## WHAT IS THE AHS?

The AHS is the most comprehensive housing survey in the United States. The same units have been interviewed since 1985, with new construction, demolitions, and conversions taken into account.

People in nearly every field use information from the AHS to evaluate and study the physical and financial characteristics of the nation's housing stock. In addition to the indicators presented in Tables 1 and 2, the AHS provides data on multi-family and single-family homes, manufactured/mobile homes, equipment and appliances, characteristics of the occupants, and more.
