LETTER OF TRANSMITTAL

DEPARTMENT OF COMMERCE,
BUREAU OF THE CENSUS,
Washington, D. C., June 1, 1924.

SIR:

I transmit herewith the report on the census of Telephones for 1922. This is one of the electrical industries series, which also includes reports on central electric light and power stations, electric railways, and telegraphs.

The census of electrical industries has been taken quinquennially, beginning with the inquiry for the year 1902, under provisions of the acts of Congress approved March 6, 1902, and June 7, 1906.

The collection of the data, the compilation of the statistics, and the preparation of the text were done under the supervision of Eugene F. Hartley, chief statistician for manufactures, assisted by Edward B. White and LeVerne Beales.

Respectfully,

W. M. STEUART,
Director of the Census.

Hon. HERBERT HOOVER,
Secretary of Commerce.

CONTENTS

Chapter I.—INTRODUCTION

	Page
General description.....	5
Period covered.....	5
Unit of enumeration.....	5
Collection of data.....	5
Change in classification according to income.....	6
Geographic divisions and States.....	6

TABLE

1.—Summary—All systems and lines: 1922.....	7
---	---

Chapter II.—DEVELOPMENT OF THE INDUSTRY

Growth during twenty years.....	8
Effect of change in classification according to income.....	8
Comparability of statistics for 1880, 1890, and 1902 with those for later years.....	9

TABLES

2.—Summary—Systems reporting annual incomes of \$10,000 or more, 1922, and those reporting \$5,000 or more: 1880-1917.....	9
3.—Summary—Systems reporting annual incomes of \$10,000 or more: 1922 and 1917.....	10
4.—Summary—All systems reporting incomes of \$5,000 or more, all such systems exclusive of the Bell System, and systems reporting from \$5,000 to \$10,000, with percentages: 1917.....	10
5.—Number of systems and lines, grouped according to annual income, by geographic divisions and States: 1907-1922.....	11
6.—Miles of wire, for all systems and lines, 1907-1922; and for income groups, 1912-1922, by geographic divisions and States.....	12
7.—Number of telephones, for all systems and lines, 1907-1922; and for income groups, 1912-1922, by geographic divisions and States.....	14
8.—Per cent of increase or decrease, miles of wire and number of telephones, all systems and lines, grouped according to annual income, by geographic divisions and States: 5-year and 10-year periods, 1912 to 1922.....	16
9.—Per cent distribution, miles of wire and number of telephones, all systems and lines, grouped according to annual income, by geographic divisions and States: 1922, 1917, and 1912.....	18
10.—Summary—Telephone and telegraph systems: 1902-1922.....	20

Chapter III.—EQUIPMENT AND TRAFFIC

Equipment reported.....	21
Wire mileage.....	21
Telephones.....	21
Central offices and private-branch exchanges.....	21
Number of originating calls.....	22
Exchange and long-distance or toll calls.....	22
Number of originating calls per telephone per day.....	22
Per capita figures.....	23

TABLES

11.—Equipment statistics, all systems and lines, grouped according to annual income: 1907-1922.....	23
12.—Miles of wire, overhead and underground, on exchange and toll circuits, all systems and lines: 1922, 1917, and 1912.....	23
13.—Miles of wire, overhead and underground, all systems and lines: 1902-1922.....	24
14.—Originating calls, classified as exchange and long-distance or toll, for systems reporting incomes of \$10,000 or more, 1922, and those reporting \$5,000 or more, 1902-1917.....	24
15.—Number of telephones December 31, 1922, and December 31, 1921, and average number for 1922, for the Bell System and for other systems reporting annual incomes of \$10,000 or more, by geographic divisions and States.....	25
16.—Telephones, originating calls, and calls per telephone per day, by geographic divisions and States, for systems reporting annual incomes of \$10,000 or more, 1922, and those reporting \$5,000 or more, 1922, 1917, and 1912.....	26

	Page
17.—Originating calls, classified as exchange and long-distance or toll, for systems reporting annual incomes of \$10,000 or more, by geographic divisions and States: 1922.....	27
18.—Number of telephones per 1,000 population, all systems and lines, by geographic divisions and States: 1902 to 1922.....	28
19.—Number of originating calls per capita, by geographic divisions, for systems and lines reporting annual incomes of \$10,000 or more, 1922, and those reporting \$5,000 or more, 1902-1917.....	29
20.—Number of originating calls per capita, by States, for systems and lines reporting annual incomes of \$10,000 or more, 1922, and those reporting \$5,000 or more, 1902-1917.....	29

Chapter IV.—COMPARISON OF BELL AND OTHER SYSTEMS; STATISTICS FOR SMALL SYSTEMS AND LINES

Bell-controlled companies.....	30
Effect of change in classification according to income.....	31
Statistics for small systems and lines.....	31

TABLES

21.—Systems and lines, miles of wire, and telephones, the Bell System and all other systems and lines: 1902-1922.....	31
22.—Detailed statistics, the Bell System and other systems reporting annual incomes of \$10,000 or more, 1922, and those reporting \$5,000 or more, 1917 and 1912.....	32
23.—Miles of wire, overhead and underground, on exchange and toll circuits, the Bell System and all other systems and lines: 1922 and 1917.....	33
24.—Miles of wire, the Bell System and all other systems and lines, by geographic divisions and States: 1922, 1917, and 1912.....	34
25.—Number of telephones, the Bell System and all other systems and lines, by geographic divisions and States: December 31, 1922, 1917, and 1912.....	36
26.—Number of central offices, for the Bell System and for all other systems and lines, grouped according to annual income, by geographic divisions and States: 1907-1922.....	38
27.—Number of private-branch exchanges, for the Bell System and other systems reporting incomes of \$10,000 or more, 1922, and for the Bell System and other systems reporting \$5,000 or more, 1917 and 1912, by geographic divisions and States.....	40
28.—Originating calls, local exchange and long-distance or toll, and number of calls per telephone per day, the Bell System and all other systems and lines, by geographic divisions and States: 1922.....	42
29.—Principal statistics, systems and lines reporting annual incomes of less than \$10,000, by geographic divisions and States: 1922.....	44

Chapter V.—FINANCIAL STATISTICS

Character of the statistics.....	46
Effect of change in monetary values.....	46
Capitalization.....	46
Dividend and interest rates.....	47
Duplication in income and expenses.....	47
Income and expenses per telephone and per call.....	47
Balance sheet.....	47
Employees, salaries, and wages.....	47

TABLES

30.—Analysis of capitalization, for the Bell System and for other systems reporting annual incomes of \$10,000 or more, 1922, and those reporting \$5,000 or more, 1917, 1912, and 1907.....	48
31.—Income statement, Bell System and other systems reporting annual incomes of \$10,000 or more: 1922.....	49
32.—Operating revenues and expenses, the Bell System and other systems reporting annual incomes of \$10,000 or more, 1922, and those reporting \$5,000 or more: 1917.....	50
33.—Revenue and expenses per telephone and per originating call, systems reporting annual incomes of \$10,000 or more, 1922, and those reporting \$5,000 or more, 1907-1922.....	50
34.—Balance sheet, the Bell System and other systems reporting annual incomes of \$10,000 or more: December 31, 1922.....	51
35.—Balance sheet, incorporated and unincorporated non-Bell systems reporting annual incomes of \$10,000 or more: December 31, 1922.....	51
36.—Employees, salaries, and wages, systems reporting annual incomes of \$10,000 or more, 1922, and systems reporting annual incomes of \$5,000 or more, 1917 and 1912.....	52

APPENDIX

Schedule used in securing data for telephone systems having incomes of \$10,000 or more in 1922.....	54
Schedule used in securing data for telephone systems having incomes of less than \$10,000 in 1922.....	56
