

Table 51b. America Speaks: Selected Characteristics of Households by Linguistic Isolation for Wisconsin: Census 2000

Note: An error in processing caused an understatement, in Tables 1B to 52B, of the total number of households and the total number in each category. Distributions of households across certain characteristics were also affected. We have corrected the data

[Data based on a sample. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see <http://www.census.gov/prod/cen2000/doc/sf3.pdf>]

¹Speaks a language other than English at home.

²A linguistically isolated household is one in which no member 14 years old and over (1) speaks only English or (2) speaks a non-English language and speaks English "very well." In other words, all members 14 years old and over have at least some difficulty with English.
