</table>

Note: Based on population estimates of States as of July 1, 1986. Population values shown in this table are derived from the CPS sample, and may not match independently-derived estimates of the population. See "State and Metropolitan Area Populations," in appendix A for more information.

The value of 1.6 times the standard error (1.6 * (s.e.)), added to and subtracted from the estimated percentage, yields the 90-percent confidence interval. For further details of calculation and interpretation, see appendix B: Source and Accuracy of the Estimates.

*Persons of Hispanic origin may be of any race.
