USER NOTE
CONSOLIDATED FEDERAL FUNDS REPORT
for Fiscal Year 1995

(Revised January 2004)

Department of Housing and Urban Development's program, "Lower Income Housing Assistance Program -- Section 8 Moderate Rehabilitation" (CFDA program 14.856) has been reclassified from CFFR's "Other Direct Payments" (DO) assistance type to the "Grants" (GG) assistance type. This change affects Tables 1, 3, 4, 10 ,11, 13, and 15, and involves a significant shift of $18.4 billion (nationally) from "Other Direct Payments" to "Grants."

The change is NOT represented in this PDF version of the publication, but is available via the Online Query System and downloads at http://www.census.gov/govs/www/cffr.html.

CFFR Object Code Category

DR Direct Payments for Individuals (Retirement and Disability only)

DO Direct Payments for Individuals (Other than Retirement and Disability)

DX Direct Payments Other than for Individuals

GG Grants (Block, Grants, Formula Grants, Project Grants and Cooperative Agreements)

PC Procurement Contracts

SW Salaries and Wages

Consolidated Federal Funds Report:

Fiscal Year 1995

U.S. Department of Commerce
Economics and Statistics Administration
BUREAU OF THE CENSUS
for the
Office of Management and Budget

Acknowledgments

This report was prepared in the Governments Division by **Kheang Hang** under the supervision of **Robert McArthur**, Chief of the Federal Programs Branch. **Janet Allen, Carol Cropper, Betty Ford, Diane Glaspie, Sue Jones, Susan Long,** and **Glenda Pickett** assisted in data review.

Computer processing operations were performed by **Linda Huang** and **Michael Freeman** under the supervision of **Kathy Chamberlain,** Chief of the Information Systems Branch.

The staff of the Administrative and Customer Services Division, **Walter C. Odom,** Chief, performed publication planning, design, composition, editorial review, and printing planning and procurement. **Frances B. Scott** provided publication coordination and editing.

Guidance and supervision for this report were provided by the Budget Review Division, and the General Management Division, of the Office of Management and Budget.

Grateful acknowledgment is made of the cooperation of the Federal Government departments and agencies for providing information needed for this report.

For information regarding data in this report, contact **Robert McArthur,** Governments Division, Bureau of the Census, Washington, DC 20233. Telephone 301-457-1565.
E-mail RMcArthu@census.gov.

F. Use of County Area Allocations for Selected Federal Pass-Through Assistance Programs, by State: Fiscal Year 1995 ..... F-1

Introduction

The Consolidated Federal Funds Report is a presentation of Federal Government expenditures or obligations in State, county, and subcounty areas of the United States. U.S. Territories and the District of Columbia are included. The data for this report were obtained from reporting systems which exist in various Federal Government agencies. These data have been consolidated and tabulated in a standard format for presentation in publications and electronic form covering different levels of geographic detail. The publications are:

- Federal Expenditures by State for Fiscal Year 1995,
- Consolidated Federal Funds Report, Fiscal Year 1995: County Areas

Data are also available on magnetic computer tape and CD-ROM. Information on publications, computer tapes, and CD-ROMs appears at the end of this section.

REPORT COVERAGE

The Consolidated Federal Funds Report (CFFR) covers Federal Government expenditures or obligations for the object categories listed below. For fiscal year 1995, amounts reported totaled $1.4 trillion for the direct expenditure or obligation categories, and $488 billion for other Federal assistance (loans and insurance programs):

- Grants ($243 billion)
- Salaries and wages ($168 billion)
- Procurement ($203 billion)
- Direct payments for individuals ($730 billion)
- Other direct payments ($26 billion)
- Direct loans ($26 billion)
- Guaranteed or insured loans ($102 billion)
- Insurance ($360 billion)

Dollar amounts reported under these categories can represent actual expenditures or obligations. Users should be aware of the differences in this coverage which varies in accordance with the data, as described later under ''Data Sources.'' As a general guide, the grants and procurement data in this report represent obligated funds, while salaries, wages and direct payments represent actual expenditures (outlays)[1]. Data on loan and insurance programs generally represent the contingent liability of the Federal Government.

Certain categories of Federal Government spending have been intentionally excluded from this report. These include such items as interest on Federal Government debt, travel expenses when not provided under contract, and international payments and foreign aid. These are described under the heading ''Amounts Excluded From CFFR Coverage.''

The financial activity of all Federal Government agencies is covered, with exceptions for those agencies which do not submit data to any of the Federal reporting systems that served as sources of information for the CFFR. These agencies are also listed under the heading ''Amounts Excluded From CFFR Coverage.''

DATA PRESENTATION

The Consolidated Federal Funds Report presents data by State and county area. Coverage includes all object categories of Federal Government finance.

Geographic detail of Federal finances on a program basis can be found in the publication *Federal Expenditures by State for Fiscal Year 1995,* or on the CFFR data file available on magnetic computer tape and CD-ROM.

The basis for the geographic distribution in the CFFR varied according to the object category and the data source. These are detailed later under the heading ''Data Sources.'' The following general guidelines applied:

- Grants-location of initial recipient
- Salaries and wages-place of employment
- Procurement-place of performance
- All other object categories-recipient location

For grants, users should note that some dollar amounts appear at the State capital county areas. This reflects the coding of grants to the State governments, even when such grants represent payments that are subsequently

[1]Several grant programs in the CFFR were reported on the basis of expenditures since the data were taken directly from the Federal Expenditures by State publication. These are detailed in the ''Data Sources'' section.

passed through to local jurisdictions, or represent programs that are spread out over all areas of the State in terms of financial impact. Appendix C lists the State capital cities and their respective county areas.

The geographic presentation of data on grants is described more fully in the section ''Estimates of Substate Grant Distribution.'' Most large volume grant programs involve a direct Federal-to-State transfer of aid which the State governments subsequently redistribute. Data for several of these grant programs were treated differently in the CFFR as described below.

Included in the geographic listings are the terms ''U.S. undistributed'' and ''State undistributed.'' These are used for data that were reported, without specific geographic designations for the State or county. Examples of such data include procurement actions of less than $25,000 which were reported as one data record and assigned to ''U.S. undistributed.''

The congressional districts shown in the CFFR reflect the districts of the 104th Congress. For those States which have only one at-large representative, the congressional district is shown as ''00.''

As indicated previously and explained in detail later under ''Data Sources,'' dollar amounts reported can reflect expenditures or obligations. In some cases, dollar amounts shown will be negative. Such amounts reflect deobligations of financial assistance that had been previously awarded, and generally appear in the grant object category.

SUMMARY OF METHODOLOGY

This is a consolidated report, developed by bringing together available statistics on Federal Government expenditures or obligations. The first phase of the CFFR program was to identify the available data sources. The CFFR Act specified that the following reporting systems and agencies be used as data sources:

- Federal Assistance Award Data System
- Federal Procurement Data System
- Office of Personnel Management
- Department of Defense
- U.S. Postal Service
- Internal Revenue Service
- U.S. Coast Guard
- Public Health Service
- National Oceanic and Atmospheric Administration

In addition to these, several other Federal agencies were requested to provide data, usually for selected programs (see section on ''Data Sources''). Most of these were agencies which had not yet begun reporting under the requirements of the Federal Assistance Award Data System.

Finally, selected data were obtained from the information on payments to State or local governments reported by Federal agencies for the Census Bureau's Federal Aid to States survey, in accordance with the CFFR Act and OMB Circular A-11. These data covered Federal Government grants that were not required to be reported in the Federal Assistance Award Data System, such as the Federal Government annual payment to the District of Columbia.

All data submitted for the CFFR were assigned a program identification code, an agency identification code, and an object code. The program identification code format was patterned after the Catalog of Federal Domestic Assistance (CFDA) program number. For all data taken from the Federal Assistance Award Data System, the CFDA number was used for the program identification code. For all other data submissions, a unique code was assigned. Although not presented in this CFFR publication, the program identification code is contained on the CFFR data file available on magnetic computer tape and CD-ROM.

The agency identification code assigned to each data record is the four character Federal Information Processing Standards (FIPS) code issued by the National Institute of Standards and Technology. The two leftmost characters form a component data element, called the Treasury Agency Symbol (TAS), which is identical to the two-digit numerical code used in the budgetary process to identify major Federal agencies.

The object code assigned to each data record submitted for the CFFR consisted of two alphabetic characters to designate the broad object category of Federal expenditure to which each data record belonged. These were the categories described previously (grants, salaries and wages, etc.).

Both the program identification code and the object code were used throughout the CFFR processing. For example, during the data edit and review stages, dollar amounts were tallied by program or object category for comparison with other sources of information on Federal outlays. In addition, the object code became the primary basis for the table presentation in the CFFR publications (all grants data were grouped together, and so forth).

The processing of all data submitted for the CFFR involved the six steps detailed below. Exceptions existed for some submissions, often the result of the geographic coding methods used by the Federal agency. These exceptions are detailed later under ''Data Sources.''

1. Verification of edit totals required comparing dollar amounts and record counts actually submitted with totals provided on transmittal documentation from each agency. Since most submissions were on magnetic computer tape, this process involved ensuring that the tape submissions were in the prescribed format. Any discrepancies were brought to the attention of the submitting agency, and corrections made as needed.
2. Verification of geographic coding applied to those submissions received on computer tape. This process

is described in more detail later, under the section ''Geographic Presentation and Coding.''

3. The third step in processing was to sort all data by program identification code and geographic unit. This enabled review tables to be compiled which showed data by State, county, or subcounty area for each Federal program or object category. At this stage, a national total of Federal program amounts in the CFFR was compared to totals for the same programs that appeared in other data sources such as the Federal Budget. Data were also reviewed by program or object category at the State and county level. In this manner, patterns of Federal Government spending for any category, such as Defense salaries and wages, were reviewed. This third phase of processing was thus concerned with review and verification of dollar amounts by program and object category. Corrections were made as needed, based upon consultation with the Federal agency submitting the original data.
4. Since data from different sources were generally submitted on the basis of different geographic coding, the next step in CFFR processing was to convert all data records to standard geographic designations.
5. Once converted to a standard geographic designation (government unit codes), program and object totals were again reviewed. At this time, data records were combined so that only one record existed for each unique combination of geographic code, program identification code, agency code, and object code. Even though multiple grant awards may have been made under a single program to any given geographic area, they were all combined into a single record for the fiscal year. If 10 Community Development Block Grants were awarded to New York City during fiscal year 1995, they were combined into a single record for Community Development Block Grants funding within New York City. Combining like data records in this manner was the final step in processing for each CFFR submission, or data file.
6. All data files were then merged together to form a consolidated file. This enabled the compilation of total Federal expenditure or obligation by object category and geographic area. These data were reviewed and final corrections made to the CFFR data file.

This final data file contained records in geographic detail only. County, State, or United States total records were not part of the data file. Nor were summary totals by object category actually contained in the data file. All of these summary records were tallied during preparation of the tables in the CFFR. In this way, totals published in the CFFR represent summations of the more detailed data contained on the CFFR data file.

Table preparation also entailed processing the CFFR data file in conjunction with the CFFR geographic reference file. The former contained all information associated with the Federal program or object category of spending being reported. The geographic reference file contained all pertinent information concerning the government unit for which data were published. This information included the State, county, and municipal/township name, the 1994 population, the congressional districts, and all associated geographic coding.

RELATIONSHIP TO FEDERAL EXPENDITURES BY STATE

The publication *Federal Expenditures by State for Fiscal Year 1995* presents State-by-State distributions of Federal Government expenditures. Data in that publication are the same that appear in the CFFR, with three exceptions. One is amounts for Federal grants to State and local governments. In the CFFR, Federal grants generally represent obligations and include payments to State and local governments, and grants to nongovernmental recipients.

Table 2 of the *Federal Expenditures by State* report covers actual Federal grant outlays to State and local governments, by agency and program. Data reported were submitted to the Census Bureau in accordance with OMB Circular A-11 and the Census Bureau's annual Federal Aid to States reporting guidelines. These data were formerly published in the annual Treasury Department report Federal Aid to States. The detailed presentation contained in table 2 replaced that publication, effective with fiscal year 1983 data.

The data on grants to State and local governments in *Federal Expenditures by State* were reconciled with amounts in the Federal Budget. The definitions applied in the Budget for grants to governments served as the basis for reporting in table 2 of that publication. Grants to nongovernmental recipients are included in table 6.

The second exception is for data on Department of Housing and Urban Development housing assistance (Section 8) payments. In *Federal Expenditures by State,* these payments are classified as grants where the landlord is a public agency, and direct payments where the landlord is a private agency. In the CFFR, all Section 8 payments are classified as direct payments. This is because data used for the CFFR required subcounty geographic detail and the public versus nonpublic landlord data were available only at the state level of detail.

The third exception is for data on Federal Emergency Management Agency payments under the Disaster Assistance Program. In the CFFR, these payments are classified as grants, while in the *Federal Expenditures by State* report, individual assistance payments under this program are classified as direct payments for individuals. The grants versus direct payments data were not available at the substate level.

Federal Expenditures by State also contains data on Federal salaries and wages (table 3), Federal direct payments for individuals (table 4), Federal procurement (table

5), and other direct Federal expenditures (table 6). These data correspond to those presented by object category in the CFFR, but are shown by program or Federal agency wherever possible. The CFFR publication does not contain such program or agency detail.

One other significant difference between *Federal Expenditures by State* and the CFFR is the level of geographic detail for which data are shown. The former distributes data only on a State-by-State basis, while the CFFR contains county area information.

Users should consult the introductory text in the publication *Federal Expenditures by State* for a detailed explanation of the grants data that appear in that report.

DATA SOURCES

Appendix D lists the data sources used for the CFFR, arranged by major category of Federal Government finances. The description of the data sources which follows includes explanations of the coverage, conceptual basis for reporting (expenditures versus obligations), geographic basis for reporting, and other information important for interpreting the data in the CFFR. The use of the term FIPS geographic codes in the following text refers to the Federal Information Processing codes maintained by the National Institute of Standards and Technology, Department of Commerce.

GRANTS

As indicated in appendix D, the principal source of the grants data in the CFFR was the information submitted for the Federal Assistance Award Data System (FAADS). The Bureau of the Census is the Executive Agent for the Office of Management and Budget, and is responsible for the operation of the FAADS reporting system. Data on financial assistance awards are submitted quarterly by Federal Government agencies, and combined to form a single report on Federal Government financial assistance awards. The report is distributed to the Congress and to State governments. In addition to grant awards, the FAADS program covers direct payments to individuals (such as retirement benefits), direct payments for specified use (such as food stamps awards), cooperative agreements, guaranteed loans, direct loans, and insurance programs of the Federal Government. All financial assistance awards in FAADS are identified by a Catalog of Federal Domestic Assistance program number. Coverage of these types of financial assistance other than grants are described under the appropriate data source section later in this text.

For grants, the FAADS data represent the Federal obligation incurred at the time the grant is awarded. The amounts reported do not represent actual expenditures, since obligations in one time period may not result in outlays during the same time period. Moreover, initial amounts obligated may be adjusted at a later date, either through enhancements or deobligations. These deobligations may appear in the CFFR data as negative amounts. Users should be aware of what these amounts represent and use care in interpreting such data.

FAADS data on grants for fiscal year 1995 were derived by summing the quarterly reports that covered financial assistance awarded between October 1, 1994, and September 30, 1995. The grants data from FAADS that were carried forward to the CFFR totaled about 98 percent of all grants reported.

All grant awards in FAADS were reported by State, county, and, usually, city of initial grant recipient. Submitting agencies used either FIPS codes for States, counties, and places, or General Services Administration location codes. The remaining grants data for the CFFR were taken from data submitted to the Census Bureau pursuant to the annual Federal Aid to States survey, and OMB Circular A-11. These submissions are required annually by all Federal Government agencies which make payments to State or local governments.

Such data were previously collected and published annually by the Division of Government Accounts and Reports, Fiscal Service, Bureau of Government Financial Operation, Department of the Treasury. The annual Treasury Department publication Federal Aid to States, which contained these data, has been replaced by the annual Census Bureau publication *Federal Expenditures by State.* Reference should be made to that publication for additional information on the coverage and reporting requirements associated with these grant data.

Selected grant programs data were taken from the *Federal Expenditures by State* publication to ensure comprehensive coverage in the CFFR. These grants are not part of the FAADS reporting because they are not listed in the *Catalog of Federal Domestic Assistance.* Data were available only at the State area level of reporting.

SALARIES AND WAGES

Amounts reported for Federal Government salaries and wages were obtained from four sources: the Office of Personnel Management, the Department of Defense, the Postal Service, and the Department of Transportation.

The Defense Department provided information on military payrolls, with separate amounts for active military and inactive military (reserve and National Guard). These data were obtained from the Directorate for Information, Operations and Reports of the Washington Headquarters Services, Department of Defense. (It should be noted that salaries and wages data covering civilian employees of the Defense Department were obtained from the Office of Personnel Management, as described below.)

Amounts reported represent estimates of fiscal year outlays by State and county, and include gross compensation. This covers salaries and wages, housing allowances, and in general all other personnel compensation, except

retired military pay, which is reported separately under the category direct payments for individuals. Other features of the Department of Defense salaries and wages include:

1. Amounts for military personnel stationed overseas are excluded from totals.

2. Salaries and wages for inactive personnel refer to military reserve and National Guard payroll.

3. Amounts reported reflect the State (territory) and place of employment (duty station) rather than home residence.

The submission from the Defense Department was a computer tape file containing data records that were distributed using FIPS geographic codes for States and counties. No special processing of the geographic codes was required for inclusion in the CFFR.

Salaries and wages data for U.S. Postal Service employees were provided by the U.S. Postal Service. Amounts represent actual outlays during the fiscal year, but with the national total distributed among the States and counties on an estimated basis. Estimates were derived by calculating the ''per employee'' payroll cost and applying this cost to each postal facility based upon the number of employees.

The Postal Service data were geographically distributed based upon place of employment (postal facility). Data records were submitted on magnetic computer tape, and contained FIPS State and county area codes.

Statistics on salaries and wages for uniformed employees of the U.S. Coast Guard were reported by the Department of Transportation. Data were reported by ZIP code, for the place of employment. Amounts were then aggregated by county area.

Salaries and wages for all other Federal employees were obtained from the Office of Personnel Management. Coverage included all other Federal civilian employees (excluding the Central Intelligence Agency, Defense Intelligence Agency, and the National Security Agency) employed in the United States and the U.S. Territories. Data were reported separately for each major Federal agency. The data included:

- Basic annual salaries

- Premium pay (overtime, night differential, cost of living allowances, station allowances, holiday pay, and any retroactive pay), and

- Lump sum payments (for annual Leave)

National totals represent actual expenditure during fiscal year 1995. The geographic distribution of these amounts by State (territory) and county were estimated, based upon place of employment. The following assumptions apply for the estimation procedures:

1. The basis for the geographic distribution was place of employment, using data on salary and employment distributions from the Office of Personnel Management's (OPM) Central Personnel Data File (CPDF) as of March 31, 1995. Data were geographically prorated to total fiscal year payroll and payment data from the SF 113-A, ''Monthly Report of Federal Civilian Employment.''

2. Estimated payroll data were produced at the State, county, and territory levels only.

3. Both defense and non-defense agency State, county, and territory payroll data were estimates. These estimates were predicated on the assumption that premium pay and lump sum payments as well as part-time, intermittent, and full-time seasonal pay were proportional to the salaries of full-time Federal civilian employees (Defense and nondefense) in the counties and territories.

The methodology used to estimate the geographic distribution was to obtain actual expenditures for salaries and wages from the SF 113-A. Salary and wage data on the SF 113-A were expenditures (including basic, premium, and lump sum payments) for all Federal civilian employees. (These data were not reported by State and county on the SF 113-A).

From OPM's CPDF and agency survey data, aggregate basic salaries for full-time employees only (Department of Defense and other agencies) were computed for each county, each United States Territory, total United States, and total territories. Based on these aggregate basic salaries, Department of Defense and other agencies percentages were computed. These percentages determined each county's and territory's proportion of the total United States and U.S. Territories full-time salaries.

The percentages referenced above for Department of Defense and other agencies were applied to SF 113-A Defense and nondefense payroll data for the States and U.S. Territories to estimate actual expenditures in U.S. counties and U.S. Territories, respectively.

The District of Columbia's nondefense estimated expenditures were computed by the above methodology. However, a supplement was then added to this estimate consisting of SF 113-A agency payroll data for the following agencies: U.S. Congress (including Congressional Budget Office), White House Office, Office of the Vice President, Federal Reserve Board, Architect of the Capitol, U.S. Botanic Gardens, Library of Congress, U.S. Tax Court, Copyright Royalty Tribunal, Office of Technology Assessment, and the Supreme Court. These agencies were not in the survey agency file or in the CPDF. Since their employment is primarily or totally in the District of Columbia, their SF 113-A payroll data were added to the District's nondefense estimate.

DIRECT PAYMENTS FOR INDIVIDUALS

Data covering Federal Government direct payments for individuals were separated into two object categories-direct payments for retirement and disability benefits, and all other direct payments for individuals. Retirement and disability programs include Federal employee retirement and disability benefits, Social Security payments of all types, selected Veterans Administration programs, and selected other Federal programs (see appendix D).

While the individual Federal programs included under the direct payments category are not shown separately in the CFFR publication, program data are published by State in the Federal Expenditures by State report, and are included in the CFFR data file available on magnetic computer tape and CD-ROM.

Unless otherwise indicated, all data covering direct payments for individuals were taken from information reported for the Federal Assistance Award Data System. All data represent obligations during the fiscal year, except as noted below. Direct payments for individuals are shown by State and county area only, in accordance with the reporting requirements of the Federal Assistance Award Data System. The following direct payment programs (retirement and disability) were not available from FAADS and were obtained from other data sources.

1. Military retirement benefits data were supplied by the Department of Defense, along with that agency's data on military payroll. Amounts represent actual expenditures during the fiscal year. Coverage includes recurrent benefit payments, as well as permanent and temporary disability payments. Data were provided by State and county area of recipient. Fiscal year 1995 payments totaled $28 billion.

2. Amounts for benefit payments to retired U.S. Coast Guard service personnel were obtained from that agency. These payments totaled $535 million. Coverage includes taxable benefits financed by employer or general fund contributions. Retired civilian employees of the Coast Guard are excluded from these data, but included in data from the Office of Personnel Management.

3. Federal civilian employee retirement and disability payments were obtained from the Office of Personnel Management, Compensation Group. Amounts include expenditures for all periodic annuity, survivor annuity, and lump sum death claims, as well as withdrawals. Administrative expenses and funds transferred to other retirement systems are excluded. Amounts reported totaled $38 billion.

   Retirement benefits for Federal civilian employees also included data for former Postal Service employees.

   It should be noted that the amounts reported by OPM include payments from employee contributions. No data covering the payments associated only with employer contributions, earnings on investments, or other nonemployee financed amounts could be obtained.

   The OPM data represent an estimated geographic distribution of actual fiscal year 1995 disbursements. The methodology used by OPM was based on proportionate calendar year-to-date annuity disbursements through October 1, 1995. The calendar year-to-date data were accumulated by ZIP code, and proportionate shares were then applied against the actual total of fiscal year 1995 disbursements. ZIP codes reflected recipient location except for payments made via electronic funds transfer, which reflected correspondence ZIP code.

   Like other data submitted on the basis of ZIP codes, these data were converted to State and county areas using standard methodology.

4. Pension plan termination insurance payments reflect benefits paid by the Pension Benefit Guaranty Corporation under the Pension Plan Termination Insurance Program (Catalog of Federal Domestic Assistance program 86.001). Data include only those payments made directly by the Pension Benefit Guaranty Corporation. Amounts paid by interim custodians such as banks or other financial institutions were not reported. Total payments for fiscal year 1995 under this program were $732 million.

   The data submitted for the CFFR were geographically distributed by postal ZIP code.

5. Payments to retirees and other beneficiaries from the Public Health Service, Commissioned Corps, were reported by that Federal agency. Amounts were reported by mailing address (ZIP code) of the beneficiary converted to county level data by the Census Bureau. Amounts reported totaled $109 million.

6. Benefit payments to retirees from the National Oceanic and Atmospheric Administration (NOAA) Commissioned Corps totaled $9 million for fiscal year 1995. Data were obtained from the Commerce Department, National Oceanic and Atmospheric Administration, and were available only at the State level.

7. The State Department Foreign Service Officers retirement system provided data on fiscal year 1995 benefit payments. These totaled $334 million, and were reported geographically by ZIP code.

8. The Tennessee Valley Authority reported $203 million in benefit payments to retirees. Data were reported by State and county area.

Programs classified as direct payments for individuals, other than retirement and disability, were all obtained from the Federal Assistance Award Data System, except as

noted in appendix D. These were reported by State and county area only. The four quarterly FAADS reports were consolidated to obtain fiscal year totals.

Amounts reported for the Housing Assistance Payments (the Section 8 program) under this object category reflect the entire amount of obligations for the year. That is, all Section 8 (and voucher) payments have been classified as direct payments for individuals, regardless of whether they were paid to public or private landlords. This is also another source of difference in the data between the CFFR publication and *Federal Expenditures by State.*

Excess earned income tax credits represent Federal Government payments during calendar year 1995. Information was obtained from the Department of the Treasury, Internal Revenue Service, Statistics of Income Division. Amounts reflect only the excess earned income tax credit amount actually refunded. Aggregate figures by State were reported. No substate detail was available.

PROCUREMENT

Statistics covering Federal Government procurement were provided by the U.S. Postal Service (USPS) for Postal Service procurement and the General Services Administration, Federal Procurement Data Center (FPDC) for procurement actions of all other Federal agencies, including the Defense Department.

Amounts provided by the USPS represent actual outlays for contractual commitments, while amounts provided by the FPDC represent the value of obligations for contract actions, and do no reflect actual Federal Government expenditures. In general, only current year contract actions are reported for data provided by the FPDC; however, multiple-year obligations may be reflected for contract actions of less than 3 years duration.

The FPDC collects procurement statistics on a quarterly basis from most Federal Government departments and agencies, and provides these data according to the place of performance rather than the location of the prime contractor. Excluded from the procurement totals reported are the amounts for the judicial and legislative branches of government and most intergovernmental transfers of funds. Also excluded from the totals are amounts for procurement in foreign countries. However, foreign procurement awards were $7.5 billion in fiscal year 1995, with $6.1 billion for the Defense Department, and $1.4 billion for all other Federal Government agencies other than the USPS.

Most contract actions provided by the FPDC with values under $25,000 were not distributed by State and territory. Such amounts were reported as ''U.S. undistributed.''

Procurement data awarded by the USPS include all outlays made under formal contractual agreements. The FPDC data include contractual actions for construction, purchases of equipment, and other purchases of tangible items by the Federal Government. Also included with the FPDC data are contractual actions for services often not generally associated with procurement, such as the purchase of utilities, building leases, and other services entered into via contractual agreement.

Procurement data provided by the FPDC were distributed according to place of performance, as designated by FIPS State/county/place geographic coding. These geographic codes were matched against the government unit codes comprising the geographic basis for CFFR, and assigned to any units where a match was found. Unmatched data records were distributed to ''balance of county'' represented by the State/county portion of the FIPS geographic code. (For those FPDC data records submitted only with a State/place code, a county code was first assigned via a geographic conversion file.)

OTHER DIRECT FEDERAL EXPENDITURE

Most data reported were submitted by Federal agencies for the Federal Assistance Award Data System. Amounts reported in each of the four quarters of fiscal year 1995 were consolidated for the CFFR. Data not from FAADS are listed below, and detailed in appendix D.

Crop Insurance data on the amount of indemnity payments (claims) and premium subsidies were provided by the Agriculture Department. Expenditures totaled $1.4 billion. Coverage included the claims paid directly by the Federal Government to farmers, and premium subsidies to private insurers. Federal indemnity payments to private insurance carriers were not reported. Amounts reflect the resident county of the claimant for direct payment, or location of county of the private carrier for premium subsidies.

The Federal Emergency Management Agency supplied county level data on fiscal year 1995 payments under the National Flood Insurance program. Amounts represent claims and adjustor expenses. Total expenditures for this program were $1 billion.

U.S. Postal Service expenditures for current operations, other than procurement and salaries, were provided by the Postal Service as part of that agency's total submission for CFFR. Data were provided by State and county area, with the distribution based on the methodology described earlier for Postal Service salaries and wages. Amounts reported totaled $2 billion.

Data for the Federal Government (employer) share of premiums on Federal employee life and health insurance were obtained from the Office of Personnel Management, Compensation Group. Data for life insurance programs ($390 million) were allocated by State based upon the 1994 claims experience of the largest health carrier. Health insurance premium payments totaled $10.3 billion. All expenditures for life and health insurance premiums were assigned to the ''State undistributed'' level of geography.

The Education Department reported fiscal year 1995 payments under the National Guaranteed Student Loan Program. Amounts included under the ''Other direct payments'' category include default payments, advances, and

administrative cost allowances for guarantee agencies. Amounts totaled $2.9 billion. (Interest subsidies and special allowances paid on behalf of borrowers are included under the ''direct payments for Individuals'' category in table 4.)

Other data that were obtained from sources other than FAADS included Legal Services Corporation grants ($390 million).

GUARANTEED LOANS, DIRECT LOANS, AND INSURANCE

All data on loans and insurance programs of the Federal Government, with the exception of data on Flood Insurance and student loan programs, were taken from the Federal Assistance Award Data System. Amounts reported in these object categories reflect the contingent liability of the Federal Government, in accordance with the FAADS reporting instructions. Data do not represent actual expenditures associated with the loan or insurance programs. Any actual outlays under these programs, such as insurance claims paid by the Federal Government, appear in the direct payments categories in the CFFR.

Federal Government contingent liability can vary by program, and caution should be used in comparing one Federal loan or insurance program to another, or in interpreting the data presented to reflect actual Federal outlays over time. The following should be noted:

1. Amounts guaranteed or insured do not necessarily represent future outlays.

2. All amounts reflect the dollar value of loans or insurance coverage provided during the fiscal year, and not the cumulative totals of such activity over the life of the program.

3. Direct loans are not reported on a net basis, as in the Federal Budget, but rather are shown in terms of total amount loaned.

4. Programs otherwise similar can vary in the share of the total liability that the Federal Government guarantees or insures. Certain veterans guaranteed loan programs are guaranteed only up to a stated maximum dollar value, for example. In these cases, the Federal Government contingent liability is less than the total value of the loan or insured policy agreement.

Guaranteed loans, direct loans, and insurance are reported in FAADS by State and county area, or by State, county, and place.

Data on the Federal Direct Student Loan and National Guaranteed Student Loan programs are not reported for the Federal Assistance Award Data System, and were obtained separately from the Department of Education, as indicated.

National Flood Insurance data (CFDA number 83.100), reflecting insurance in force on September 30, 1995, were obtained from the Federal Emergency Management Agency.

Detail on particular loan or insurance programs is available in Federal Expenditures by State (on a State-by-State basis only) or on the CFFR data file available on magnetic computer tape and CD-ROM.

GEOGRAPHIC PRESENTATION AND CODING

Background

The Consolidated Federal Funds Report Act calls for reporting by State (including territories), county or parish, municipality, and congressional district. At the subcounty level, the Act refers to municipality as any subcounty unit of general local government. For this reason, the geographic basis for presentation in the Consolidated Federal Funds Report is the government classification system developed by the Bureau of the Census in its census of governments program.

This report presents data by State and county area. The District of Columbia and the United States Territories of American Samoa, Guam, Northern Mariana Island, Puerto Rico, and the U.S. Virgin Islands are included. In addition to county areas, municipal governments which are independent of any organized county are included here as county equivalent areas. Appendix A contains a listing of these municipalities.

Government Units

There were 86,743 government units in the United States according to the 1992 Census of Governments, distributed as follows:

U.S. Government	1
State governments	50
Local governments	86,692
County	3,043
Municipal	19,296
Township	16,666
School district	14,556
Special district	33,131

Exact definitions of government units are available in Volume 1 of the 1992 Census of Governments, Government Organization. That publication describes the structure and organization of State and local governments throughout the Nation.

The general local governments that defined the universe for this publication were those in existence (active and incorporated) during the Federal fiscal year 1995. All such

governments were contained in the Governments Integrated Directory, the Census Bureau's major file of all government units in the Nation.

The Consolidated Federal Funds Report contains data by State, county, and subcounty area, making use of government units to represent geographic area. For States and territories, government jurisdictions have fixed, stable boundaries which correspond to well-defined geographic areas. For county and subcounty government units, however, there can be significant differences between the concept of government unit and a specified geographic area.

Where county governments exist, they correspond to generally accepted county geographic boundaries. However, many areas of the United States lack county government. Organized county governments are not found in Connecticut and Rhode Island, as well as in some territories, and the District of Columbia. Numerous cities, such as Baltimore, MD (which is not located within a county government area), and San Francisco, CA (which is a consolidated city/county government), also exist independently of any county government.

County-equivalent areas are included in the Consolidated Federal Funds Report as if they were legitimate counties to ensure consistency in the geographic presentation of the data. A complete listing of these areas can be found in appendix A.

It is important to note that the CFFR covers Federal Government payments to government units and other recipients located in the geographic areas over which these governments have jurisdiction. The Federal payments to the New York City area could represent monies allocated to the city government, a private company located in the city, or a private citizen residing in the city. No attempt is made in the CFFR to provide information on the recipients of Federal money.

In most cases, the effect of this assignment on the statistical presentation of the data is negligible. However, users should be aware of this treatment, particularly if using data for one of these multicounty jurisdictions. The municipalities of over 50,000 population which exist in more than one county area, and their respective counties, are shown in text table A.

The government structure of New York City deserves special mention. Classified for census purposes as a municipality, the city is actually comprised of five county equivalent areas (Bronx, Kings, New York, Queens, and Richmond). None of these are presented separately in this report. New York City is presented as a single county equivalent area.

Congressional District Reporting

The congressional district or districts for each county area are displayed in the CFFR table. For those places that have multiple districts, all such districts are displayed. The congressional districts shown in this publication represent the boundaries of the 104th Congress, in session as of January 1995.

In those places with more than one congressional district, dollar amounts are not reported separately for each district. The Federal financial data in the reporting systems (data sources) used for the CFFR did not contain such detail, with the exception of partial data records of the Federal Assistance Award Data System.

Several other aspects of the congressional district coding should be noted:

- For States with an at-large representative, the code ''00'' is reported.
- For territories with a nonvoting representative to Congress, the congressional district is reported as ''98''.
- Territories with no representatives have ''99'' for a congressional district code.
- To derive totals of all funds to any particular congressional district, amounts for all government units in that district would have to be aggregated.
- For counties that exist in more than one district, all congressional districts are reported.

The geographic reference file used in the CFFR is available along with the CFFR data file, on magnetic computer tape and CD-ROM. Interested users should contact the Administrative and Customer Services Division, Bureau of the Census.

ESTIMATES FOR SUBSTATE GRANT DISTRIBUTIONS

Many Federal grant programs involve a direct payment to State governments, which are then responsible for program administration. Examples include: grants that are ''passed-through'' to local governments (such as block grant programs); grants, such as for highway construction, in which the financial impact of Federal funds is spread out over all areas of the State; and grants or assistance programs such as Aid to Families with Dependent Children, which the State can administer but for which the ultimate beneficiaries are found throughout the States.

The CFFR contains data on the substate allocation of funds for the major Federal grant programs. These data are allocated by county or county-equivalent area.

For the Highway Planning and Construction program (program number 20.205), the Transportation Department reports the actual place of performance (county area) where the funded project is located. If the project is in more than one county area, each county is reported, along with its share of the funding. Funding for this grant program totaled $20 billion in fiscal year 1995.

The substate allocation of funds for twelve major programs was derived by the Census Bureau from a survey of State government agencies:

- Food Stamps (10.551)-$22.8 billion
- National School Lunch (10.555)-$5.2 billion
- Special Supplemental Food Program for Women, Infants and Children (WIC) (10.557)-$3.5 billion
- Social Services Block Grant (93.667)-$2.8 billion
- Low Income Home Energy Assistance (93.568)-$1.7 billion
- Job Training Partnership Act (17.250)-$1.9 billion
- Handicapped Education-State Grants (84.027)-$2.5 billion
- Rehabilitation Services Basic Support (84.126)-$2 billion
- Medicaid (93.778)-$83.5 billion
- Family Assistance Payments (AFDC) (93.560)-$14.9 billion
- Child Support Enforcement (93.563)-$1.8 billion
- Substance Abuse Prevention and Treatment Block Grants (93.959) -$1.2 billion

Substate allocations for these programs were available for some, but not all, of the States and territories. Appendix F contains detail, by program and State.

The derived county allocations were based upon a Survey of State Government Pass-Through Expenditures, conducted by the Census Bureau during fiscal year 1996. For each program, the administering State agencies were asked to provide information on the county allocation of program funds within their State. Responses, where received, were used as the basis for prorating total program funding by State among the county areas within each State. Total program funding for each State had been reported by the administering Federal agency, in the Federal Assistance Award Data System.

AMOUNTS EXCLUDED FROM CFFR COVERAGE

Federal Government expenditures covered in the CFFR total $1.4 trillion for fiscal year 1995. This amount does not represent all Federal Government expenditures. Amounts excluded from the CFFR can be grouped into two general categories-conceptual exclusions and agency/program omissions.

Federal expenditures excluded conceptually were those that could not be geographically distributed, all international transactions and foreign payments, and Federal outlay categories not covered by any of the reporting systems that served as data sources for the CFFR. The largest item was net interest on Federal Government debt, which was estimated to be $233 billion in fiscal year 1995. The fiscal year 1995 total outlays for the international affairs function in the Federal Budget was estimated at $20 billion.

Expenditures for the Central Intelligence Agency and the National Security Agency were excluded from coverage.

The CFFR data were compiled by object categories of Federal expenditures. The reporting systems and Federal agencies that served as data sources excluded Federal travel expenditures, to the extent that they were not covered by contractual agreements. No estimate of the magnitude of these expenditures is available.

For some agencies, data for selected object categories could not be obtained. These included the procurement actions of the judicial and legislative sectors of the Federal Government. Expenditures other than salaries and procurement were not available for the Federal Deposit Insurance Corporation, National Credit Union Administration, Federal Saving and Loans Insurance Corporation and Resolution Trust Corporation.

The Federal Budget outlays estimated for fiscal year 1995 totaled $1.7 trillion. However, comparison of the Federal Budget amount with data reported in the CFFR could be misleading, since the Federal Budget amounts differ from CFFR in accounting concepts and the treatment of intragovernmental transfers. For example, outlays for many programs in the Federal Budget are reported on a net basis.

AVAILABILITY OF DATA

Copies of the Consolidated Federal Funds Report publication are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. The publication Federal Expenditures by State can also be purchased from the Superintendent of Documents.

The CFFR data file is also available on magnetic computer tape and CD-ROM. As indicated earlier, the data available on computer tape and CD-ROM are more detailed than the summarized data presented in the published reports. Each record in the CFFR data file contains the following fields:

- Government unit code (State, type, county, unit)
- Program identification code
- Object code
- Federal funding sign
- Federal funding amount
- Federal Information Processing Standard (FIPS) location code (State, county, place)
- FIPS Federal agency code

All appropriate documentation and data file descriptions are provided with each CFFR computer tape or CD-ROM file.

An accompanying CFFR geographic reference file is also available on computer tape and CD-ROM. This file contains the names and government unit codes for all State, county, municipal, and township units in the Nation. In addition, the file contains associated geographic codes (FIPS, GSA, and Census Bureau place codes), the 1994 population, and the congressional districts serving each government unit.

Users interested in obtaining computer tapes or CD-ROMs of the Consolidated Federal Funds Report data files should contact the Administrative and Customer Services Division, Bureau of the Census, Washington, DC 20233. Telephone 301-457-4100. Users can visit the Census Bureau via the Internet at http://www.census.gov.

The *Consolidated Federal Funds Report* is also being made available to the public through the Census Bureau's State Data Center Program. Through this program, the Census Bureau provides participating State organizations (government agencies and university centers) with publications, tape and CD-ROM files, and general information assistance. The State organizations, in turn, provide data access services such as tape processing, publication reference centers, inquiry handling and general assistance in data use. They also establish affiliates in key locations around the States by placing basic sets of census publications in local libraries, city and regional planning agencies and so forth.

Users can contact the State Data Centers (or affiliates) to determine if the *Consolidated Federal Funds Report* publication or the related computer tape or CD-ROM data files are available, or to request further information about the data. A list of the State Data Center lead agencies can be found in appendix E.

MEANING OF SYMBOLS

The symbols in the tables have the following meanings:

-	Represents zero or rounds to zero.
NA	Not available
X	Not applicable

Table A. **Multicounty Municipal Governments of Over 50,000 Population**

Appendix A.
County-Type Areas Without County Government

Areas with governments legally designated as city counties and operating primarily as cities (9):	
Alaska	City and borough of Anchorage, city and borough of Juneau, city and borough of Sitka, and city and borough of Yakutat.
California	City and county of San Francisco.
Colorado	City and county of Denver.
Hawaii	City and county of Honolulu.
Montana	Anaconda-Deer Lodge County and Butte-Silver Bow.
Areas designated as metropolitan governments and operating primarily as cities (2):	
Tennessee	Metropolitan government of Nashville and Davidson County, and Metropolitan government of Lynchburg and Moore County.
Areas having certain types of county offices, but as part of another government (city, township, State) (16):	
Florida	County of Duval (city of Jacksonville).
Georgia	County of Clarke (unified government of Athens-Clarke County). County of Muscogee (city of Columbus).
Hawaii	County of Kalawao (State of Hawaii).
Indiana	County of Marion (city of Indianapolis).
Kentucky	Lexington-Fayette Urban County
Louisiana	Parish of East Baton Rouge (city of Baton Rouge), Parish of Orleans (city of New Orleans), and Terrebonne Parish Consolidated Government.
Massachusetts	County of Nantucket (town of Nantucket) and county of Suffolk (city of Boston).
New York	Counties of Bronx, Kings, New York, Queens, and Richmond (all part of the city of New York).
Pennsylvania	County of Philadelphia (city of Philadelphia).

Area classified as a separate county area and as a separate State area in population statistics, but counted as a municipal government in census statistics on governments (1):	
District of Columbia	Washington city.
Cities located outside of any ''county'' area and administering functions elsewhere commonly performed by counties (44):	
Maryland	Baltimore city (distinct from Baltimore County).
Missouri	St. Louis city (distinct from St. Louis County).
Nevada	Carson city.
Virginia (41 cities)	Alexandria, Bedford, Bristol, Buena Vista, Charlottesville, Chesapeake, Clifton Forge, Colonial Heights, Covington, Danville, Emporia, Falls Church, Fairfax, Franklin, Fredericksburg, Galax, Hampton, Harrisonburg, Hopewell, Lexington, Lynchburg, Manassas, Manasas Park, Martinsville, Newport News, Norfolk, Norton, Petersburg, Poquoson, Portsmouth, Radford, Richmond, Roanoke, Salem, South Boston, Staunton, Suffolk, Virginia Beach, Waynesboro, Williamsburg, and Winchester.[1]
Unorganized areas bearing county designations (13):[2]	
Connecticut (8 county areas with no government)	Fairfield, Hartford, Litchfield, Middlesex, New Haven, New London, Tolland, and Windham.
Rhode Island (5 county areas with no county government)	Bristol, Kent, Newport, Providence, and Washington.
Other unorganized county-type areas (12):	
Alaska	11 census areas.
Montana	Areas of Yellowstone National Park (areas of the park located in Idaho and Wyoming are included in county areas in those States).

[1]Effective July 1, 1995, South Boston was located within Halifax County, and was no longer an independent city outside the area of any county.
[2]Effective with fiscal year 1993, Shannon and Todd counties in South Dakota are counted as separate county governments. Although these two counties contract with adjacent counties for the performance of most county government functions, Shannon and Todd counties now each have an elected county governing body and perform some governmental services.

Appendix B.
Geographic Areas With More Than Four Congressional Districts

State and county area	Congressional districts
Arizona:	
Maricopa County	1, 2, 3, 4, 6
California:	
Los Angeles County	24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 41
Orange County	39, 41, 45, 46, 47, 48
San Diego County	48, 49, 50, 51, 52
Florida:	
Dade County	17, 18, 20, 21, 22, 23
Illinois:	
Cook County	1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 13
Massachusetts:	
Middlesex County	1, 3, 4, 5, 6, 7, 8
Norfolk County	2, 3, 4, 9, 10
Michigan:	
Wayne County	11, 13, 14, 15, 16
New York:	
New York City	5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18
New Jersey:	
Essex County	7, 8, 10, 11, 13
Pennsylvania:	
Montgomery County	6, 7, 8, 13, 15
Texas:	
Dallas County	3, 4, 5, 6, 24, 26, 30
Harris County	7, 8, 9, 18, 22, 25, 29
Tarrant County	6, 12, 24, 26, 30

Note: These are congressional districts of the 104th Congress, in session beginning in Federal fiscal year 1995.

Appendix C.
County Locations of State Capital Cities

State	Capital	County area
Alabama	Montgomery	Montgomery County
Alaska	Juneau	Juneau Borough
Arizona	Phoenix	Maricopa County
Arkansas	Little Rock	Pulaski County
California	Sacramento	Sacramento County
Colorado	Denver	Denver City/County
Connecticut	Hartford	Hartford County
Delaware	Dover	Kent County
Florida	Tallahassee	Leon County
Georgia	Atlanta	Fulton County
Hawaii	Honolulu	Honolulu City/County
Idaho	Boise	Ada County
Illinois	Springfield	Sangamon County
Indiana	Indianapolis	Marion County
Iowa	Des Moines	Polk County
Kansas	Topeka	Shawnee County
Kentucky	Frankfort	Franklin County
Louisiana	Baton Rouge	East Baton Rouge Parish
Maine	Augusta	Kennebec County
Maryland	Annapolis	Anne Arundel County
Massachusetts	Boston	Suffolk County
Michigan	Lansing	Ingham County
Minnesota	St. Paul	Ramsey County
Mississippi	Jackson	Hinds County
Missouri	Jefferson City	Cole County
Montana	Helena	Lewis Clark County
Nebraska	Lincoln	Lancaster County
Nevada	Carson City	Carson City
New Hampshire	Concord	Merrimack County
New Jersey	Trenton	Mercer County
New Mexico	Santa Fe	Santa Fe County
New York	Albany	Albany County
North Carolina	Raleigh	Wake County
North Dakota	Bismarck	Burleigh County
Ohio	Columbus	Franklin County
Oklahoma	Oklahoma City	Oklahoma County
Oregon	Salem	Marion County
Pennsylvania	Harrisburg	Dauphin County
Rhode Island	Providence	Providence County
South Carolina	Columbia	Richland County
South Dakota	Pierre	Hughes County
Tennessee	Nashville	Metro Nashville-Davidson[1]
Texas	Austin	Travis County
Utah	Salt Lake City	Salt Lake County
Vermont	Montpelier	Washington County
Virginia	Richmond	Richmond City
Washington	Olympia	Thurston County
West Virginia	Charleston	Kanawha County
Wisconsin	Madison	Dane County
Wyoming	Cheyenne	Laramie County

[1]Metropolitan Nashville-Davidson is listed as Davidson County in the Consolidated Federal Funds Report.

Appendix D.
CFFR Data Sources

Note: *Catalog of Federal Domestic Assistance* codes are noted in parenthesis where appropriate.

Category	Source
GRANTS	
Corporation for Public Broadcasting—public broadcasting fund grants	Corporation for Public Broadcasting *
Federal Government annual payment to the District of Columbia	Department of the Treasury *
Federal Government payment to Washington Metropolitan Transit Authority for interest on outstanding indebtedness	Washington Metropolitan Area Transit Authority *
Federal Government payments to Puerto Rico for Customs service and ATF tax collections	Department of the Treasury *
Housing assistance programs—	Department of Housing and Urban Development *
Congregate Services (14.170)	
Housing Demonstration Grants (14.235)	
Fair Housing Grants (14.401)	
Supplemental Assistance for Facilities to Assist the Homeless (14.236)	
Interior Department—	Interior Department *
Bureau of Indian Affairs—grants to Indian Tribes	Bureau of Indian Affairs *
Shared revenues from mineral leases, grazing lands and other payments to State and local governments.	Bureau of Land Management, and Minerals Management Services *
Payments to U.S. Territories	Office of Territorial Affairs *
Neighborhood Reinvestment Corporation—grants	Neighborhood Reinvestment Corporation*
State Justice Institute—grants	State Justice Institute *
Tennessee Valley Authority—payments in lieu of taxes	Tennessee Valley Authority *
U.S. Information Agency—	U.S. Information Agency
Educational Exchange Grants Graduate Students (82.001)	
University Lecturers (82.002)	
All other data	Federal Assistance Award Data System (Bureau of the Census)
SALARIES AND WAGES	
Military, active Military, inactive (Reserve and National Guard)	Department of Defense, Directorate for Information Operations and Reports
Postal Service	U.S. Postal Service

Coding key: A = Program data are allocated to all county areas. The distribution is based on data supplied by the State for all of its county areas.
B = Program data are allocated to all county areas. The distribution is based on data supplied by the State for most of its county areas. The Census Bureau estimated remaining county allocations.
C = All program data are allocated to State undistributed.
X = Not applicable.

[1]County allocations are derived from Education Department data. See text for additional details.
