LETTER OF TRANSMITTAL

---

DEPARTMENT OF COMMERCE,  
Bureau of the Census,  
Washington, D. C., June 22, 1943

SIR:

I transmit herewith Volume II of the report of the Census of Mineral Industries for 1939, taken in 1940 as part of the Sixteenth Decennial Census. Provision for this census was made in the Act providing for the fifteenth and subsequent decennial censuses approved June 18, 1929.

The mineral industries report for 1939 is in two volumes. Volume I presents summary statistics for the mineral industries and detailed statistics by industry. Volume II presents statistics by State and by county. Completion of this volume was delayed by the pressure of war work undertaken by members of the staff.

The statistics presented were collected and compiled, and the present volume was prepared, under the supervision of Dr. Oscar E. Kiessling, Chief Statistician for Mineral Industries, and Nicholas Yaworski, Assistant Chief Statistician, with the assistance of Dr. Vivian E. Spencer, Senior Statistician.

Acknowledgment is made of the cooperation of the officials and other employees of the Bituminous Coal Division and of the Bureau of Mines in the Department of Interior.

Respectfully,

J. C. CAPT  
*Director of the Census*

Hon. JESSE H. JONES  
*Secretary of Commerce*
