Office of the Director

**A Message from the Director, U.S. Census Bureau:**

We request your participation with the **2020 Annual Survey of Local Government Finances**. This survey provides the only source of nationwide and comprehensive information on state and local government finances. Results of this survey are used by the U.S. Congress, federal agencies, state governments, other local governments, educational and research organizations, and the general public. For example, the U.S. Department of Justice uses our expenditure data to calculate the required pass-through percentages from state to local governments for the Byrne Memorial Justice Assistance Grants.

The U.S. Census Bureau has designed a survey form to gather information about county and municipal finances in the State of Nevada. The data collected will be aggregated by the Bureau to provide a general picture of revenue sources and expenditures for Nevada communities in the United States.

It is important that every county and municipality respond to this survey in order to create the most accurate picture of the community finances in the State of Nevada. The financial figures you provide do not have to be audited or certified if those numbers are not available. The figures you provide will only be used to create statistics on revenue and expenditures. The enclosed document provides instructions.

Please fill out the survey online using the information listed below:
