Section I below provides general instructions, definitions, and item specific instructions for reporting in this survey. Section II on page 7 contains the INDUSTRY CATEGORY CODES LIST for the appropriate industry codes used in this survey.

BURDEN HOUR ESTIMATE
We estimate this survey will take an average of 2.79 hours to complete, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. PURPOSE OF THE SURVEY
The purpose of this survey is to collect relevant and timely information about the nature and level of capital expenditures in the United States. The level of capital expenditures is an important component in the overall assessment of our Nation’s productivity. The information you provide will be used to prepare national measures of capital spending and to formulate fiscal and monetary policy.

SECTION I
PART A – GENERAL INSTRUCTIONS
Survey Scope – This survey collects capital expenditures data for nonfarm companies, organizations, and associations operating within the United States. Information for agricultural production operations should be excluded. However, companies performing agricultural services are included. Information for churches, nonprofit organizations, and organizations that are government owned but privately operated should be included.

Reporting Entity – Report capital expenditures for all domestic operations of your enterprise, including subsidiaries and divisions. For this report, the terms enterprise and company are used interchangeably. An enterprise is a business, service, or membership organization consisting of one or more establishments under common ownership or control. It includes all establishments of subsidiary companies, where there is more than 50 percent ownership, as well as establishments of firms which the enterprise has the power to direct or cause the direction of management and policies. If another domestic company owns more than 50 percent of the voting stock of your company or has the power to direct or cause the direction of management and policies, then please note this in the "Remarks" section. Holding companies should report for the entire corporation, including all subsidiaries under their ownership. If you are unable to consolidate records for the entire company or have any reporting questions, please call 1-800-528-3049. This survey will be completed by companies having activity in one or more industries; therefore, not all items will apply to all companies. For purposes of this survey, exclude data for Puerto Rico, the Virgin Islands, and U.S. Territories.

Survey Period – Report data for the calendar year 2021. If calendar year book figures are not available except at considerable cost, reasonable estimates are acceptable. If you cannot provide reasonable estimates on a calendar basis, fiscal year data will be accepted. In the REPORTING PERIOD item, indicate the exact dates the data represent if they are not for the calendar year.

Estimates Are Acceptable – The data requested on this survey may not correspond to your company’s accounting records. If you cannot answer a question from your company records, please provide carefully prepared estimates. If your company did not have any capital expenditures for the 2021 reporting period, enter a '0' where applicable.

Mergers/Acquisitions and Discontinued Operations – Such events occurring during the period covered by this report that require special attention.

(a) If your enterprise merged with or acquired another domestic enterprise during the period, include the domestic capital expenditures made by the merged or acquired enterprise since the date of acquisition; the cost to your enterprise for structures and equipment previously owned by the acquired enterprise at the time of the merger or acquisition should be reported as expenditures, only if treated as capital expenditures by your enterprise. Please furnish the date of the acquisition or merger and the name of the acquired enterprise in the "Remarks" section.

(b) If your enterprise was acquired by another enterprise during the period covered by this report, please furnish the acquisition date and the name and address of the acquiring enterprise in the "Ownership Information" section, and complete the survey for the period of time the enterprise was in operation prior to the acquisition.
(c) Discontinued operations should be treated in the same manner as continued operations. If during the survey year, your enterprise had discontinued operations that were held for sale, report data for the discontinued operations for the period of time the reporting enterprise owned them.

Electronic Reporting – Complete this survey online by going to the following address:

portal.census.gov

Should you have any questions regarding electronic reporting, please call 1-800-528-3049 from 8:00 a.m. to 4:45 p.m. Eastern time, Monday through Friday, excluding holidays.

Add your authentication code located in the letter we mailed to your company. Report by clicking on "REPORT NOW."

Filing Extensions – If you cannot complete the survey by the due date shown on your letter, you may request an extension of time by visiting portal.census.gov and selecting "Options."

Legal Authority and Confidentiality of Data – YOUR RESPONSE IS REQUIRED BY LAW. Title 13 United States Code (U.S.C.), Sections 131 and 182 authorize this collection. Sections 224 and 225 require your response. The U.S. Census Bureau is required by Section 9 of the same law to keep your information CONFIDENTIAL and can use your responses only to produce statistics. The Census Bureau is not permitted to publicly release your responses in a way that could identify your business, organization, or institution. Per the Federal Cybersecurity Enhancement Act of 2015, your data are protected from cybersecurity risks through screening of the systems that transmit your data.

Direct any QUESTIONS regarding this survey to 1-800-528-3049 between 8:00 a.m. to 4:45 p.m. Eastern time, Monday through Friday, excluding holidays.

PART B – DEFINITIONS

1. CAPITAL EXPENDITURES:

Capital expenditures include all expenditures during the year for both new and used structures and equipment chargeable to asset accounts for which depreciation or amortization accounts are ordinarily maintained.

INCLUDE:

• capital expenditures for discontinued operations being held for sale during the year.
• capitalized cost of assets produced or purchased, then leased as the lessor under operating leases;
• capitalized computer software (include payroll for internally developed software);
• all capital costs such as feasibility studies, architectural, legal, installation, and engineering fees, as well as work done by the company’s work force;
• gross additions during the year to construction-in-progress accounts for projects lasting longer than one year (allocate the additions between structures and equipment in Item 2), even if the asset was not in use and not yet depreciated;
• all capitalized leasehold improvements made to assets leased from others. In Item 2, allocate leasehold improvements between structures and equipment based on what is being improved;
• estimated cost or present value of assets acquired under capital leases entered into during the survey year (reported by the lessee). Capital leases presume a sale and purchase of an asset, and are defined by the criteria in the Statement of Financial Accounting Standards.
• capitalized interest charges on loans financing capital projects if consistent with the Statement of Financial Accounting Standards (FAS) Number 34;
• values of assets expended as permitted under section 179 of the U.S. Internal Revenue code;
• expenditures for structures and equipment (whether acquired on contract or directly by your enterprise), including items purchased abroad, for installation or use within the United States;
• expenditures for major alterations, capitalized repairs, and improvements;
• expenditures for structures or equipment that are, or will be, leased or rented to others;
• expenditures made by your firm for structures which, upon completion, were or are to be sold and leased back to your company;
• expenditures for both developmental and exploratory drilling activities including intangible drilling costs;
• expenditures for land development and improvement, including demolition of buildings, land servicing, and site preparation;
• cost of construction work performed by your own employees (force-account construction work);
• expenditures that are made jointly for both business and personal use, include only that portion allocated to business use.

EXCLUDE:

• land acquisition
• the cost of maintenance, repairs, and supplies charged as current operating expenses;
• capital expenditures for structures and equipment by foreign operations;
• reductions for retirements, write-downs, sales, subsidies, or other dispositions of existing assets;
• the value of structures built and other work performed by your enterprise on contract to others;
• expenditures for goodwill, patents, or copyrights;
• expenditures for geological and geophysical work by oil companies and similar off-site mining or general exploration which are not capitalized;
• payments to others for structures and equipment acquired under operating leases or rented;
• expenditures made by your firm or organization (as lessor) for property which is leased to others as part of capital (full-payout or equity) lease arrangements;
• expenditures made by owners of property rented or leased to your firm under operating leases.
2. STRUCTURES:
Structures include the capitalized cost of buildings and structures, and all necessary expenditures to acquire, construct, and prepare the structure for its intended use.

Major additions and alterations to existing structures and capitalized repairs and improvements to buildings should also be included.

The cost of any machinery and equipment which is an integral or built-in feature of the structure should be reported as part of that structure (e.g. assembly line superstructure in an automotive assembly plant).

Include expenditures for land development and improvements, including demolition of buildings, land servicing, and site preparation should be included.

INCLUDE:
- mechanical and electrical installations such as plumbing, electrical work, elevators, escalators, power plants, heating and cooling systems, sprinkler systems, environmental controls, intercom systems, and other similar building services;

- drilling gas wells, including construction of offshore drilling platforms; drilling and shoring mines, including constructing buildings at mine sites, and expenditures for constructing mine shafts and mining exploration;
- land improvements; exploration and development of mineral properties.

EXCLUDE:
- land acquisition;
- normal maintenance and repairs to existing structures or service facilities such as painting, roofing repairs, and street and highway patching.

3. EQUIPMENT:
Include machinery, furniture and fixtures, computer software, IT equipment, computers, website development, and motor vehicles used in the production and distribution of goods and services or in office functions.

Expenditures for machinery and equipment which are housed in structures and can be removed or replaced without significantly altering the structure are considered equipment, not expenditures for structures.
