELL DIE COGS DROP FORGINGS BLADES, JET ENGINE CRANK PINS ENGINE FORGINGS, BLANKS, TAPPET CRANKSHAFTS FORGINGS, GUN CLIP PLATES DIE BLOCKS	
	<u>NON-FERROUS METALS</u>	
	UNWROUGHT - THIS TERM REFERS TO METAL, WHETHER OR NOT REFINED, IN THE FORM OF INGOTS, BLOCKS, LUMPS, BILLETS, CAKES, SLABS, PIGS, CATHODES, ANODES, BRIQUETS, CUBES, STICKS, GRAIN, SPONGE, PELLETS, SHOT, AND SIMILAR PRIMARY FORMS, BUT DOES NOT COVER ROLLED, FORGED, DRAWN OR EXTRUDED PRODUCTS, TUBULAR PRODUCTS, OR CAST OR SINTERED FORMS WHICH HAVE BEEN MACHINED OR PROCESSED OTHERWISE THAN BY SIMPLE TRIMMING, SCALPING OR DESCALING.	
	WROUGHT - THIS TERM, AS APPLIED TO METAL PRODUCTS OTHER THAN WROUGHT IRON, REFERS TO PRODUCTS WHICH HAVE BEEN ROLLED, FORGED, DRAWN OR EXTRUDED, AND ALSO REFERS TO CAST OR SINTERED PRODUCTS WHICH HAVE BEEN MACHINED OR PROCESSED OTHERWISE THAN BY SIMPLE TRIMMING, SCALPING OR DESCALING.	
	ALLOYS OF BASE METALS ARE CLASSIFIED WITH THE METAL WHICH PREDOMINATES BY WEIGHT WITH THE EXCEPTION OF ALLOYS CONTAINING MORE THAN 10% OF NICKEL. ALLOYS CONTAINING MORE THAN 10% OF NICKEL SHOULD BE REPORTED AS NICKEL ALLOYS EXCEPT WHERE THE ALLOY IS CONSIDERED TO BE ALLOY STEEL. (EDITED)	
	ALLOYS OF BASE METAL WITH PRECIOUS METALS ARE CLASSIFIED AS PRECIOUS METAL ALLOYS IF THE PRECIOUS METAL (GOLD, SILVER, PLATINUM GROUP METALS) CONSTITUTES 2% OR MORE BY WEIGHT OF THE ALLOY.	

See footnotes at the end of this group.

R Consists of or includes a trademark registered in the Patent Office of the U.S. See explanation in Introduction.

✓ This commodity number and the one preceding it are provided for the same classification and both are required to be shown on the Shipper's Export Declaration, each on a separate line. On the line with the preceding commodity number, shipping weight and value columns should be left blank, and net quantity reported in terms of the unit specified for the commodity number. On the line with this commodity number, which carries the superior "v", shipping weight (when required) and value should be shown, and net quantity reported in terms of the unit specified.

● New item or item which has been transferred from one commodity number to another.
