TREASURY DEPARTMENT,  
BUREAU OF STATISTICS,

*Washington, D. C., December 2, 1895.*

SIR: I have the honor to submit to you for transmission to Congress the eighteenth issue of the Statistical Abstract of the United States. While retaining the essential features of the earlier issues, I have extended its scope in many important details, as resulting in a more complete compilation and a better arrangement of subjects treated. The field to be covered is so wide and the material available so imperfect that a single publication of this kind can cover only a small part of what would naturally find place in a full statistical abstract. With an increasing public interest in statistical reports new subjects of investigation will be undertaken and an effort made to make this annual issue an epitome of what is generally useful in finance, commerce, and industry. I would respectfully renew my recommendation that a small charge be made for this volume, merely covering the cost of printing. The demand for it made upon Congress and this Bureau has become so large that the edition provided is quite insufficient. It is impossible, under a free distribution, to make a just discrimination among applicants for copies, and a small charge would insure the placing of the edition in the hands of those who have an actual need for it. Such a system could work no injury to anyone, and it would relieve the Bureau of the delicate task of passing upon the claims of individuals to receive the book.

Respectfully, yours,

WORTHINGTON C. FORD,

*Chief of Bureau.*

HON. J. G. CARLISLE,  
*Secretary of the Treasury.*
