Webinar Presented on March 22, 2011
Topics Presented

- Race and Hispanic origin standards
- 2010 Census race and Hispanic origin questionnaire items
- Tabulation of race and Hispanic origin data from the 2010 Census
- Selected 2010 Census race and Hispanic origin data products
Race and Ethnicity Standards

The Office of Management and Budget (OMB) is responsible for issuing standards for the classification of federal data on race and ethnicity.

OMB’s 1997 standards include:

- 2 minimum categories for data on ethnicity
- 5 minimum categories for data on race
- Multiple race reporting is accepted
Race and Ethnicity Standards

OMB Race Categories:

- White
- Black or African American
- American Indian or Alaska Native
- Asian
- Native Hawaiian or Other Pacific Islander

The Census Bureau is permitted to use an additional category - “Some other race”
Race and Ethnicity Standards

OMB Ethnicity Categories:

- Hispanic or Latino
- Not Hispanic or Latino

Race and ethnicity are considered separate concepts

Those who identify as either ethnicity category above may be any race(s)

Tabulation of Race and Hispanic Origin Data from the 2010 Census
Hispanic Origin Data Tabulation
Concepts

Hispanic or Latino
– Includes people who reported a Hispanic origin

Not Hispanic or Latino
– Includes people who identified as not being of Hispanic origin
2010 Census Hispanic Origin Distribution: California

California Total Population
= 37.3 million

(14.0m) Hispanic
37.6%

(23.2m) Not Hispanic
62.4%

Race Data Tabulation Concepts

Race alone
– Includes people who indicated only one race
– For example, people who identified as “Asian and no other race” are included in the Asian alone population

Two or More Races
– Includes people who reported more than one race
– 57 combinations of the major race groups
Race Data Tabulation Concepts

There are six race alone categories:

- White alone
- Black or African American alone
- American Indian and Alaska Native alone
- Asian alone
- Native Hawaiian and Other Pacific Islander alone
- Some Other Race alone

These six categories and the Two or More Races category are mutually exclusive and sum to the total population.
2010 Census Race Distribution: California

- White alone (21.4m) 57.6%
- Black alone (2.3m) 6.2%
- American Indian and Alaska Native alone (0.4m) 1.0%
- Asian alone (4.9m) 13.0%
- Native Hawaiian and Other Pacific Islander alone (0.1m) 0.4%
- Some Other Race alone (6.3m) 17.0%
- Two or More Races (1.8m) 4.9%

Race Data Tabulation Concepts

Race alone or in combination

– Reflects the maximum number of people who reported a particular race

– For example, people who identified as “Asian alone” and no other race, plus people who identified as “Asian and one or more other race groups” are included in this population
There are six race alone or in combination categories:

- White
- Black or African American
- American Indian and Alaska Native
- Asian
- Native Hawaiian and Other Pacific Islander
- Some Other Race

These six categories are not mutually exclusive and the sum exceeds the total population.
2010 Census Race Alone and In Combination Distribution: California

- **White**: 61.6% (23.0m)
- **Black**: 7.2% (2.7m)
- **American Indian and Alaska Native**: 1.9% (0.7m)
- **Asian**: 14.9% (5.6m)

Race and Hispanic Origin Data Tabulation Concepts

Cross-tabulation of race and Hispanic origin

• Hispanics may be any race. For counts and characteristics of race groups, excluding Hispanics, a cross-tabulation is utilized

• This approach creates mutually exclusive categories such as:
  - White alone, not Hispanic
  - White, Hispanic
  - etc.
Race and Hispanic Origin
Data Tabulation Concepts

Cross-tabulation of race and Hispanic origin

- To obtain data on the “minority” population, race and Hispanic origin data need to be cross-tabulated

- Minority refers to people who identified their ethnicity and race as something other than non-Hispanic White alone
