This memorandum documents the review of the 2020 Census Detailed Operational Plan for the IT Infrastructure (ITIN) operation. The document describes the high-level processes that will be in place during the 2020 Census to manage the IT infrastructure.

The ITIN operation ensures effective management of the integrated IT environment and coordination of IT management functions across the constituent IT installations that make up the 2020 Census IT infrastructure.

**The 2020 Census Memorandum Series**

The 2020 Census Memorandum Series documents significant decisions, actions, and accomplishments of the 2020 Census Program for the purpose of informing stakeholders, coordinating interdivisional efforts, and documenting important historical changes.

A memorandum generally will be added to this series for any decision or documentation that meets the following criteria:

1. A major program-level decision that will affect the overall design or have significant effect on the 2020 Census operations or systems.
2. A major policy decision or change that will affect the overall design or significantly impact the 2020 Census operations or systems.
3. A report that documents the research and testing for the 2020 Census operations or systems.
