Economic Census Snapshot
New York

The Economic Census provides detailed data on Sales and other measures of business output for nearly every sector of the U.S. economy at the national, state, and local area levels by 2-thru 6-digit NAICS code. Detailed product lines data are also available at the national and state levels.

(Note: excludes the Utilities, Information, and Finance and Insurance sectors where state-level revenue data are not published. Source: 2012 Economic Census)

DID YOU KNOW

Wholesale Trade businesses in New York reported average sales per employee of nearly $1.2 million in 2012

The Health Care and Social Assistance sector had the most employees of any sector in New York in 2012 (nearly 1.5 million)

The Health Care and Social Assistance sector reported the highest annual payroll of any sector in New York in 2012 (nearly $65.2 billion)

There were more Retail Trade establishments in New York in 2012 than any other sector (77,463)
Detailed industry data are not only shown at the national and state level by 2-thru 6-digit NAICS but also at the county, city/town, and even ZIP Code levels. (Note: Data are often suppressed at the detailed 6-digit NAICS levels for local areas to protect the privacy of individual businesses.)

The Economic Census is conducted every 5 years, on the years ending in “2” and “7”. Data are shown for comparable industries back to 2002, and data between the Economic Census years are available in our Monthly, Quarterly, and Annual business surveys.
