Note: The estimates are based on the 2010 Census and reflect changes to the April 1, 2010 population due to the Count Question Resolution program and geographic program revisions. See Geographic Terms and Definitions at <http://www.census.gov/popest/about/geo/terms.html> for a list of the states that are included in each region and division. All geographic boundaries for the 2012 population estimates series are as of January 1, 2012. An "(X)" in the 2010 Census field indicates a government that was formed or incorporated after the 2010 Census. Additional information on these areas are in the Geographic Change Notes (see <http://www.census.gov/popest/about/geo/changes.html>). For population estimates methodology statements, see <http://www.census.gov/popest/methodology/index.html>.

The estimates base population for selected areas also included group quarters populations from sources other than the 2010 Census. After comparison with other Census Bureau data collection efforts, the Census Bureau determined that the 2010 Census enumeration of the group quarters population in these areas was incomplete. Although not eligible for the CQR program, the Census Bureau concluded that including the additional group quarters population for these areas in the population estimates base would contribute to more accurate estimates. These areas include:

- Gadsden County balance (unincorporated area), FL
- Rockwell City city (Calhoun County), IA
