¹This code is used to identify not reported industries in surveys where the not reported cases are not allocated.

²Those returns from the Population Census which do not have an industry entry are allocated among the major industry groups during computer processing. These cases are labeled with the code for the "allocation" category to which they are assigned. (See text, page IV).

²This code is used to identify not reported occupations in surveys where the not reported cases are not allocated.

³Those returns from the Population Census which do not have an occupation entry are allocated among the major occupation groups during computer processing. These cases are labeled with the code for the "allocation" category to which they are assigned. (See text, page IV).
