MEET LINDA

Linda used Census Bureau data to help find the best location for her new bakery—statistics made possible by your response to Census economic surveys.

U.S. Census Bureau Economic Surveys

The Census Bureau conducts more than 30 economic surveys each year, providing official statistics companies can use:

- Monthly and quarterly surveys have smaller samples and provide the most timely data available.
- Annual surveys have larger samples and provide the most up-to-date trend data available.
- Every 5 years, the Economic Census measures all businesses and provides the most comprehensive data available.
