## INDEX TO THE ABSTRACT TABLES

...
LETTER OF TRANSMITTAL.

DEPARTMENT OF COMMERCE AND LABOR,
Bureau of the Census,
Washington, D. C., December 21, 1912.

Sir:

I have the honor to transmit herewith the Abstract of the Thirteenth Decennial Census, with supplement for the state of New Hampshire. The volume is divided into two sections, the first relating to the United States as a whole, to the different states, and to the principal cities; and the second relating to the state of New Hampshire, its counties, cities, and other civil divisions. In condensed form the first section contains the principal statistics gathered at the decennial enumeration of 1910 on the subjects of population (except occupation statistics), agriculture, manufactures, and mining. In the second section of the volume the same subjects are treated with greater detail for the state of New Hampshire, and the material here presented embraces all of the census results to be published concerning that state, its counties, cities, and other civil divisions, except as to occupations.

Other editions of the Abstract are being issued with supplements relating to the other states and to the District of Columbia, Alaska, Hawaii, and Porto Rico, respectively. The various editions are identical, so far as the first section is concerned.

Respectfully,

[Signature]

Hon. Charles Nagel,
Secretary of Commerce and Labor.

Director of the Census.
