The responses obtained from this survey will provide policy makers and business leaders with an up to date picture of the United States economic condition and are a key element in estimating the Gross Domestic Product (GDP) of the United States.

In order to receive timely response, estimates for the quarter specified on the form are acceptable if book figures for the quarter are not available. The Census Bureau is determined to provide the most accurate and useful data possible. We need assistance from firms like yours to achieve this standard.
