

A TABLE

OF REFERENCES TO SOME OF THE SUBJECTS AND MATTERS, IN THIS VOLUME.

	PARTS I. & II.	Tables for states	Tables for counties
A			
Agents for manufactures,	31, 43, 49		
Agriculture aided by manufactures in newest settlements, and in states abounding in land,	5, 59 6, 7, 8		
superior importance of,	54, 59		
requires the neighbourhood of manufactures,	58, 59, 48		
Arts, fine, and sciences: auxiliary to manufactures,	32, 36, 49, 53		
Ashes, pearl and pot,		41	
American manufacturers, the sole purchasers of our raw materials, except cotton, and of much of it, }	9		
A new career in national industry produced by machinery, &c.	24		
Adulterations. Preventions of,	43		
B			
Basis of American manufactures,	59		
Banks aided by manufactures,	20 21		
Bells,		16	
Blacksmiths,	22	12	
Book binding,		32	
Boats and vessels,		23	
Boots shoes, &c.		22	
Branches of manufactures, so far as reported,		37	
Bloomeries and boring mills,		10, 11	
Breweries,		22	
Brass and buttons,	43	15, 16	
Bricks, tiles and brick clay,		42	
British manufactures and exports in ordinary times,	52		
Bottles, patent casks and sedatives,	40, 41		
British commerce more prosperous than any other by means of her manufactured exports, and the importation of raw materials, }	26		
manufactures,	52		
Books instructing in manufactures saving labor,	28, 34, 42, 44		
Blockade,	58		
C			
Cannon and muskets,	47		
Carolina, north and south, 8, marshes and swamps, of	13	36, 38	129, 144
Candles,		17, 18, 38	
Case liquors, error for cane,		37	
Cabinet wares,		23	
Carbonic, printed, by error, canbomic fuel,	32		
Cards of wire,	32	6	
playing,		27	
Carding mills and machines,	14	7	
Carpets, wool the best material for: cotton, hair and silk used,	31		
Carriages, for pleasure and work,		24	
Casks, patented, for fermented draught liquors,	24, 41		
Capital, accumulation of, &c.	10, 22		
in raw materials, such as hemp, cotton, &c.	16		
in land stock,	13		
Capitalists	82		
Caviar: from acipensis (for accipensis by error,) sturgeon,	17		

	PARTS I. & II.	Tables for states	Tables for counties.
Clays for bricks and pottery,	43		
Castings of metals, 9, 10, 15, 16, 17, 35,	47		
Cider, worth more than some wines,	18, 40, 41		
Climates of Europe and N. America, corresponding degrees of,	11, 12, 18		
Chemistry aids cultivators and manufactures. Preparations,	36, 42, 49		
Columbia district,		36, 38	168
Commerce, aids to,	52		
Connecticut much advanced in the cotton business,	11, 57, 58	36, 38	28
Cloths of all materials, unnamed,		1, 2, 3, 4	
Commotions,	52, 53		
Coal fuel, 32; should be free of duty on importation,	55		
ground at Wilkesbarre, and used as a pigment,	50		
Cork-tree,	41		
Cotton: first cultivation as a staple, 9, 23, facts concerning it,	28		
spinning and other manufactures,	9		
manufactures,	54	2 to 7	
machinery, 10, 23, 24,	25		
manufacture universal,	11		
gin of <i>Whitney</i> , has set loose the powers of agriculture, } which was before enchained, (for <i>declined</i> , error) }	9		
Commerce aided by manufactures,	19		
Contact, (not contract, error)	39		
Copper,		15, 16	
Cordage and cables,		2, 37	
Copy right of this work does not include parts III. IV: the tables.	2		
Cork-tree can be raised in the United States,	17		
Cultivators in the United States unable to raise all the raw } materials wanted, }	9, 39		
Congress 51, influenced by high and beneficial considera- } tions in their resolution, }	53, 54, 59		
Currant or Corinth wine can be made in all our states,	17, 18, &c.	2	
Coin and bullion, export of, prevented by manufactures,	21		
D			
Delaware state,		36, 38	76
Defence promoted greatly by manufactures,	19, 22		
Distillery and stills,	42	16, 22	
Doubtful articles, and agricultural,	39, 46		
Dryness of air and ground, favorable to finest wool,	13		
Drugs, dyestuffs and paints. Dying, 14, 17, 29, 30, 43	29, 30, 37		
Duties, though laid for revenue, greatly aid manufactures,	19, 30		
not necessary to encourage interior manufactures,	51, 59		
Declined, error, for enchained: line 2,	10		
Difference in manufactures for war, in 1775 and 1812 or 1814, } in the United States very great, }	23		
Divisions of labor. Hemp and sugar,	33, 38		
Deerskins, tanned: russet and black,	35		
Difference in wines, cause suggested,	39		
Distribution of manufactures: Atlantic, midland and eastern,	63		
E			
Earthenware,	43	28, 37	
Essences		37	
Economy, general of United States respecting manufactures,	1 to 25		
technical, or of the various trades,	27 to 53		
Estimate of manufactures, in 1810 and 1813,	51, 53	38	
Expences of government for commerce and manufactures,	52		

	{ PARTS I & II.	Tables for states	Tables for counties.
East Indians not allowed to use machinery by England,	28		
Eastern states some of their peculiar interests suggested,	57, 58		
F			
Females now much employed in manufactures,	14, 50, 57		
Flax, 15, 34, constantly imported because farmers cannot supply whole demand 34, goods,	}	2, 3, 37	
Flour, little of it returned, mills,	.	10, 39	
Forges and furnaces cannot supply iron enough for the demand,	30	7, 9, 10	
Fisheries much aided by manufactures,	21, 59		
Fly shuttle, a most valuable and cheap improve- ment in the important art of weaving,	} 10, 14, 28, 29, 34, 56		
Foreign manufacturers, free, numerous and successful here,	50		
Foreign orders in council, decrees and blockades give a great spring to the manufactures of the United States,	} 9, 25, 34, 54		
Freedom of all trades and places open to foreigners and others,	29, 34		
Franklin Doctor 49, an ornament to the manufacturing character of the United States,	} 52		
French wines and brandies,	18, 40, 56		
wool,	18, 40, 56		
salt,	22, 46		
oils and soap,	56		
wine and fruits,	40, 56		
exposition of the arts and trades,	34		
sheep and machinery,	60		
Fruit, fruit liquors,	17, 18		
Fulling mills. Fulling increased,	14	7	
improvements in them highly important,	30		
Fulling cannot be performed on any but animal substances,	30		
Fuel, forage. provisions, raw materials and building materials abundant and cheap in interior situations,	} 33		
economy of	57, 58		
G			
Galileo,	50		
Gallatin, Mr. communication to,	3 to 53		
Georgia,	.	35, 38	148
Gin, Whitney's for cotton, released agriculture from the restraint of inability to free from seed the crops of cotton it could raise,	} 9		
Glass ware and manufactories,	44	28	
Grain and manufactures of grain,	18, 19	21, 22	
Girls bound to service should be taught to weave,	.	23, 37	
Gunmaking,	11, 12		
Gunpowder and mills,	33		
Grecian and Italian marbles excited statuaries and architects,	8		
Greene, general Nathaniel an ornament to the manufacturing character of the United States,	} 52		
Gold, silver and mixed metals; rollers used; plating; any foreign demand can be supplied,	} 34	14, 15, 16, 37	
Goods requiring much cotton cannot be imported with profit,	29, 55		
Graphic inventions save much labor,	25		
H			
Hair manufactures capable of great improvement,	- -	31	
Hats. Hatteries, peculiarly fit for United States,	- -	14, 9	
Hemp, 16, 33, 34, production increased,	.		
Hempen goods,	- -	8, 37	

	PARTS I. & II.	Tables for states.	Tables for counties.
Heavy and coarse fleeced sheep for blankets, kerseys, hosiery, &c.	13		
Hides and skins and leather manufactures,	35, 37		
Horned cattle and horses,	46		
Horn manufactures of,	33		
Household or family manufactures,	28, 29 30		
Hulling mills, (for fulling mills, an error,)	39		
Humphreysville,	52		
Hospitals for age, infirmity &c. convenient for manufactures,	14. 44		
Human hands superceded in manufacture of cottons, woollens, iron &c. by machinery,	} 24		
Hogskins tanned	35		
Hose manufacture,	57		
I			
Icehouses, to save salt,	47		
Illinois territory,	-	36, 38	164
Imports of manufactures for a year for 4,000,000 persons, in 1790,	} 15, 27, 62		
for 7,229,000 persons in 1810,	27		
of raw materials very profitable to merchants,	16, 20		
Indiana territory,	-	37, 38	162
Investigations of arts and trades and publications suggested,	34		
Indian trade,	39		
Indigo,	17		
Inspection of manufactures indispensable,	23, 47		
Inventive talents elicited,	50		
Instruments of manufactures,	23, 24, 25, 28, 31, 49, 50	6, 7, 8	
of music,	48	34	
Iron manufactures 14. Iron branch,	31, 32	9, 37	
furnaces, forges, bloomeries,	-	7, 9, 10	
dye or liquor cheap, handsome and durable,	-	29	
duty on deeply injurious to farmers, shipowners, builders and manufacturers,	} 32, 55		
mills to roll or work, forbid by British parliament in 1750 to 1776,	32		
manufacturers of, only want a sufficient supply of pigs and bars,	32		
Isinglass, from <i>acipensis</i> or sturgeon,	-		
J			
Jersey, New	-	36, 38	39
Joint stock, to carry on manufactures considerable and frequent in New-York,	} 53		
K			
Kentucky manufactures of,	8	36, 38	121
Knitting needles much less saving of labor than stocking looms,	28		
L			
Labor-saving machinery, and great advantages of,	} 21, 23, 24, 25, 35, 49, 54, 59, 60	6 to 9	
processes, as tanning, making metallic colours, distilling, &c.	} 49, 54	17, 20, 22	
devices, as leaden shot making, nailed shoemaking,	49, 54	17	
Land for cotton, 10, for wool,	13, 55		
Landed interest,	5, 13, 17, 54		
Landed capital for woollen manufacture,	13, 31, 55		
Legislators, manufacturers among the constitutents of all,	52		
Lead and manufactures thereof,	17, 42	16, 17	52
Leather and goods thereof,	14, 15, 35	19, 20, 21	

	PARTS I. & II.	Tables for states.	Tables for counties.
Liberty, religious and civil, favor manufactures,	49		
Liquors fermented, &c	39, 40	22, 37	
Looms for cotton and other cloths and stuffs,	8	6	
for hose and hose cloth,	14	6	
improved greatly in Europe,	14		
Louisiana, late territory of, in 1810,		36, 38	169
M			
Machines equivalent to a manifold multiplication of our population,	25, 50, 59		
Maine, district of,	8	36, 38	2
Manufactures of states, territories and union,		36, 38	
branches of,		37	
doubtful or agricultural,		39	
by counties,			1 to 160
value of,	51, 53	36, 38	
have excited planters to an enriching cultivation of cotton, hemp, flax, wool, &c.	24		
near farmers highly beneficial,	6, 7, 8, 58		
promote learning by use of arts and sciences,	48		
favor the union of the states,	16		
increasing every where,	4, 52, 53, 59		
immense advantage of machine,	2, 5, 60, 61		
as reported are much less than as they have arisen unforced,	3	36, 38	
even by hand succeed,	16, 36		
Manufacturers. Their characteristics, influences and Marble, Italian and Grecian, effects of, 27, of the United States,	52	37	
Marshals and territorial secretaries reports digested by published by authority of the President, Senate and Representatives,		1 to 40	1 to 100
Marshes fit for heavy fleeced sheep when drained,	13		
Maryland,		36, 38	79
Masonry, read (for masonry error)	43		
Massachusetts, much advanced in the cotton manufacture,	11, 57, 58	36, 38	4
Merchants and manufacturers should befriend each other,	21		
Michigan,		36, 38	166
Mississippi territory,		36, 38	79
Maple-sugar and tree, also cane sugar,	36, 41		
Mixtures of cotton, useful until increase of wool,	55		
Means of manufacture occasion demand for materials,	23		
Meat frozen to save salt,	47		
cured with maple and coarse sugar and molasses,	47		
Morbid character of manufacturers prevented,	24		
Materials, raw, none exported but cotton,	9		
Merino wool, climate and region of,	12		
Miners unable to supply the whole demand of manufacturers,	9, 31, 43		
Muskets,	47, 36, 38		
N			
Naval and military architecture,	48		
New Hampshire,		36, 38	13
New-Jersey,		36, 38	39
New-York,		36, 38	32
Navigation and trade aided by manufactures,	19		
Nails,	31	11	
Newest settlements of lands promoted by manufactures,	5		

	PARTS I. & II.	Tables for states.	Tables for counties.
Object of this entire work or publication,	60		
Ohio manufactures of, as an example,	6	36, 38	115
Orders in council decrees, &c. excite to manufactures,	9, 25		
Orleans, late territory of, in 1810,	-	36, 38	154
Oils from fish and seeds,	17, 22	20, 37	
olive, its regions,	-		
empyreumatic, extracted from spirits,	17, 18, 55, 56		
quantity and value of oil and soap in France,	-		
Ohio, for <i>accounts</i> of, read counties of, line 20,	7		
P			
Painting,	49		
Paints or pigments, lead, ochre, &c.	42	17, 30, 37, 42	
Paper, pasteboards, &c.	26, 27, 37		
Patents of Europe free in America,	50		
Perry, cider, peach liquor,	18, 41		
Plate, plated wares,	-	36, 38	45
Pennsylvania,	6, 63	36, 38	44, 45
Pitch, tar and turpentine,	41		
Planetarium and electric conductors,	50		
Pike,	23		
Potable manufactures, great value of,	46		
Potatoc spirit,	42		
Post-office,	50		
Pottery,	43	28	
Potters, read (for dotters, error)	44		
Population of United States in 1810,	25		
Presence of raw materials excites manufactures,	6, 7, 8		
Printing of muslins, linens, &c.	-	33	
offices,	-	25, 34	
Publications of tables official, being authorised by congress,	2		
of parts I. and II. voluntary: rest official,	2		
Public supplies facilitated or insured by manufactures,	2, 6, 23, 33		
Promotion of manufactures. Safe, cheap, benevolent and infallible method,	34, 56		
R			
Raw materials; all which we can produce manufactured except part of our cotton,	9, 10		
imported to a great amount,	9, 20, 21		
Reduction of prices by machinery, in England, to prevent our ma- chine manufacturing, and from our revolution in cotton production,	17		
Rittenhouse, Dr. 49, an ornament to the manufacturing character of the United States,	52		
Rhode Island, took the lead in machinery,	11, 13, 58	36, 38	28
Rollers for printing, dyeing and staining linen and cotton cloths; their wonderful execution,	1		
for silver and brass work,	35		
Religious liberty favors the free use of manufacturing and general talents,	49		
Returns, similar to the tables in this work, respectfully suggested to the legislatives of the states and of the union,	53		
Revolution in iron branch by machinery and castings,	52		
Region of sugar maple tree,	37		
S			
Saddlery,	-	20, 21	

	PARTS I. & II.	Tables for states.	Tables for counties.
Salt-petre, of the United States. A part of the	42		
Salt and works,	22, 46	34	
Saw mills, boards, &c. part of,		40	
Saving labor by machinery, processes and devices,	23, 24, 25		
Seaports will manufacture if deprived of commerce,	54		
Sculpture,		23	
Ships, vessels and boats,	19, 48, 49		
Shoes, boots and slippers,	22		
Seeds, manufactures of,	37		
Sheep, merino, Tunisian, common, and heavy } fleeced, for kerseys, blankets, &c. } proper climates, 11, 12. North America no where too hot } for finest wool, }	12, 13, 29, 30, 31, 55		
Spanish wool and cloths,	12, 31		
Southern and productive countries earliest in manufactures	9		
Supplement, added after communication to Mr. Gallatin, in 1814,	54		
Shuttle; the flying, or fly: most useful and valuable to save labor,	28, 29		
Sciences, relation of to manufactures,	32, 36		
Spindles, mules, billies, jennies, &c.		7, 8	
Spinning wheels,	15, 25	6	
Silk, manufactures, region,	45	6	
Stockings and looms,	57, 14, 28	56	
Spirits from grain, fruit, potatoes and molasses, and stills, high proof for transportation,	42	16, 22	
Starch,		23	
Sugar of cane and manufactures, 11, 38, produced in Georgia,	38	37	
can be cultivated without blacks,			
of maple tree can be refined in loaf,	9, 36, 37, 38	41	
tree should be preserved and propagated,	37		
Mr. Clouds grain treacle and substitute for,	19		
from evaporated peach juice,	41		
Symmetry, symetry, by error, for,	48		
T			
Talbot county, cotton raised these seventy years, since,	23		
Tennessee East,	8	36, 33	137
West,	8		140
Talents for manufactures ought to be duly used,	50		
Tar, pitch, &c. little of them reported,			
Turpentine and spirits		26 41	
Tables of manufactures by states, &c. third part, of do. by counties fourth part,		1 to 146	1 to 169
Tin,		13	
Tobacco,	17	44	
Tow cloth,		3	
Trade or commerce; manufactures are the internal part or branch of,	21		
Trading men will not become farmers; they will rather manufacture } if trade continue to be injured by foreign acts and laws }	55		
Trade and manufactures considered together,	51		
Turners, clockmakers, various smiths and other workmen, advised } to make for sale labor-saving machinery, fly shuttles, &c. }	56		
Toll in kind, (not hind, error)	38		
Transport charges consume the value of our produce,	58		
V			
Vermont,	8	36, 38	15, 32
Virginia,	8	36, 38	33

	PARTS I. & II	Tables for states.	Tables for counties.
Vines,	18, 39		
Vicuna wool and cloths,	12, 3	36, 38	88
Ubiquity of manufactures,	51		
United States, redundant in cotton, peculiarly fitted for sheep,	9 12		
W			
Warlike goods can only be got by manufactures,	22		
Water spinners,	10		
Whitney, Mr. Eli inventor of cotton gin,	9		
Wines, of grape in the United States, 18, 39, mode of keeping,	39	22	
of currant or Corinth fruit,	17	22	
consumed in the United States,	18		
of Europe, with Africa,	40		
their regions in Europe and America,	18		
heat of climate not necessary for best,	18, 39, 40		
salt of,	18		
brandy, a sedative for,	} 39, 40		
their preservation without bottles,			
Wire, manufacture promptly obtained when Britain stopt exportation,	32		
Women weavers can be rendered highly useful,	10, 24, 25, 29		
Wood, manufactures of,	16, 17	37	
Wool, of United States, France, England, &c. 11, 12, 13, 14, 29, 30, 55			
Woollen manufactures, 9, 11, not full'd,	30		
Wolves and other wild animals not so obstructive of sheep farming as supposed,	} 55		
Workmen interrupted by frost may learn to manufacture in winter,	56		
Wool and sheep treated in England in a manner worthy of our closest consideration,	} 29		
Working up raw materials, and consuming fuel, provisions and building materials at the places of production, highly profitable,	} 6, 7, 33		
Y			
Yarn, and cotton wool spun 10, separately reported,			5

ERRORS OF THE PRESS.

PAGE.	PAGE.
vii. line 20, for amounts, read <i>counties</i> ,	xl.iii. line 28, for masonary, read masonry,
x. line 2. for declined, read <i>enchained</i> ,	xliv. line 10, for dotters, read potters,
