2007 Economic Census - Geographic Notes and Changes from 2002 to 2007

FIPS State Code	FIPS County Code	FIPS Place Code	Description
			Buffalo city is no longer tabulated separately due to a change in criteria. This change adds territory to the Balance of Johnson County.
			Kemmerer city is no longer tabulated separately due to a change in criteria. This change adds territory to the Balance of Lincoln County.
			Mills town is no longer tabulated separately due to a change in criteria. This change adds territory to the Balance of Natrona County.
			Newcastle city is no longer tabulated separately due to a change in criteria. This change adds territory to the Balance of Weston County.
			Thermopolis town is no longer tabulated separately due to a change in criteria. This change adds territory to the Balance of Hot Springs County.
			Wheatland town is no longer tabulated separately due to a change in criteria. This change adds territory to the Balance of Platte County.
			Worland city is no longer tabulated separately due to a change in criteria. This change adds territory to the Balance of Washakie County.
56	017	98017	Balance of Hot Springs County includes Thermopolis town, which is no longer tabulated due to a change in criteria.
56	019	98019	Balance of Johnson County includes Buffalo city, which is no longer tabulated due to a change in criteria.
56	023	98023	Balance of Lincoln County includes Kemmerer city, which is no longer tabulated due to a change in criteria.
56	025	98025	Balance of Natrona County includes Mills town, which is no longer tabulated due to a change in criteria.
56	031	98031	Balance of Platte County includes Wheatland town, which is no longer tabulated due to a change in criteria.
56	043	98043	Balance of Washakie County includes Worland city, which is no longer tabulated due to a change in criteria.
56	045	98045	Balance of Weston County includes Newcastle city, which is no longer tabulated due to a change in criteria.

Wyoming Geonotes

2002 Economic Census - Geographic Notes and Changes from 1997 to 2002

FIPS State Code	FIPS County Code	FIPS Place Code	Description
56	025	53460	Mills is now tabulated separately due to a population increase. This change deletes territory from the Balance of Natrona County.
			Balance of Natrona County no longer includes Mills, which is tabulated separately due to a population increase.

Notes on Geography Changes

This file provides information on geographic changes that have occurred between the economic census years that may impact data comparability. Information on other geographic issues that may be useful to data users is provided as well.

This information is provided in 2 worksheets in this MS Excel workbook. The 2007 worksheet identifies the changes that have occurred between the 2002 and 2007 Economic Censuses. The 2002 worksheet identifies the changes that have occurred between the 1997 and 2002 Economic Censuses. The information is provided in alphabetical place order, with Balance of County places listed last.

The following types of changes and notes are provided:

- **Place and County changes due to geographic boundary changes.** (2007 and 2002 worksheets)
- **Place qualification changes due to population change.** (2007 and 2002 worksheets)
- **Changes due to incorporation or other legal changes.** (2007 and 2002 worksheets)
- **Changes to the criteria used to identify the publishable geographies for the 2007 Economic Census.** (2007 worksheet only) These include:
 - **The addition of Census Designated Places (CDPs, also know as unincorporated places).** Up thru the 2002 Economic Census, data were published only for incorporated cities (except in Hawaii, where data for census designated places (CDPs) were provided). Businesses in CDPs were published as part of the “Balance of County”. CDPs were added as publishable places for the 2007 Economic Census.
 - **Changes to the population cutoff used to identify the places published.** For the 2002 Economic Census, the data for most states included incorporated places with 2,500 or more inhabitants. (For the six New England states, plus New York, Wisconsin, Michigan, Minnesota, New Jersey and Pennsylvania, a 10,000 or more population cutoff was used.) For the 2007 Economic Census, this threshold was standardized to 5,000 or more inhabitants for all states.
 - **The addition of a jobs cutoff used to identify the places published.** Only a population criterion was used to identify the published places for the 2002 Economic Census, but for the 2007 Economic Census a criterion of 5,000 or more jobs was added. This resulted in 117 places added that qualified using the jobs criteria that did not qualify using the population criteria.

The worksheets also include descriptions of places that cross county boundaries, listing the two or more counties the place crosses into.
