¹ Although they are linguistically Creole languages, some French-based Creoles (Guadeloupean Creole French, Saint Lucian Creole French, and Haitian) and Portuguese-based creoles (Kabuverdianu and Upper Guinea Crioulo) are included under Indo-European languages in standardized tabulations, in order to maintain comparability with ACS estimates prior to 2016.

Note: N.E.C. stands for Not Elsewhere Classified. Whenever possible, language names and three-letter codes follow the ISO-639-3 standard. Other codes have been added for common write-ins that cannot be identified at the ISO-639-3 level, but can be classified within a language family (i.e. Berber languages, Karen languages), or within a geographical region (i.e. Europe N.E.C., Nigeria N.E.C.). Languages within a macrolanguage are coded at the more detailed individual language level whenever possible, and at the macrolanguage level (i.e. Chinese, Arabic, Persian) when it is not possible to determine the individual language from the write-in answer. ACS language questions are only designed to capture spoken languages and do not give accurate estimates of signed languages. Signed languages are recorded within the internal unedited data; however, they are combined with the closest spoken language in the edited data.
