Corrected 1990 Census Population, Housing Unit, and Group Quarters Counts for Governmental Units

This report, "Corrected 1990 Census Population, Housing Unit, and Group Quarters Counts for Governmental Units," contains the April 1, 1990 census counts for legal entities with officially recognized revisions to the counts that were published in the Census Bureau's 1990 census data products.

These count corrections reflect changes in the geographic assignment of living quarters resulting from corrections to the January 1, 1990 legal boundaries used to tabulate the census. Boundary errors were identified in correspondence we received from local governments and during the Boundary and Annexation Survey. Following a thorough review of our records, and with appropriate consultation with local government officials, these boundary errors were corrected. Corrections to the census counts also resulted from the reassignment of living quarters that were initially misallocated to the wrong geographic area, even though the boundaries were correctly portrayed, or from correction for over or underenumeration.

This report lists corrected counts for functioning local governments nationally, and also includes minor civil divisions in certain Northeastern and Midwestern states in table 1. United States and state level counts, including corrections (if applicable) also are posted in table 1. American Indian Reservation and Trust Land count corrections appear in table 2. The District of Columbia, Hawaii, and Maine do not appear in this report, as no census errors to functioning governmental units were reported or discovered. However, the corrected national totals do reflect the tabulated counts for the District of Columbia, Hawaii, and Maine.

The following symbols are used in the tables of this report:

- A dash "-" represents zero.
- (NA) means not available.
