

INDEX.

- Alabama. *See* States and territories.
- Alaska, telephone systems in, 28. *See also* States and territories.
- "All-cable" type, general results of, 85.
- American Telephone and Telegraph Company, method of segregating statistics, 13; telephone repeater on lines of, 96; effect of use of loaded cables, 97.
- Answering-jacks, "ancillary," introduction in switchboards, 95.
- Arizona. *See* States and territories.
- Arkansas. *See* States and territories.
- Assessments, for independent farmer or rural lines, 27, 116; for commercial and mutual systems combined, 112; income from, 67.
- Assets, for commercial and mutual systems combined, 14, 63, 64; per cent distribution, 64.
- Automatic systems and lines. *See* Systems and lines.
- Balance sheet, net, for commercial and mutual systems combined, 63; condensed, 64.
- Baltimore, Md., population, 55; number of telephones, 55; per 1,000 population, 55.
- Batteries. *See* Cells, primary-battery and storage-battery.
- Bell and independent (non-Bell) systems, connected for exchange of service, number of telephones, 22; per cent of total number, 23.
- Bell companies, development of central-office switchboards by, 88; individual or two-party line service, policy of, 89; "jack-per-station" system used exclusively by, 96.
- Bell system (American Telephone and Telegraph Company), development of, 19; comparison with independent (non-Bell) system, 21, 59; number of telephones, 22; per cent of total number, 23; public exchanges, 29; traffic, 56; capitalization of incorporated companies, 57; net capitalization, 57-59.
- Bells, improvements in, 87.
- Boston, Mass., population, 55; number of telephones, 55; per 1,000 population, 55; use of loaded cable connections, 97; telephone system on elevated railways and in subways, 101.
- Buffalo, N. Y., population, 55; number of telephones, 55; per 1,000 population, 55; capacity of switchboards, 88.
- Cable, underground and submarine, miles of, 33, 106; compound, use of, 86; loaded, description and practical effects of, 97.
- California, number of telephones, 18; miles of wire, 34; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- California and Colorado (combined), physical equipment for mutual systems, 47; messages per telephone per day, 50.
- Capital stock, authorized and outstanding, of dividend and nondividend paying companies, 60; taxes on, 66. *See also* Capital stock and funded debt.
- Capital stock and funded debt, outstanding, for commercial and mutual systems combined, 14, 58-60, 63; for all telephone systems, 15, 57; for telegraph systems, 15; authorized, 57.
- Capitalization, outstanding, of incorporated companies, 57; analysis of, 58; companies yielding and not yielding a return on, 60; net, 61, 62.
- Cash investment of unincorporated systems, 62, 63.
- Cells, primary-battery, number, 33, 110, 115. — storage-battery, number, 33, 110.
- Chicago, Ill., population, 55; number of telephones, 55; per 1,000 population, 55; use of loaded cable connections, 97; telephone system on elevated railways and in subways, 101.
- Chicago, Burlington and Quincy Railroad, experiments in use of telephone for train dispatching, 99.
- Chicago Telephone Company, data concerning, 82.
- Cincinnati, Ohio, population, 55; number of telephones, 55; per 1,000 population, 55.
- Clerks and bookkeepers, number and salaries, 111, 114.
- Cleveland, Ohio, population, 55; number of telephones, 55; per 1,000 population, 55; capacity of switchboards, 88.
- Coin-box service. *See* Prepayment or coin-box service.
- Colorado. *See* States and territories.
- Columbus, Ohio, installation of automatic district stations, 91.
- Commercial and mutual systems combined, number, 25; telephones, 33, 49, 51; miles of wire and line construction, 33; exchange or central office power-plant equipment, 33; messages, 49, 51; capitalization of incorporated companies, 57-59; net capitalization, 58, 62; classified as companies yielding and not yielding a return on capitalization, 60; according to capital stock of dividend and nondividend paying companies, 60; common and preferred stock, 61; funded debt, 61; cost of construction and equipment, 61, 62; assets and liabilities, 63, 64; classified according to number of telephones, 69; per cent distribution of gross income by disposition, 69; averages per station and per message for income and expense accounts, 70; telephones per employee, 72.
- Commercial systems, number, 24, 26, 55; telephones, 44, 49, 55, 56; physical equipment, 44; messages, 49; classified as in urban and in rural districts, 55; traffic, 56; income account, 65; operating expenses, 66; per cent distribution of deductions from income, 66; taxes, 66; operating earnings and operating expenses per station and per message, 68; income and expenses per station and per message, 68; employees, salaries, and wages, 71; exchanges and employees per exchange, 73; detailed summary, 106.
- Common and preferred stock, authorized and outstanding, for commercial and mutual systems combined, 57; dividends on, 59; classified according to payment of dividends, 61.
- Companies, dividend and nondividend paying, capital stock of, 60. — incorporated, number and capitalization, 57, 59; yielding and not yielding a return on capitalization, 60.
- "Company," use of term, 13.
- Connecticut, number of rural telephones, 79. *See also* States and territories.
- Connecticut and Rhode Island (combined), new construction and equipment in excess of \$1,000,000, 63.
- Construction, overhead line and underground, miles of, for commercial and mutual systems combined, 33. *See also* Line construction.
- Construction and equipment, cost of, 61; including real estate and telephones, 62, 63; added during year, 62; per cent distribution, 63. *See also* Equipment.
- Dayton, Ohio, equipment of switchboards, 90.
- Delaware. *See* States and territories.
- Detroit, Mich., population, 55; number of telephones, 55; per 1,000 population, 55; capacity of switchboards, 88.
- Development, industrial and technical, 74; semiautomatic, tendencies in, 93.
- District of Columbia. *See* States and territories.
- Dividend-paying companies. *See* Companies.
- Drops or jacks, number, by kind of switchboard, 32, 109, 115; average equipped capacity per switchboard, 46.
- Dynamos, horsepower of, 33, 110.
- Earnings, operating, taxes on, 66; per telephone and per message, 68, 70; gross and net, 69.
- Employees, number, for commercial and mutual systems, 14, 71-73; per exchange, 73. *See also* Salaried employees.
- Engines, horsepower of, 33, 110.
- Enumeration, scope of, 12.
- Equipment, physical, analysis of, 43; for commercial systems, 44; for mutual systems, 47. — pneumatic-tube, installation of, 95. — power-plant, description of, 33; for commercial and mutual systems combined, 33; for commercial systems, 110. *See also* Construction and equipment.
- Erie Railroad, extent of separate systems, 84.
- Exchange work in cities, general conditions of, 81.
- Exchanges, number, for telephone systems under construction in 1907, 27; for commercial and mutual systems combined, 29; for commercial systems, 107; for mutual systems, 114. — private-branch, number, for Bell and independent (non-Bell) systems, 21; for commercial and mutual systems combined, 21, 29; for commercial systems, 107; for mutual systems, 114. — public, for commercial and mutual systems combined, 14, 25, 29; for Bell and independent (non-Bell) systems, 21; for commercial systems, 26, 55, 73, 107; for mutual systems, 26, 73, 114. — push-button private-branch, installation of, 81.
- Farmer or rural lines owned, number, for commercial systems, 44, 108; for mutual systems, 115.
- Fire-alarm telephone service. *See* Police and fire-alarm telephone service.

- Fixed charges. *See* Operating expenses and fixed charges.
- Frames. *See* States and territories.
- Frames, distributing, number, for commercial systems, 109; for mutual systems, 115.
- Funded debt, interest on, for commercial and mutual systems combined, 14, 59, 61; for all telephone systems, 15; for telegraph systems, 15; for commercial systems, 26; for mutual systems, 26; authorized and outstanding, 57; classified according to payment of interest, 61. *See also* Capital stock and funded debt.
- Generators, hand-magneto, and power-driven ringers in central offices, number, 33, 110, 115.
- Georgia. *See* States and territories.
- Grand Rapids, Mich., equipment of switchboards, 90.
- Harmonic signaling. *See* Signaling.
- Hawaii, telephone systems in, 28. *See also* States and territories.
- Idaho. *See* States and territories.
- Illinois, number of telephones, total, 18, 27; on rural lines, 25; on independent farmer or rural lines, 27; miles of wire, 34; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Income, for commercial and mutual systems combined, 14, 25, 69; for all telephone systems, 15, 16, 25, 65; for telegraph systems, 15; for commercial systems, 26, 55, 65, 112; for mutual systems, 26, 65, 115; for independent farmer or rural lines, 27, 67, 116; per station and per message, 68, 70; per cent distribution by disposition, 69.
- Incorporated companies. *See* Companies.
- Independent farmer or rural lines, number of lines, miles of wire, and number of stations, 24, 27, 116; income and assessments, 27, 67, 116.
- Independent stations exchanging service with Bell system, number of telephones, 22; per cent of total number, 23.
- Independent (non-Bell) system, comparison with Bell system, 21, 59; number of telephones, 22; per cent of total number, 23; public exchanges, 29; traffic, 56; capitalization of incorporated companies, 57; net capitalization, 57-59.
- Indian Territory. *See* States and territories.
- Indiana, number of telephones, total, 18, 27; on rural lines, 25; on independent farmer or rural lines, 27; miles of wire, 34; physical equipment for mutual systems, 47; messages per station per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Instruments, subscribers', types of, 86.
- Interest on funded debt, for commercial and mutual systems combined, 14, 16, 25, 59, 61; for all telephone systems, 15; for telegraph systems, 15; for commercial systems, 26, 113; for mutual systems, 26.
- Iowa, number of telephones, total, 18, 27; on rural lines, 25; on independent farmer or rural lines, 27; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63; use of telephones on farms, 79. *See also* States and territories.
- "Jack-per-station" system, use of, by Bell companies, 96.
- Kansas, number of telephones, total, 18, 27; on rural lines, 25; on independent farmer or rural lines, 27; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Keith line switch, effect on exchange construction, 91.
- Kentucky, number of telephones, total, 27; on independent farmer or rural lines, 27; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Kentucky and Tennessee (combined), physical equipment for mutual systems, 47; messages per telephone per day, 50.
- Liabilities, for commercial and mutual systems combined, 63, 64; per cent distribution, 64.
- "Line," use of term, 13.
- Line construction, miles of, for telephone systems under construction in 1907, 27; for commercial systems, 106; for mutual systems, 114.
- overhead, miles of, for commercial and mutual systems combined, 33; for commercial systems, 106; for mutual systems, 114.
- Lines. *See* Systems and lines.
- Los Angeles, Cal., installation of multi-office and automatic systems, 91.
- Louisiana. *See* States and territories.
- Lynn, Mass., use of loaded cable connections, 97.
- Maine. *See* States and territories.
- Managers. *See* Superintendents, managers, etc.
- Maryland. *See* States and territories.
- Maryland, Delaware, and District of Columbia (combined), new construction and equipment in excess of \$1,000,000, 63.
- Massachusetts, number of telephones, 18; miles of wire, 34; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- "Message," use of term, 48.
- Messages or talks, number, estimated, 14, 16, 49, 51; per capita, 19, 51, 53; for Bell and independent (non-Bell) systems, 21; for commercial and mutual systems combined, 25; for commercial systems, 26, 55, 56, 109; for mutual systems, 26, 50, 115; per telephone per day, 49, 50; per year, 51, 68, 70; per cent distribution and increase, 18.
- exchange, number, 49, 56, 109, 115.
- long-distance and toll, number, 49, 56, 109, 115.
- Michigan, number of telephones, total, 18, 27; on independent farmer or rural lines, 27; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Milwaukee, Wis., population, 55; number of telephones, 55; per 1,000 population, 55; use of loaded cable connections, 97.
- Minnesota, number of telephones, total, 27; on independent farmer or rural lines, 27; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Mississippi. *See* States and territories.
- Missouri, number of telephones, total, 18, 27; on rural lines, 25; on independent farmer or rural lines, 27; miles of wire, 34; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Montana. *See* States and territories.
- Motors, electric, horsepower of, 33, 110.
- Mutual systems, number, 24, 26, 47; telephones, 47, 50, 115; physical equipment, 47; messages, 50; income account, 65; operating expenses, 66; per cent distribution of deductions from income, 66; taxes, 66; operating earnings and operating expenses per station and per message, 68; employees, salaries, and wages, 71; exchanges, and employees per exchange, 73; detailed summary, 114.
- National Bell Telephone Company, annual rental rates established by, 75.
- Nebraska, number of telephones, total, 27; on independent farmer or rural lines, 27; physical equipment for mutual systems, 47; messages per telephone per day, 50. *See also* States and territories.
- Nevada. *See* States and territories.
- New Hampshire. *See* States and territories.
- New Haven, Conn., use of loaded cable connections, 97.
- New Jersey, new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- New Mexico. *See* States and territories.
- New Orleans, La., population, 55; number of telephones, 55; per 1,000 population, 55.
- New York, number of telephones, total, 18, 27, 55; on independent farmer or rural lines, 27; miles of wire, 34; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63; use of telephone on forest reserves, 75. *See also* States and territories.
- New York City, N. Y., population, 55; number of telephones, 55; per 1,000 population, 55; support of wires and cables, 85; trunked connections, 96; use of loaded cable connections, 97; telephone system on electric railways and in subways, 101.
- Nickel-in-the-slot machine, extensive use of, 81.
- Nondividend-paying companies. *See* Companies.
- Nonrural (commercial) lines, miles of wire, 37; number of telephones, 41; per cent increase, 43.
- North Carolina. *See* States and territories.
- North Dakota, physical equipment for mutual systems, 47; messages per telephone per day, 50. *See also* States and territories.
- Officers of corporations, number and salaries, 111, 114.
- Ohio, number of telephones, total, 18, 27; on rural lines, 25; on independent farmer or rural lines, 27; miles of wire, 34; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Oklahoma, number of telephones, total, 27; on independent farmer or rural lines, 27. *See also* States and territories.
- Oklahoma and Arkansas (combined), physical equipment for mutual systems, 47; messages per telephone per day, 50.
- Operating earnings. *See* Earnings, operating.
- Operating expenses, analysis of, 66; rentals, 65, 66, 113; per station and per message, 68, 70.
- Operating expenses and fixed charges, for commercial systems, 113; for mutual systems, 115.
- Operating expenses and fixed charges, except interest on funded debt, for commercial and mutual systems combined, 14, 25; for all telephone systems, 15, 16; for telegraph systems, 15; for commercial systems, 26, 55; for mutual systems, 26.
- Operations, income from, for independent farmer or rural lines, 67.

- Operators, number, 71, 73; wages, 71.
— switchboard, provisions for welfare of, 102.
- Oregon, physical equipment for mutual systems, 47; messages per telephone per day, 50. *See also* States and territories.
- Overhead line construction. *See* Construction.
- Ownership, character of, for telephone systems under construction in 1907, 27; for commercial systems, 106.
- Party lines (city or town), number, for commercial systems, 44, 108; for mutual systems, 115; per cent of total number of telephones on, 46.
- Party lines (city or town) and farmer or rural lines owned, number, for mutual systems, 47.
- Pay stations, number, 21, 108, 115; use of, 48.
- Pennsylvania, number of telephones, total, 18, 27; on independent farmer or rural lines, 27; miles of wire, 34; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Pennsylvania Railroad, use of concrete poles by, 102.
- "Phantom" circuit, origin of name, 101.
- Philadelphia, Pa., use of loaded cable connections, 97.
- Plant, outside, improvement in, 84.
- Poles, number and cost, by kind of wood, for commercial and mutual systems combined, 39; per cent distribution, 40.
— concrete, limited use of, 102.
- Police and fire-alarm telephone service, development of, 97.
- Population, per telephone, 19; total, by states and territories, 51, 53; for selected cities, 55.
- Porto Rico, telephone systems in, 28. *See also* States and territories.
- Preferred stock. *See* Common and preferred stock.
- Prepayment or coin-box service, benefits of, 81, 96.
- Primary-battery cells. *See* Cells.
- Private-branch exchanges. *See* Exchanges.
- Public exchanges. *See* Exchanges.
- Pupin, Dr. M. I., work of, in connection with loaded cables, 97.
- Push-button private-branch exchanges. *See* Exchanges.
- Railway telephony, extensive use of, 99.
- Rentals. *See* Operating expenses.
- Repeater, invention of, 96.
- Rhode Island. *See* States and territories.
- Rural districts, miles of wire in, 36; number of telephones, 40.
- Rural lines, number, 24; miles of wire, 24, 37; telephones, 24, 41; per cent of total number of telephones on, 46; income from operations and assessments, 67; development of, 75.
- Ryder, W. W., experiments in use of telephone for train dispatching under direction of, 99.
- St. Louis, Mo., population, 55; number of telephones, 55; per 1,000 population, 55; capacity of switchboards, 88.
- Salaried employees, number and salaries, for all telephone systems, 15, 16; for telegraph systems, 15; for Bell and independent (non-Bell) systems, 21; for commercial and mutual systems combined, 25, 71; for commercial systems, 26, 55, 73, 111; for mutual systems, 26, 73, 114.
- Schools, operators', methods of instruction in, 102.
- Service, information, scope of, 82; cause of irregularity in, 82.
- Signaling, harmonic, principles of, 89; party-line special, 96.
- Signals, tone and flash, description of, 95.
- Single lines, per cent of total number of telephones on, 46.
- South Bend, Ind., first common-battery automatic switchboard operated in, 91.
- South Carolina. *See* States and territories.
- South Dakota, physical equipment for mutual systems, 47; messages per telephone per day, 50. *See also* States and territories.
- States and territories, number of telephones, total, 16, 20, 22, 41; per 1,000 population, 53; for commercial systems, 49, 108; for commercial and mutual systems combined, 51; for mutual systems, 115; for independent farmer or rural lines, 116; exchanges, for commercial and mutual systems combined, 29; grouped according to major per cent of Bell or independent (non-Bell) public exchanges, 31; miles of wire, 35, 37; physical equipment, for commercial systems, 44; for mutual systems, 47; messages, 49, 51; population, 51; rank, according to telephones per 1,000 population, 52; according to messages per capita, 53; cost of construction and equipment, 62; detailed summary, for commercial systems, 106; for mutual systems, 114; for independent farmer or rural lines, 116.
- "Station," use of term, 40.
- Statistics, period covered by, and limitations of, 12.
- Storage-battery cells. *See* Cells.
- Street-railway telephony, description of, 100.
- Sunny, B. E., data computed by, 81.
- Superintendents, managers, etc., number and salaries, 111, 114.
- Surplus, for commercial and mutual systems combined, 65, 69.
- Switchboards, number, 21; for Bell and independent (non-Bell) systems, 21; for commercial and mutual systems combined, 25; for commercial systems, 26, 44; for mutual systems, 26, 47; average equipped capacity per switchboard in drops or jacks, 46.
— automatic, number, 32; description of, 92.
— central-office, characteristics of, 88.
— common-battery, number, 32; services rendered by, 94.
— incoming-trunk, number, 109.
— magneto, number, 32.
— manual, number, 32.
— separate-toll, number, 109.
— subscribers', kind, 32; number, 32, 109, 115; capacity, 32; no multiple and partial multiple in, 96.
- "System," use of term, 13.
- Systems and lines, classes of, 11; total number, 14, 16, 21, 24, 53; commercial and mutual combined, 14, 25, 32, 33; telegraph, 15; Bell and independent (non-Bell), 21, 56; rural, in leading states, 25; commercial, 26, 44, 56, 106; mutual, 26, 47, 114; under construction in 1907, 27; in Alaska, Hawaii, and Porto Rico, 28.
— automatic, improvements in, 90.
- "Talk," use of term, 48.
- Talks. *See* Messages or talks.
- Taxes, for commercial systems, 65, 66, 113; for mutual systems, 65, 66.
- Telegraph systems, comparison with telephone systems, 15.
- "Telephone," use of term, 40.
- Telephones, number, for all systems and lines, 14, 16, 21, 22, 24, 40, 41, 53; for commercial and mutual systems combined, 14, 25, 33, 49, 51, 68; in states having over 200,000 telephones, 18; for Bell and independent (non-Bell) systems, 21; for commercial systems, 26, 44, 55, 56, 108; for mutual systems, 26, 47, 115; for independent farmer or rural lines, 27, 116; under construction in 1907, 27; by class of service, kind of system, and kind of station, 40; per switchboard, 44, 47; per 1,000 population, 51-53; per employee, 72; industrial and technical development of, 74; per cent distribution, 18; per cent increase, 18, 24, 43; per cent of total number on single, party, and rural lines, 46.
- Tennessee. *See* States and territories.
- Testing service, development and standardization of, 98.
- Texas, number of telephones, total, 27; on independent farmer or rural lines, 27; physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
- Toll business, concentrated, rapid handling of, 99.
- Traffic, relation to population, 51; to income and expense, 67; urban and rural, 54; of Bell and independent (non-Bell) commercial systems, 55, 56.
- Tyler, Morris F., rural service inaugurated by, 76.
- Underground construction. *See* Construction.
- Urban districts, miles of wire in, 36; number of telephones, 40.
- Utah. *See* States and territories.
- Vermont. *See* States and territories.
- Vermont and Maine (combined), physical equipment for mutual systems, 47; messages per telephone per day, 50.
- Virginia, physical equipment for mutual systems, 47; messages per telephone per day, 50. *See also* States and territories.
- Wage-earners, number and wages, for all telephone systems, 15, 16; for telegraph systems, 15; for Bell and independent (non-Bell) systems, 21; for commercial and mutual systems combined, 25; for commercial systems, 26, 55, 71, 73, 111; for mutual systems, 26, 71, 73, 114.
- Washington, physical equipment for mutual systems, 47; messages per telephone per day, 50; new construction and equipment in excess of \$1,000,000, 63. *See also* States and territories.
