This memorandum documents research on the geographic distribution of the 2010 Census Coverage Followup results for young children. This research identified areas with the greatest numbers and highest rates of positive responses to the child undercount probes, and areas with the greatest numbers and proportions of their young children added as a result of the Coverage Followup operation.

**The 2020 Census Memorandum Series**

The 2020 Census Memorandum Series documents significant decisions, actions, and accomplishments of the 2020 Census Program for the purpose of informing stakeholders, coordinating interdivisional efforts, and documenting important historical changes.

A memorandum generally will be added to this series for any decision that meets the following criteria:

1. A major program level decision that will affect the overall design or have significant effect on 2020 Census operations or systems.
2. A major policy decision or change that will affect the overall design or significantly impact 2020 Census operations or systems.
