5 Minute Challenge: Voting Participation

Warm-Up Activity

Participation in Presidential Elections by Sex Since 1980

Note: Estimates are based on the citizen voting-age population, which is anyone age 18 and older who is also a citizen.

Use the graph above to answer the following questions:

1. Which group had higher registration rates? What about voting rates? Why do you think that is?

2. What are two things you learned from this graphic?

3. What is your prediction for voter participation in future presidential elections?
