

The purpose of this document is for users to learn how to download a table in the new American FactFinder and recreate GIS information formerly found in the legacy American FactFinder System. For the purpose of this document we will be downloading table PL001 from the 2000 Redistricting Summary File for all states.

How to Download in the NEW AMERICAN FACTFINDER:

1. To begin, navigate to American FactFinder at factfinder2.census.gov. Click Topics on the left navigation of the Main Page and the Topic Navigation expands.

2. Expand the Dataset category and select the 2000 Redistricting Data Summary File dataset.

3. The search results are updated to include all tables derived from the 2000 Redistricting Data Summary File. From this list you can select to view or download the available tables. By default, the system will present results for the U.S. geographic summary level. To select other geographic summary levels, use the Geography Search on the left navigation. Select Table PL001 by clicking on the hyper linked Table Title.
