“In combination” means in combination with one or more other races. The sum of the five race groups adds to more than the total population because individuals may report more than one race.

The original race data from Census 2000 are modified to eliminate the "Some Other Race" category. This modification is used for all Census Bureau estimates products and is explained in the document entitled "Modified Race Data Summary File Technical Documentation and ASCII Layout" that can be found on the Census Bureau website at <http://www.census.gov/popest/data/historical/files/MRSF-01-US1.pdf>.

The April 1, 2010 estimates are based on Census 2000 and were created without knowledge of the Census 2010 results. The April 1, 2000 population estimates base reflects changes to the Census 2000 population from the Count Question Resolution program and geographic program revisions.
