T PR: Asks which type of pension plan  
 PR12\_PR200 The following question is about  
 the plan you would consider to be your  
 most important retirement plan on this  
 job. There are several types of retirement  
 plans. In the first type of plan, your  
 benefit is defined by a formula usually  
 involving your earnings and years on the  
 job. In the second type of plan,  
 contributions made by you and/or your  
 employer go into an individual account for  
 you. The third type of plan shares some  
 characteristics with the above two plans.  
 In this type of plan, your employer  
 contributes a value equal to a percent of  
 each of your earnings each year and there  
 is a rate of return on that contribution.  
 This type of plan is sometimes called a  
 cash balance plan. What type of plan are  
 you in?

      PR26_PR260 I'd like to make sure about a
      particular type of retirement plan that
      allows workers to make tax-deferred
      contributions. For example, you might
      choose to have your employer put part of
      your salary into a retirement savings
      account and you do not have to pay taxes
      on this money until you take it out or
      retire. These plans are called by
