

A Note on the 2003 ACS Public Use Microdata Sample (PUMS) Files

In April 2020 the 2003 PUMS files were restored to our File Transfer Protocol (FTP) site from a legacy server backup. The date on these files matched the original re-release date for the previous 2003 PUMS files. While the Census Bureau has worked to verify these files, there is no way to guarantee that these were the original production files. Data users should use appropriate caution when using these files.
