PART VI.

CITIES, TOWNS, COUNTIES, &c.

THE Census does not furnish material for separating the urban and rural population of the United States, so as to admit of a statement showing the extent of either. Such a table to each of the States would be very valuable, and it is much to be regretted that it can be deduced from none of the census publications.

So imperfect is the Census of 1850 in this respect that hundreds of important towns and cities in all parts of the country, and especially in the South and West, are not even distinguished on the returns from the body of the counties in which they are situated, and therefore their population cannot be ascertained at all. Again, slaves are often included in the towns, simply because their owners reside there. But what is of more importance and the greatest cause of embarrassment is the fact that in New England and the Northern States, what are returned as cities, and towns, often include whole rural districts. If the information in regard to town and city population is ever to be correctly ascertained, there must be explicit instructions to separate upon the returns, distinctly, all places having an aggregation of over fifty or a hundred persons, with a store, tavern, blacksmith shop or school house and post office, or some or all of these, and to include within such village, town or city, no person not resident within its limits proper. It would not be difficult to frame suitable instructions upon this point.

TABLE CCXVI.—*Comparative Population of the largest Cities of the U. States.*

Cities.	State.	Settled.	Years.	1790.	1800.	1810.	1820.	1830.	1840.	1845.	1850.

NOTE.—The year 1845 and the periods earlier than 1790 are taken from State enumerations, and from other sources of information.

* Population of the settlement. † State census of 1852.

‡ Errors were made in Boston and New Orleans in 1840, underestimating the population in the first city, as proved by Mr. Shattuck, to the extent of about 8,000; and overestimating it in New Orleans, as proved by Dr. Barton, by at least 10 or 15,000.

TABLE CCXVII.—*Comparative Population of other large Cities, 1840 and 1850.*

In Richmond the number of persons to a dwelling in 1850 averaged 5.2, Charleston 5.6, Mobile 5.8, New Orleans 6.5, Philadelphia 6.6, Baltimore 6.9, St. Louis 7.7, Cincinnati 8.2, Boston 8.9, New York 13.6. In the whole embraced within the corporate limits of Mobile there are 1.6 persons to the acre, in Washington 7.2, St. Louis 26.3, Cincinnati 30.0, New York, 42.2, Boston 53.9; in the portions of these cities actually and fully settled, the number to the acre was as follows: Mobile 13.8, New Orleans 45.4, Cincinnati 45.0, St. Louis 47.4, Philadelphia 80.0, Boston 82.7, New York 135.6. In 30 years Charleston in 1850 had increased 73 per cent., Savannah 103, Baltimore 169, Philadelphia 198, Boston 221, Providence 252, New York 316, New Orleans 328, Louisville 976, Cincinnati 1097; in 20 years the increase of Richmond was 71, Nashville 82, Mobile 542, Chicago 570, Milwaukie 1071, St. Louis 1464. In an average period of about 30 years the increase of European cities in 1852 had been as follows: Amsterdam 15 per cent., Copenhagen 22, Naples 23, St. Petersburg 42, Madrid 43, Paris 47, Brussels 69, Vienna and London 91, Berlin 134.

The population of 17,150 places was ascertained by the British census of 1851—10,929 by the U. S. census 1850. 815 towns in Great Britain contained 10,556,228 persons, or one-half nearly of the whole population. In the United States it may be assumed that the village, town and city population includes about one-fourth of the whole. There were, in 1850, 2,500,000 persons resident of cities exceeding 20,000 each, and the aggregate of tables CCXVI and CCXVII is about 3,000,000. The rural population might be ascertained by multiplying the number of farms into the average persons existing upon each. Other statistics of cities will be found in previous chapters and in the appendix.

NOTES ON THE COUNTY TABLES WHICH FOLLOW.

The table of counties which follows will show for 1850 the whites, free colored and slave, and the total in 1840, (the male and female of the colored can be ascertained by deducting those of the whites from the total males and females there given,) the nativities of the white and free colored born out of the State and in the United States or in foreign countries, the dwellings and the families of the free population, the pupils, white and colored, and income of public schools and of all other schools and colleges as returned by institutions, and also of whites as returned by families, the whites between 5 and 20 years of age, the whites over 20 unable to read and write, the number of persons for whom there are church accommodation, the number of farms, the quantity and value of lands and implements, the stock and agricultural products, the manufactures produced in families, with the capital, hands employed and annual product of establishments as contradistinguished from families, including all mechanical pursuits, &c. in shops where the annual value of product at the place of manufacture exceeds $500.

The blanks indicate that nothing has been returned by the marshals, whether from its non-existence, from the impossibility of ascertaining the facts, or from neglect or oversight.

The remarks upon counties denote such changes as have taken place between 1840 and 1850 in their organization or boundaries, so as to estimate the true increase.

The aggregates of the columns will be found in the tables by States in the former part of the volume, and could not be inserted here without widening the columns, and increasing unnecessarily the extent of the work.

Out of 1,626 counties in the United States in 1850, 480 had been created or altered in the previous ten years—in 54 the females greatly preponderated, 155 the slaves and in 7 the foreign born. In 441 counties there were few or no foreigners; in 20 counties the native and foreign were about equal. In 1,023 counties there were slaves; in 192 there were no free colored.

* Population of township, since sub-divided. † Population in 1852. ‡ Estimated population in 1852.
