A Message from the Director, U.S. Census Bureau:

We request your participation with the Quarterly Survey of Plant Capacity Utilization. Your response is critical in preparing industry estimates of capacity utilization rates for the Nation. This survey measures changes in the use of production facilities in the manufacturing and publishing sectors. Government analysts use the estimates to develop monetary and fiscal policies and investment demands. In particular, the Federal Reserve Board will use these data to estimate monthly industrial production and assess change in industrial production and capacity. The Defense Logistics Agency will use these data to assess readiness to meet demand for goods under selected national emergency scenarios.

OMB Number

This collection has been approved by the Office of Management and Budget (OMB). The eight-digit OMB approval number is 0607-0175 and appears in the top right corner of each reporting screen. Without this approval, we could not conduct this survey.

Authority and Confidentiality

Title 13, United States Code, Section 8(b); Title 50, United States Code, Section 98, et seq; and Title 12, United States Code, Section 244, authorize the U.S. Census Bureau to conduct this collection and request your voluntary assistance. The Census Bureau is required by Title 13, United States Code, Section 9, to keep your information confidential and use your responses only to produce statistics. The Census Bureau is not permitted to publicly release your responses in a way that could identify your business, organization, or institution. Per the Federal Cybersecurity Enhancement Act of 2015, your data are protected from cybersecurity risks through screening of the systems that transmit your data.

Burden Estimate Statement

We estimate the Quarterly Survey of Plant Capacity Utilization will take an average of 2 hours and 5 minutes to complete. Factors such as company size, complexity and activity will affect your actual time to complete the survey. This estimate includes the time to review instructions, search existing data sources, gather and maintain the data needed, and complete and review the survey.
